IT 111.01E, .02E, .03E Computer Aided Design (CAD)  
Course Syllabus: Fall 2012  
Web Enhanced Based

Instructor: Perry Moler, Instructor  
Department of Industrial Engineering & Technology

Office Location: Charles J. Austin Industrial Engineering & Technology Building, Room 125A  
Office Hours: 11-12 p.m. M,T,R 2-4 p.m. F, or by appointment.  
Office Phone: 903-886-5361  
Office Fax: 903-886-5960  
University Email Address: Perry.Moler@tamuc.edu

COURSE INFORMATION

Materials – Textbooks, Readings, Supplementary Readings:

Textbook(s) Required: Tutorial Guide to AutoCAD 2008, A  
Shawna Lockhart, Montana State  
ISBN-10: 0136127215  
Publisher: Prentice Hall, Copyright: 2008, Format: Paper; 672 pp  
Published: 09/19/2007

Course Description: IT 111 - Computer-Aided Design (CAD) - (ENGR 1304) Computer Aided Design (CAD). Three semester hours (2 lecture, 2 lab) This is an introductory course in freehand sketching and computer-aided drafting/design. Students will be taught basic CAD commands, tools, multi-view drawing and dimensioning techniques. For successful completion of this course a comprehensive examination over the use and execution of CAD will be required. Persons not passing the comprehensive examination will be required to repeat the course. 3.000 Credit Hours, 3.000 Lecture hours

Student Learning Outcomes:
1. Demonstrate basic concepts of the AutoCAD software  
2. Apply basic concepts to develop construction (drawing) techniques  
3. Ability to manipulate drawings through editing and plotting techniques  
4. Understand geometric construction  
5. Produce template drawings  
6. Produce 2D Orthographic Projections  
7. Understand and demonstrate dimensioning concepts and techniques  
8. Understand Section and Auxiliary Views  
9. Become familiar with the use of Blocks, Design Center, and Tool Palettes  
COURSE REQUIREMENTS

Instructional / Methods / Activities Assessments

Each student will be required to turn in 7 assignments, 5 quizzes a Mid-Term exam and a Final Exam covering the AutoCAD Tutorials. The assignments will coincide with the Tutorials covered in the text. The final exam will be four drawings that will encompass objectives learned throughout the course. Further details will be given with each of the assignment.

Grading

359.5 ~ 400 points A
319.5 ~ 359.4 points B
279.5 ~ 319.4 points C
240 ~ 279.4 points D
< 240 points F

**LATE WORK**: Late work **WILL NOT** be accepted.

TECHNOLOGY REQUIREMENTS

The following technologies will be required for this course. Internet access / connection – high speed recommended (not dial-up) Basic ability to use a personal computer required to learn the use of the AutoCAD program.

ACCESS AND NAVIGATION

Access to the internet and software applications will be required to complete and submit assignments, communicate with professor, and access grading. These applications are available in the Department of Engineering & Technology’s computer labs if the student does not have access from home.

COMMUNICATION AND SUPPORT

Interaction with Instructor Statement:

The instructor will be available during class and via eCollege. The primary communication tool used in this course will be the student lounge area within eCollege and occasionally email. Email will be sent to the students via the myLeo email address.

COURSE AND UNIVERSITY PROCEDURES/POLICIES
Course Specific Procedures:

Texas A&M University-Commerce will not condone plagiarism in any form. Plagiarism represents disregard for academic standards and is strictly against University policy. Plagiarized work can result in a “0” on a given assignment(s) or an “F” for the course as well as further administrative sanctions permitted under University policy. You may discuss course work and other course materials with fellow students (except during tests), but it is inappropriate to have another student do your course work or provide you with any portion of it.

Guidelines for properly quoting someone else’s writings and the proper citing of sources can be found in the APA Publication Manual. If you do not understand the term “plagiarism”, or if you have difficulty summarizing or documenting sources, contact your professor for assistance.

University Specific Procedures:

ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services
Texas A&M University-Commerce
Gee Library 132

<tbody>
<tr>
<td>Week 1</td>
<td>First official day of class. Review objectives, syllabus, etc. Become familiar with MyLeo and e-College and AutoCAD software. Group autoCAD project.</td>
</tr>
</tbody>
</table>
| Week 2 | **LECTURE**
Lecture on basic concepts of AutoCAD tools. Present 3-5 minute powerpoint over group project.  
**LAB**
Complete Tutorial 1 & QUIZ. Begin drawing exercises 1.1, 1.2, 1.4, 1.5M, 1.6, 1.7m, 1.9 and 1.11. |
| Week 3 | **LECTURE**
Lecture on basic concepts of AutoCAD tools.  
**LAB**
Complete drawing exercises 1.1, 1.2, 1.4, 1.5M, 1.6, 1.7m, 1.9 and 1.11. & Quiz. Exercises are to be completed according to the instructions handed out and submitted under Week 3 assignment in the drop box. |
| Week 4 | **LECTURE**
Lecture on basic concepts of AutoCAD tools.  
**LAB**
Complete Tutorial 2 & QUIZ. Begin drawing exercises 2.1M, 2.2, 2.3M, 2.5, 2.6 and 2.10M. |
| Week 5 | **LECTURE**
Lecture on basic concepts of AutoCAD tools.  
**LAB**
Complete drawing exercises 2.1M, 2.2, 2.3M, 2.5, 2.6 and 2.10M. & Quiz. Exercises are to be completed according to the instructions handed out and submitted under Week 5 assignment in the drop box. |
| Week 6 | **LECTURE**
Lecture on basic concepts of AutoCAD tools.  
**LAB**
Complete Tutorial 3 & QUIZ. Complete drawing exercises 3.1, 3.3, 3.5, 3.7, and 3.8. Exercises are to be completed according to the instructions handed out and submitted under Week 6 assignment in the drop box. |
| Week 7 | **MID-TERM EXAM**
Will be 4 drawings similar to those completed in previous assignments. Submit in Mid-Term drop box. |
| Week 8 | **LECTURE**
Lecture on basic concepts of AutoCAD tools.  
**LAB**
Complete Tutorial 4. Complete drawing exercises 4.1M, 4.5, 4.6, and 4.8M. Exercises are to be completed according to the instructions handed out. |
| Week 9 | **LECTURE**
Lecture on basic concepts of AutoCAD tools.  
**LAB**
Complete Tutorial 4 & submit under Week 8. Complete drawing exercises 5.2, and 5.3. Exercises are to be completed according to the instructions handed out and submitted |
<table>
<thead>
<tr>
<th>DATE</th>
<th>TOPIC/ ASSIGNMENT</th>
</tr>
</thead>
</table>
| Week 10    | **LECTURE**  
Lecture intermediate concepts & techniques of AutoCAD tools.  
**LAB**  
Begin Tutorial 6. Drawing exercises 6.1, 6.2, 6.3M, 6.4M, 6.5, 6.9M, and 6.12 as orthographic projections (front, top and right side views). Exercises are to be completed according to the instructions handed out. |
| Week 11    | **LECTURE**  
Lecture intermediate concepts & techniques of AutoCAD tools.  
**LAB**  
Complete Tutorial 6. Complete drawing exercises 6.1, 6.2, 6.3M, 6.4M, 6.5, 6.9M, and 6.12 as 3 view orthographic projections (front, top and right side views). Exercises are to be completed according to the instructions handed out and submitted under Week 11 assignment in the drop box. |
| Week 12    | **LECTURE**  
Lecture intermediate concepts & techniques of 3D Modeling using AutoCAD.  
**LAB**  
This week you will take the drawings you created in tutorial 6 and create a 3D MODEL drawing.                                                                                                                                                                                                 |
| Week 13    | No Class Thanksgiving.                                                                                                                                                                                                                                                                                                                                 |
| Week 14    | **LECTURE**  
Lecture intermediate concepts & techniques of 3D Modeling using AutoCAD.  
**LAB**  
This week you will take the drawings you created in tutorial 6 and create a 3D MODEL drawing. Submit under Week 14 assignment in the drop box.                                                                                                                                                                                                 |
| Week 15    | **LECTURE**  
Review for Final Exam.                                                                                                                                                                                                                                                                                                                                 |
| Week 16    | **FINAL EXAM**  
Will be 4 drawings similar to those completed in previous assignments. Submit under Final Exam                                                                                                                                                                                                                                                                 |
