2. Exceptional items include $48,000,000.00 biennial appropriation for the Nursing Building and funding for instituting competency based education, which gives us the opportunity to become a research center for competency based pedagogy.

3. Texas Dream Act will give in-state status for undocumented students.

4. State contracting will become how state agencies function for the things that we contract out.

5. Emerging technology funds which helped universities partner with technology funds has been abolished and is now a university research fund that can be used to attract top quality researchers such as Nobel Prize winners.

6. Hazelwood funds were not cut and do provide veterans and his or her family members funds to cover up to 150 credit hours at a university.

Robert Dotson reported on the work of the Academic Practices Committee chaired by Dr. Ballenger.

2. Because there is a need to come up with a better system of documenting and tracking classroom incidents- Dean Dotson provided a proposed Incident flow chart.
3. Incident reports are currently handled by faculty and department heads at both the graduate and undergraduate level. This policy should be reviewed and the decision should be voted on. An incident report form was provided.
4. Guidebook goes live the first day of school. Policy needs to be decided by August 1.
5. The civility statement from the Dean of Students’ office and the Academic Practices committee of the Senate on academic dishonesty will be worked on and sent to department heads.
