Course Description:
This course is a comprehensive study of the early childhood pedagogy, research and
curriculum, including the area of instruction, experience, and use of materials. A special
emphasis will be given to planning curriculum that will help make learning meaningful for
young children. The focus will be on integrated curriculum, child-centered philosophy, the
role of play, and attention to the individual child’s needs and interests. Reflecting and
supporting diversity in addition to utilizing assessment tools and processes will also be
emphasized.

Student Learning Outcomes:
1. To investigate theories and practices associated with ECE curriculum.
2. To examine techniques used in authentic assessment and evaluation of young
children.
3. To create instructional materials, activities, and experiences used to teach the
curriculum in all areas.
4. To plan activities for an active hands-on approach to the curriculum where children can
learn specific skills and concepts.
5. To demonstrate methodology for teaching an integrated curriculum to young children.
6. To develop curriculum sensitive to cultural pluralism and children with special needs.

COURSE REQUIREMENTS

Instructional / Methods / Activities Assessments
1. Complete the Midterm Exam and Final Exam.

2. Read all assigned chapters from the textbook prior to the due date and actively
participate in Discussion Board questions. The student will respond to each question
with a complete paragraph and respond to at least two other classmates with
responses that communicate with more than just a one-sentence reply.
3. **Classroom Design**: Design your ideal preschool classroom. Justify the arrangement you have made based on your study of the subject. Specify what furniture and equipment you would use and why. The completed assignment should consist of one page for the diagram of the classroom and one page of your answers. A rubric will be provided. There are many good websites that can help you design your classroom.

4. **Interview with an Early Childhood Teacher**: Interview an early childhood teacher. Write a detailed overview of the interview. Include what they feel are the challenges facing new teachers today along with tips they could give to ensure your success. Let me know who you interviewed and why you selected that person. Make sure and check your grammar, spelling, and punctuation before submitting it to the Dropbox. A list of questions will be provided.

5. **Lesson Plans**: Develop and submit 5 lesson plans around one integrated theme that reflect developmentally appropriate practice for the age or grade level you are most interested in teaching in the EC-6 age/grade range. Develop a lesson plan for each of the following subject areas:

   - Reading/Language Arts (Chapters 9 & 10)
   - Math (Chapter 11)
   - Science (Chapter 12)
   - Creative Arts (Music, Drama, Movement, or Visual Art—Chapter 13)
   - Social Studies (Chapter 14)

**All written assignments will be submitted into the Dropbox on the assigned week. Please make sure to check this carefully.**
