Towson State University, Towson, MD

#### Jason L Layfield, DVM, LLC, Weatherford, TX

January 2012- Present

Thoroughbred broodmare practice originated in Chesapeake City, MD after an amiable split from CVS. Same practice demographics as CVS with an increased yearling and performance horse clientele. Practice relocated January 2017 to Weatherford, TX. Case load is now primarily embryo transfer, recipient herd and donor mare management.

Chesapeake Veterinary Service, Chesapeake City, MD  
March 2002- December 2011

Primarily thoroughbred broodmare solo practice. Responsible for the care and reproductive management of large thoroughbred breeding farms. Practice includes broodmares, foals, stallions and yearling sales work. Clientele also includes other breeds who utilize fresh and frozen semen and perform embryo flushes.

Thoroughbred breaking and training center is also part of the practice. Practice had expanded enough to employ two veterinarians.

Winbak Farm, Chesapeake City, MD  
September 2000 – March 2002

Resident Veterinarian. Singularly responsible for the care of approximately 450 broodmares, 300 yearlings, 8 stallions, 340 mares and foals, 25 recipient mares, 25 race horses, and outside foals. Included palpation/ultrasound, treatment, foaling and embryo transfer of mares. Collection and semen evaluation of prospective stallions. Lameness and radiographic examination of yearlings and race horses. New foal examinations as well as intensive care for non-referred ill foals. Redesigned and instituted a successful vaccination program.

Oklahoma Equine Hospital, Washington, OK

June 1999 - September 2000

Associate veterinarian. Responsible for all in house reproduction work: including mares for shipped and frozen semen, problem mares, collection of stallions, and embryo flushes/transfers. Case management of all hospitalized patients including: critical care cases, neonates, lameness and post-op colics. Ambulatory practice which includes reproduction, lameness, neonatal, referral cases and routine vaccinations. Performed minor surgery and assisted with all other surgical cases.
