Course Description:

This course is designed to provide an overview of financial statement analysis with a focus on global entrepreneurship. It presents a framework for analyzing business opportunities and risks through the use of financial statement analysis, ratio analysis, trend analysis and valuation methods. Prerequisite Acc 222 and a minimum of 55 semester hours credit.

Required for: BBA, MBA

Course Materials:

Required Text:  

Financial Calculator: Any type is acceptable. Cell phones and other similar devices are not to be used OR be turned on in class.

Course Embedded Objectives:

Your achievement level for each objective will be measured by your success in completing the homework, quizzes and examinations. The successful student, upon
completion of this course, will be expected to have achieved the following as a result of this course:

- Understand financial statements, both from a historical viewpoint and the relationship between the Income Statement, the Balance Sheet and the Statement of Cash Flows.
- Be able to analyze financial statements and identify the strengths and weaknesses of firms using the techniques such as ratio analysis, common size analysis and cash flows.
- Understand and interpret the differences between US GAAP and International Financial Reporting Standards (IFRS) financial statements.
- Exposure to global entrepreneurship financial environment.

**Student Responsibilities:**

1. Read assigned material on schedule
2. Complete all homework assignments on time
3. Prepare for class, examinations and quizzes
4. Participate in all discussions

**Course Evaluation:**

Grades will be based upon the following items:

- Homework/Participation 10%
- First Exam 30%
- Second Exam 30%
- Group Project 30%

Grading scale: 90 - 100% =A, 80 – 89% =B, 70 – 79% =C, 60 – 69% =D and <60% =F.

Your grade will be based on the activities above and weighted accordingly.

**Assignments:**

Reading assignments will be one – two chapters per week. We will be incorporating the IFRS section at the back of the book into our weekly discussions of the chapters in order to gain an understanding of how accounting rules differ between US GAAP and IFRS. Homework will be assigned after every unit so that you may reinforce the concepts learned so please attempt the problems. I will provide solutions to the homework once they have been attempted. If you have difficulty with a problem, make an appointment with the instructor to receive help. Completing the problems will be beneficial to helping you prepare for examinations.
**Examinations:**
Two exams will be given during the semester. The exams will cover specific chapters as we cover the material during the semester. The exams will require working out problems like those assigned as homework as well as multiple questions related to concepts and terminology. There are no make-ups for the first three exams.

**Group Project:**
You will be required to complete a group project and present a written report. The project will be completed throughout the semester as we cover the material. All group members are expected to participate equally in the project work and will be required to turn in team evaluations. Please see outline of paper in the syllabus section of the course.

Based on your analysis of the firm's financial statements and any relevant supplementary information you can obtain about the firm and its operating environment, identify areas in which the company is performing well (strengths) and any problem areas (weaknesses). Include in your analysis an assessment of how the firm's strengths and weaknesses affect its credit worthiness and investment potential. Estimate the intrinsic value of the company's stock and issue an investment recommendation.

To complete this project you will work in groups of 3-5 students depending upon enrollment. All students are equally responsible for the work that is turned in. Each group may select the company they wish to analyze, so long as that company has not already been selected by another group and approved by the instructor. Be sure to select a publicly traded U.S. company with at least three identifiable comparable firms.

This project will require you to make use of numerous outside resources, including company web pages, annual reports, analyst reports, etc. Be sure to appropriately cite relevant resources.

**Data**
The time period for the financial statement analysis should include three years plus interim statements for the most recent year, if available. In addition to the financial statements and other material in the annual and 10-K reports, you should review relevant materials from outside sources such as newspapers, periodicals, and investment resources.

**Outline**
The following outline is provided for guidance, but the analysis should be adjusted, as appropriate, to conform to the individual characteristics of the firm.

Suggested Outline for the Financial Statement Analysis
I. Introduction  
A. Objective of paper  
B. Summary of findings  

II. Firm, Industry, and Environment  
A. Description of firm and its management  
B. Discussion of competitive environment  
C. Economic climate and outlook  
D. Other factors, e.g. governmental regulations, labor relations, litigation  

III. Evaluation of Financial Statements  
A. Overview  
B. Short-term liquidity  
C. Operating efficiency  
D. Capital structure and long-term solvency  
E. Profitability  
F. Market measures  
G. Quality of financial reporting  

IV. Outlook, Summary, and Conclusions  
A. Investment potential  
B. Credit assessment  
D. Summary and conclusions  

V. Appendix  

VI. Footnotes  

VII. Bibliography/References  

Written Report  
The written report should be between ten – fifteen pages in length however it can be longer, if necessary. An unlimited number of attachments are allowed and will not be counted in the fifteen pages however, you should include only those attachments that are relevant for the analysis and discussed in the text. The document should use a font size of 12 and one-inch margins. The summary page should give the reader a basic understanding of the firm, its past performance, its expected future performance, and the justification for your recommendation. This page should be able to stand alone as a summary of your analysis.
