MIS 426: Management Information Systems
Fall 2012

Instructor:  Dr. Christine Alexander
Office:  BA 325
Phone:  (903) 886-5690  (email is the best way to contact me)
E-mail:  christine.alexander@tamuc.edu
Office Hours:  T/R 11:00-12:15 M/W 5:00-6:15 and By Appointment

Course Meeting Day/Time/Room
Section 01E – T/Th 9:30 AM - 10:45 AM – BA 346 (T) and BA 345 (Th) (Computer Lab)
Sections 01W and 02W – Tuesday 7:00 PM ClassLive

Course Description:
This course provides students with the understanding of managerial and organization needs to analyze, design, and implement an information system. The role of information services in management, including current professional practices and methodologies, will be covered along with the presentation of systems theory, decision theory, organizational models, types of information systems, information planning, and information systems development. Emphasis is on managerial and strategic aspects of information technology.

Prerequisite(s):
Senior standing is required.

Instructional Materials:
Textbooks:
ISBN: 978-1-256-04523-6

Please note this is a custom published book available only through the bookstore. It is part of the Bok Rental program that the Bookstore offers.

You will also need the following software
**Required** – Microsoft Excel (2010) or compatible spreadsheet software
**Required (provided)** – Microsoft Access (2010)
**Required (provided)** – SAP GUI Interface

Software (except for Excel) will be available in the computer lab and/or for download. Instructions for downloading are available in eCollege.

*Microsoft Access software is available to you free from Microsoft since our university is a member of the MSDN Academic Alliance program and you are enrolled in an MIS course using this software. SAP GUI Interface software is available to you free since our university is a member of the SAP University Alliances program and you are enrolled in an MIS course using this software. We will cover download/installation procedures in class.*
**Course Objectives:**
In order to determine the value of this course and to ensure that the concepts, principles, and problem-solving skills developed in the course will be applied on the job or in future academic settings, a set of objectives has been established. Upon completion of this course, the student will:

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Measurements (Outcome Assessments)</th>
</tr>
</thead>
<tbody>
<tr>
<td>After successfully completing this course, students will:</td>
<td></td>
</tr>
<tr>
<td>1. Describe an information system’s integration with business processes and the organization.</td>
<td>Results of discussion boards, exams, case study analysis, SAP exercises, application exercises, written papers</td>
</tr>
<tr>
<td>2. Recognize the advantages of using the database approach to data management.</td>
<td>Results of discussion boards, exams, case study analysis, SAP exercises, application exercises, written papers</td>
</tr>
<tr>
<td>3. Recognize how information is used for different types of decisions at various levels in the organization.</td>
<td>Results of discussion boards, exams, case study analysis, SAP exercises, application exercises, written papers</td>
</tr>
<tr>
<td>4. Name the systems development process and its major phases and steps.</td>
<td>Results of discussion boards, exams, case study analysis, written papers</td>
</tr>
<tr>
<td>5. Describe measures against management fraud, and computer fraud.</td>
<td>Results of discussion boards, exams, case study analysis, written papers</td>
</tr>
<tr>
<td>6. Describe security control.</td>
<td>Results of discussion boards, exams, case study analysis, written papers</td>
</tr>
<tr>
<td>7. Describe the extensive business reporting capabilities enabled by enterprise systems, the Internet, and business intelligence software.</td>
<td>Results of discussion boards, exams, case study analysis, SAP exercises, application exercises, written papers</td>
</tr>
</tbody>
</table>

**NOTE:** Failure to demonstrate mastery of these objectives will lead to failure in the course, regardless of point total.

**Method of Instruction:**
This course utilizes a cross functional approach. Class readings, in-class exercises, and cases are used to impart the course content will be incorporated from all functional areas of business. Teaching methods may include lecture notes, analysis of real-world cases, videos, computer applications cases and projects, and, written exercises.

**Grading Policies:**
The final grade will be determined based upon total points achieved throughout the semester. Points will be based upon the weighting factors as stated below.

- Unit Exams (total of 4) 25%
- Unit Paper (total of 4) 25%
- Application Cases (total of 4) 25%
- SAP Exercises 25%
In the workplace, you will be expected to produce documents that are clear, easy to read, error-free, and visually effective. Your written products must also satisfy general requirements of the organization, be appropriate for a specific purpose, and meet the needs of the audience. Final course grades are defined as follows:

A– Outstanding work: Shows superior analysis of the assignment; provides excellent selection of content, organization, design, and style that addresses both the practical and rhetorical requirements of the particular situation; uses a style that is fluent and coherent; excellent choice and use of visuals, has no major mechanical errors; shows insight, perceptiveness, originality, and thought.

B– Good work: Above the level necessary to meet course requirements; has a thorough, well-organized analysis of the assignment; shows judgment and skill in the presentation of material appropriate for the intended audience and purpose; supports ideas well with concrete details; has an interesting, precise, and clear style; good use of visuals; is free of major mechanical errors; strong, interesting work, although minor problems may be present.

C– Acceptable work: Meets all basic requirements of the course and assignment; provides a satisfactory analysis of the writing task, subject, and audience; accomplishes its purpose with adequate content, design, and detail; uses details, organization and expression appropriate for the rhetorical and practical context; adequate use of visuals; has acceptable mechanics; nothing remarkably good or bad about the work; equivalent work could be used in the professional world, but generally would be considered minimal.

D– Needs improvement: Minimally meets the assignment but is weak in one of the major areas (content appropriate for purpose, organization, style or mechanics) or offers a routine, inadequate treatment; document design and use of visuals is inadequate or inappropriate; shows generally substandard work with some redeeming features.

F– Unacceptable work: Does not meet the course requirements; fails to meet one or more of the core requirements of the course or assignment; may fail to cover essential points, or may digress to nonessential material; may lack adequate organization and show confusion or misunderstanding of genre or context; may use an inappropriate tone, poor word choice, excessive repetition, or awkward sentence structure; may be unclear; poor quality design and/or use of visuals; may contain an unacceptable level of errors.

Each document, presentation, or visual you prepare reflects your professional knowledge and establishes your professional image. In some cases, a document may be read both by your professor and qualified professionals in the discipline and these professionals may be asked to comment on the content, presentation quality, and value for evaluation purposes. It is critical that your work be done in a professional manner and written at the appropriate level for your intended audience.
**Academic Honesty Policy:**
Students are REQUIRED to submit to the Dropbox the Academic Honesty Policy form (with the Student Name, CWID #, and Date filled in) no later than **September 4, 2012**. This form is located in Doc Sharing. The purpose of this form is to confirm that you have read the syllabus, understand the course requirements, civility clause, and penalties for plagiarism. Grades for future assignments will receive a zero until this requirement is met.

**Academic Integrity:**
Academic integrity is the pursuit of scholarly activity free from fraud and deception and is an educational objective of this institution. Academic dishonesty includes, but is not limited to, cheating, plagiarizing, fabricating of information or citations, facilitating acts of academic dishonesty by others, having unauthorized possession of examinations, submitting work of another person or work previously used without informing the instructor, or tampering with the academic work of other students.

If you are to excel in this course, the need for collaboration is undeniable, even in cases of individual work. There is a fine line in this process. You are encouraged to seek the help and advice of others. However, you **must** do your own work. Please ask me if you have questions about what is proper and what is not.

**Student Conduct:**
All students are expected to conduct themselves in a professional manner at all times. You are adults and will be treated as such. Discriminatory, rude, and inappropriate language will not be tolerated in this class and students will be asked to leave or drop the class (these same rules apply for online discussions). If a student continues to act in the same manner during future classes, the instructor reserves the right to drop the student from the course.

**Intellectual Ownership:**
When reviewing the literature, one frequently peruses written thoughts, findings, conclusions, and perspectives of individuals and organizations that may be used to create credibility and/or rationale from investigative studies. A problem, however, is how to capitalize on such information, yet not violate the principles of intellectual ownership. One solution involves answering two questions: (1) what is plagiarism? (2) How is plagiarism avoided? Simply stated, plagiarism is claiming another person’s or organization’s works as one’s own. Such violations may be avoided by knowing how to use and acknowledge the works of others. The 6th Edition of the Publication Manual of the American Psychological Association states: “Authors do not present the work of another as if it were their own work” (p. 16). “Whether paraphrasing, quoting an author directly, or describing an idea that influenced your work, you must credit the source” (p.170). Quotation marks should be used to indicate the exact words of another. Each time you paraphrase another author (i.e., summarize a passage or rearrange the order of a sentence and change some of the words), you will need to cite it in the text.

Some people seem to believe that anything found on the Internet is free to use as they please. The "cut and paste" option also makes it easy to plagiarize. However, information on the web must be properly cited just as you would any "hard copy" periodicals. In this course, APA style citation is expected. Any written assignments must include in text citations as well as a separate reference page. The following web site provides valuable insight relating to what constitutes plagiarism and how it may be avoided: http://www.indiana.edu/~wts/pamphlets/plagiarism.shtml.

To avoid plagiarism an individual must give credit wherever he or she uses:
• another individual’s idea, opinion, or theory
• facts, statistics, graphs, and drawings that are not common knowledge
• quotations of another individual’s spoken or written words
• paraphrase another individual’s spoken or written words

Any deviation from the guidelines concerning quotes and citations constitutes plagiarism, as it suggests that you are trying to submit someone else’s work and creativity as your own. In accordance with the Texas A&M University-Commerce Code of Student Conduct Section 5.b [1, 2, 3], the penalties for students guilty of academic dishonesty include disciplinary probation, suspension, and expulsion. If you have any questions, please let me know.

Acts of plagiarism will result in writing assignments and research projects assigned a grade of ‘0’ for the first offense. Upon the second offense, student will be referred to the Dean of Student Services and will receive a grade of ‘F’ for the course with possible removal from the program and university. TAMU-C has purchased a license for TurnitIn.com which checks for plagiarism. All writing assignments turned in for a grade will be submitted to http://www.turnitin.com to be checked for plagiarism against reference sources and against other students’ papers. You may submit your paper early to check the similarity index. An index more than 25 indicates a need to re-write some of your paper. Please be sure to use this tool before submitting your paper for a grade. Papers submitted with an index greater than 25 will receive a failing grade.

If you are unsure what constitutes plagiarism and how to avoid it. Visit the following websites:
http://www.plagiarism.org/
http://www.unc.edu/depts/wcweb/handouts/plagiarism.html
http://www.indiana.edu/~wts/pamphlets/plagiarism.shtml

**Communicating with your Instructor:**
Since this is an online course, communication will be conducted via e-mail. eCollege has a built in e-mail - all e-mail correspondence will be through eCollege. If you email outside of eCollege, please include only your course number (including the section) in the email subject line.

For an appropriate e-mail format example, see below:

**Example:**
Dear, Hello, Greetings, Good Morning/Afternoon, etc.,

Your message.

Sincerely, Thank you, Regards, etc.
Your full name

Remember to professionally compose your e-mail messages with proper grammar, spelling, and a professional tone. Properly addressed and signed e-mails will be replied to within 24 to 48 hours Monday-Friday. If a face-to-face conference is required between the student and the instructor in the instructor’s office, an appointment must be made several days in advance by the student.
**Course Policies:**

- All assignments are individual unless otherwise indicated.

- All assignments should be submitted in eCollege. DO NOT email an assignment unless asked specifically to do so by the instructor. If you encounter problems submitting assignments, contact the instructor immediately. Remember, you have 2 ways to get into eCollege: (1) through your MyLeo sign-on and (2) if you are not able to get to eCollege from MyLeo, you can use the following URL to get there: [http://www.online.tamuc.org](http://www.online.tamuc.org)

Assignments are to be uploaded to the Dropbox by the due date posted. Verification that the professor has received your assignment is possible by looking in the Outbox portion of the student's Dropbox. You will not receive an e-mail reply from your instructor to verify that your assignment has been successfully submitted to the Dropbox. Grades will be posted for the correct assignment in the correct Dropbox. The “help” section in your eCollege course and the Student Online Tutorial will describe the steps necessary to submit assignments to the Dropbox.

Additionally, if you need technical assistance, you may contact technical support at eCollege. That contact number and e-mail address are listed under Technical Support and in the Announcements section of your course.

- All writing assignments should be created using Microsoft Word. Documents in 2003, 2007, or 2010 format are acceptable. All writing assignments should use APA formatting style (e.g. cover page, running header, page numbering, use of heading and subheadings).

- For **ALL** assignments, your file name should be named with your last name and first initial followed by a dash and then an appropriate name for the assignment. For example, my final exam would be named AlexanderC-FinalExam. On the first offense, you will be asked to correct your file name and resubmit your work. On the second offense, your score will be reduced by 50%. After the second offense, your assignment will not be graded.

- **Late work is highly discouraged. Late work will NOT be accepted if it is more than 1 week late. Late work will be reduced by 10% for each DAY that it is late.**

- **Discussion Boards (DB) – Discussion Boards (DBs) will be provided throughout the semester** so that students can discuss topics that are relevant to the course. You are expected to contribute to each DB. Making a contribution means that you add thoughtful insights to the discussion. You need to support your reasoning. You may share relevant work experiences, your insights/understanding of textbook material, or insights from other reading you have done on the subject. Please let us know what those outside sources are by providing a citation. You will not receive credit for a DB if your posting is not deemed a contribution. Further detail as to the number of contributions and responses required for each DB will be given in eCollege as the DBs are made available to you.

Discussion questions and topics may be added to the discussion area throughout the Semester. You will need to visit the area regularly. You are to consider the question or topic and post an appropriate response. You should support your response with external sources (not textbooks) whenever appropriate. I will grade your responses based upon the quality of the response,
including whether it is supported from external sources. All support should include all of the appropriate elements as identified in the APA Style Manual.

This is to be an attempt to create a seminar environment where you will be able to increase one another’s knowledge of the subject. You should visit this area at least once a week to read the material and respond appropriately. You may add information at a later time as you would in a regular discussion.

In this course, you will be expected to participate in Discussions weekly. Professional communication is always expected.

- “Attendance” is required. For online sections, your attendance and participation grade will be assessed based on your participation in Discussion Boards and ClassLive sessions. I will send out an email when new material is posted in eCollege. It is your responsibility to check the Announcements section of eCollege. You should also make a habit of checking the Virtual Office to see if your question has already been asked by another student.

- You are expected to have completed reading assignment(s), including PowerPoints, lecture notes, case studies, and other documents, **BEFORE** each chapter is assigned so that you can participate in DBs and class discussions. Sharing your ideas, points of view, and experience are critical to the learning experience for you, your classmates, and the instructor.

- Exams will be posted in eCollege. They will be limited as to the time you are given to complete the exam; generally you can expect at 90 minutes to complete 65 multiple choice questions. You will be told at the beginning of the exam how long you will have to complete it.

- A grade of Incomplete is given according to College and Department guidelines, primarily for medical reasons only.

- Students will be informed as promptly as possible of grades on projects and exams. Depending on the size of the class, typically, a one-week turn-around time can be anticipated.

- If you will not be able to complete this course, dropping from this class is your responsibility. If you do not drop the course, you will receive the grade you earned (usually “F”).

- Individual students are required to maintain a file (electronic/paper) for this class which includes the syllabus, course assignments, all graded and returned papers, a list of examination grades and other class resources. These resources (normally electronic) need not be submitted; however, it should be available to prepare exams and to clarify record discrepancies. This back-up strategy is important because of the potential for electronic failure. There are occasions when the instructor may not be able to open a file submitted in eCollege and will request a resubmission.

**Statement of Accommodation of Special Needs:**
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for
reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Disability Resources and Services  
Texas A&M University-Commerce  
Halladay Student Services Building  
Room 303 A/D  
Telephone: (903) 886-5150 or (903) 886-5835  
FAX: (903) 468-8148

Software Copying:  
Students may use the CBE Microcomputer Laboratory (BA 345) and software designed to run on personal computers. Much of this software is of a proprietary nature, and its duplication is strictly prohibited. Unauthorized copying is prohibited by the University, and violates the University’s software licensing agreements and various federal and state laws. Any student who engages in unauthorized software copying will be disciplined. However, the College of Business & Entrepreneurship licenses Microsoft Development tools for issue to students in MIS courses. Although Microsoft Office (Word, Excel, PowerPoint) is not included in the Academic Alliance license, Access is considered a tool and is included. Contact the instructor for additional information.

Course Assignment Requirements:
1. Academic Honesty Policy: Students are REQUIRED to submit to the Dropbox the Academic Honesty Policy form (with the Student Name, CWI #, and Date filled in) no later than September 4, 2012. The purpose of this form is to confirm that you have read the syllabus, understand the course requirements, civility clause, and penalties for plagiarism, Grades for future assignments will receive a zero until this requirement is met.
2. Exams: Each student will complete 4 online exams, one after each of the 4 units in the textbook (i.e. every 3 chapters.) Exams will be timed and will be open for 7 days (12:01 AM Monday thru 11:59 PM Sunday). Exams must be completed in one sitting. Once you begin an exam, you will have 90 minutes to complete it. Each exam is worth 100 points.
3. Quizzes: Each student will have the opportunity to complete 12 online multiple choice quizzes, one per chapter. Quizzes will be open during the week the chapter is covered (12:01 AM Monday thru 11:59 PM Friday). Quizzes may be taken multiple times. Quiz scores will not count toward your final grade. However, they will give you an idea of the types of questions you can expect on exams. You are strongly encouraged to take the quizzes.
4. Unit Paper: Each student will complete 4 unit writing assignments, Students will be expected to apply concepts from the unit to a particular situation, problem, or in conducting analysis. Each unit writing assignment is worth 100 points.
5. Application Cases: Each student will complete 4 application exercises, located in chapters 19-24 of the textbook. Each application exercise is worth 50 points.
6. SAP Exercises: Each student will complete a number of SAP exercises throughout the semester. Each SAP exercise will be worth 25 points.
7. Attendance/Participation: “Attendance” is required. There will be 5 Attendance/Participation points available each week.
a. For face-to-face sections, your Attendance/Participation grade will be assessed on your class attendance, being on time to class, and participation in class discussions and exercises.

b. For online sections, your attendance and participation grade will be assessed based on your participation in Weekly Chapter Discussion Boards and/or ClassLive sessions.
Rubrics to be used for Grading/Assessment

Exams: Objective scoring
Quizzes: Objective scoring
SAP Assignments: Objective scoring based on completion of required Document Flow elements
Homework Assignments: Objective scoring based on complete and comprehensive answers to questions:

Excellent 22.5-25
The student completes the tasks/questions with no major errors (spelling, grammar). The student demonstrates a full understanding of the concepts.

Very Good 20-22
The student completes the tasks/questions with only a few major errors and some minor errors. The student demonstrates a strong understanding of the concepts.

Fair 18.5-19.5
The student completes the tasks/questions with some major errors and many minor errors. The student has difficulty understanding the concepts.

Poor 18 or below
The student fails to complete the tasks/questions. The student does not understand the concepts.
