<td>Will Horton: How can the university assure that students who are on committees know when and where meetings will be held? Can there be more student representation?</td>
<td>The President’s Office provides a list of students assigned to university committees to the SGA President. Information on meeting dates and times is provided by the chairs of the committees to the SGA president and/or students assigned. Providing information (getting the word out) to the Greek organizations is a good way to encourage participation.</td>
