MATH 331-Discrete Mathematics

Fall 2012

The class meets Tuesday and Thursday, 9:30 a.m. – 10:45 a.m. in Binnion 330.

Instructor: Stuart Anderson
Office: Binnion-321  Phone: 903-886-5957
e-mail:  stuart.anderson@tamuc.edu
Departmental Fax: 903-886-5945.

Text: DISCRETE MATHEMATICS, 5th Edition, by Kenneth A. Ross and Charles R. B. Wright. Tentatively, chapters 1, 2, 3, 4 and 10 of the text will be covered. If time permits, parts of 5 and 11 will also be covered.

Course Description: Mathematical models, mathematical reasoning, sets, binary relations, counting and algorithm analysis, infinite sets. Prerequisites: CSci 151 and Math 192.

Student Learning Outcomes: A student who passes this course will demonstrate through solving problem the ability to apply mathematical reasoning to physical problems and theoretical situations. The student will have demonstrated problem solving ability that includes but is not limited to proving theorems, working with relations, and identifying relationships between set operations, logic operators, and Boolean algebra. The student will be eligible to enroll in a variety of upper level mathematics courses (catalog specified).

Tests: There will be three tests. Be careful to invest ample time daily in the course so that you will be prepared for each examination. Tests will count approximately 65% of your final grade.

Homework: Homework will be assigned almost every day. Always try to solve all assigned problems. You can expect the tests to contain problems similar to those assigned as homework, as well as a few problems that will be different. Selected problems may be collected and graded on some days. Also, a quiz can be expected from time to time covering the assignment for that day. Occasionally, there may be an opportunity for you to present problems at the board. The homework, quizzes and board work may count approximately 5% of your final grade.

Final: The final exam will be given on Thursday, December 13, 2012 at 10:30 a.m. The final exam will count at least 30% of your final grade.
**Make-up work:** No late tests will be given. If you miss a test, the final will be used to replace that score. No late homework will be graded and daily quizzes will not be repeated if missed. However, a percentage of the homework and quiz grades will be dropped to cover days when an absence is unavoidable.

**Grading Scale:**
- A: 90-100
- B: 80-89
- C: 70-79
- D: 60-69
- F: Below 60

**Office Hours:** My office is Binnion-321. If you need to see me, do not hesitate to schedule an appointment. If you are having difficulty in the course, please seek help early. I would be glad to help you any time I am available. I will plan to be in my office at the following times:

- MW: 3:30-4:30 p.m.,
- TR: 11:00 a.m.-noon; 3:00-4:00 p.m.
- Others, by appointment.

Occasionally, I will be out of my office for meetings or other obligations during scheduled office hours. I will try to let you know of these times early or will leave a note of explanation. Otherwise, you are welcome in my office.

**Attendance:** It is expected that you will be regular and punctual in attendance. Attendance will be noted daily.

**Course Calendar:**
- Test 1 – September 25.
- Test 2 – October 25.
- Test 3 – November 29.
- Final Exam – December 13. (It is possible that some revision of the test dates may occur as the semester progresses.)

**Dropping the Course:** It is my hope that no one will want to drop this course. Please keep in mind that the total number of courses dropped for academic reasons during undergraduate studies is limited to six. The last day to drop the course is Thursday, November 1, 2012.

**Basic tenets of common decency:** All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. (See Student’s Guide Handbook, Policies and Procedures, Conduct) This means that rude and/or disruptive behavior will not be tolerated. Please make certain that any cell phone in your possession never rings in class and is never used during class; do not leave class early unless prior arrangements have been made with the instructor; do not
Excuse yourself from class and then return. Failure to comply with these policies can result in a lowering of your grade or expulsion from the course.

**Students with Disabilities:** The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:
