Active participation includes attending each class session, completing reading assignments prior to class sessions, and participating in peer observation and peer counseling, and contributing substantive feedback. Absence from class and/or nonparticipation will result in grade reduction. More than two absences (or more than 5 class hours missed) will result in your final grade being reduced one grade level. More than three absences will require you to repeat this course for credit. Being late to class or leaving class early will result in grade reduction. Participation includes the ability of the student to interact with the professor and peers in a professional and respectful manner.

2. Mid-Term Self-Evaluation Paper: The mid-term paper is an opportunity for you to reflect on your initial peer counseling experiences. You should discuss the following areas in approximately 4-6 double-spaced and typed pages with each area delineated by a heading in your paper. Papers should be in APA format including complete cover page, page headers and numbering, headings, and double-spacing.
   • Your current strengths in regard to your basic counseling skills. Be thorough, specific and concrete.
   • Your current areas in need of improvement in regard to your basic counseling skills. Be thorough, specific, and concrete.

Students will turn in a minimum of 4 videotapes for evaluation. Students will complete a Counseling Skill Scale for each tape turned in for evaluation. Students must first evaluate their tape by completing the following and submit in a Manila envelope:
a) Videotape of session
b) Counseling Skill Scale form completed by student
• give specific examples of each skill as demonstrated on the tape with the time on the tape noted next to each example, and

Session requirements for each tape:
TAPES MUST BE AUDIBLE. The professor will not work to understand inaudible tapes. Inaudible tapes will be returned un-graded and will need to be redone.

Session requirements for each tape:
#1 - Baseline tape approximately 15 minutes demonstrating your current listening skills. You may only ask 3 QUESTIONS. If you ask more than 3 questions, you must provide an alternative response for each question over 3. Tapes are not appropriate if you ask more than 6 questions. CORE COUNSELING SKILLS

ATTENDING & EXPLORING SKILLS

APPROPRIATE LANGUAGE: counselor uses language that the client understands

EYE-CONTACT: counselor maintains appropriate eye-contact with client, with consideration for cultural differences.

ATTENDING TO CLIENT PRESENTATIONS: counselor observes and monitors client body posture, voice levels, verbal and facial expressions.

COMPLIMENTS: counselor recognizes and comments on client strengths and traits so as to increase motivation for change.

USE OF MINIMAL ENCOURAGERS: counselor models effective listening and supports client via verbal and nonverbal methods. For example: "m.m.-hmmm", "uh-huh", "yes"; “help me understand that”, “tell me more”; nodding, eye contact, variation of posture; comfortable posture.

USE OF OPEN-ENDED QUESTIONS, DIRECTIVES, & LEADS: counselor invites client reflection and exploration by making regular use of open-ended questions, calling client attention to specific subjects, and suggesting useful material to examine.

USE OF SILENCE: counselor does not speak when silence would effectively allow for client expression, experience, reflection, and movement.

FOLLOWING: counselor demonstrates ability to enter the client's world, attend to his/her presentation, & refrain from introducing irrelevant material or detouring client into nonproductive/irrelevant directions.

FOCUSSING: counselor identifies and develops appropriate issues, themes, and subjects in the session, limiting unhelpful storytelling, and reducing irrelevant material. Counselor is able to select the most useful material from various alternatives.

PACING: counselor is able to keep the session moving at a natural, productive speed that is neither too hurried nor too slow. Counselor adapts session pace that allows for satisfactory communication between client and counselor (e.g., slow client down).

RESTATEMENT: counselor conveys understanding of the session content by restating in exact or near-exact words whatever the client has just verbalized.

REFLECTION OF CONTENT: counselor is able to reflect back to the client his/her understanding of the subject matter being discussed in such a way as to promote understanding, clarification, and exploration.
REFLECTION OF FEELING: counselor is able to reflect back to the client her/his understanding of the emotions (feelings) being expressed in the session in such a way as to promote understanding, clarification, and exploration.

SUMMARIZING: counselor makes a general statement that reviews and condenses client presentation in segments, to facilitate transitions during session, or at end of session.

APPROPRIATE RESPONSE TO CLIENT ANXIETY: counselor recognizes increased levels of anxiety in client and works directly to reduce that anxiety in the session.

COUNSELING SKILLS SCALE-R (CSS)

Texas A&M University

Amy Watson, PhD, LPC-S

Student Name ____________________________

This survey assesses the quality of student performance of counseling skills. It divides nineteen specific “microskills” into six groupings (in caps following roman numerals). Please first rate the student’s microskills as -2, -1, 0, +1, or +2 according to the scale below. Then summarize each grouping of skills by adding and averaging its individual microskills scores. Place that average in the blank following the grouping heading. NOTE: If a skill is not performed but does not seem necessary, then assign it an “NN” and average only those skills performed into mean grouping scores. If a skill is not performed but should have been, then give it a score -1 and average it with the rest of the skills performed under that super-heading.

+2  Highly developed: helpful, well-timed, and consistently well-performed
+1  Well developed: helpful and well-timed when performed, but not consistently smooth
0    Developing skills: somewhat helpful, too many missed opportunities
-1   Continue practice: not helpful or well-timed, or no skill existent when it should be
-2   Major adjustment needed: not at all helpful or well-timed, harmful
NN  Not performed, but not necessary; (an) other skill(s) within this “grouping” used to effectively meet this grouping’s goals
