REQUIRED TEXT: ACSM (2009). Exercise Management for Persons With Chronic Diseases and Disabilities. Champaign, IL. Human Kinetics Publishers.

Course Description:

The analysis of mechanisms responsible for reduction of functional capacity as result of biological aging and/or loss of health. Use of preventive exercise programs to diminish reduction and/or deterioration of physiological mechanisms as a function of age, health, and disease.

Course Objectives:

At the end of this course the students should learn about:

1. Translating the science of exercise physiology into the art of practicing exercise medicine.
2. Care and treatment of chronic disease and disability.
3. Appropriate exercise prescriptions that can positively affect functional capacity and slow or prevent exercise intolerance.

Course Requirements:

A. Assignments (35%)

The student will be responsible for obtaining all materials presented online and assigned readings from the textbook. You are responsible for making sure your assignments are in on time. Use the appropriate dropbox to submit assignments. You will need to click on “announcements” so you can see the Instructor’s comments for homework. Fourteen assignments will be given in the semester. **Due on Wednesdays by noon.** *PowerPoint Notes: PowerPoint notes to complement the chapter readings are available and can be downloaded under “Lectures” in the PowerPoint folder.

B. Online Quizzes (15%):

Students will need to complete 15 online quizzes related to the chapters. Take note: All of the quizzes have due dates posted online (due on Wednesdays by noon). Students will be unable to make-up a quiz when the due date has passed. Students will only be able to access the quiz one time, so once you enter the quiz be prepared to take the quiz. Quizzes have a 30 minute limit. If you get locked out of the quiz accidentally, e-mail me or call me and I will re-set it as long as it is *before* the due date.

C. Website Reports (10%)

Choice must be selected from any “suggested web sites” found at the end of each chapter. Turn in a full 1 page (typed, single spaced, 12 font, 1 inch margin) report to the instructor. First summarize the website and relate it to a book chapter topic, and then write a personal reaction to the website, including how you can use this information personally and professionally.

D. Suggested Reading Summary (20%)

Choice must be selected from any “suggested readings” found at the end of the textbook on p. 407-427. Turn in a full 1 page (typed, single spaced, 12 font, 1 inch margin) report to the instructor. First summarize the reading and relate it to a book chapter topic, and then write a personal reaction to the reading, including how you can use this information personally and professionally.

E. Exam (20%):

A final exam will be administered, covering all information in the book and the power point slides. Test will consist of objective questions (T/F and multiple choice) and application questions. Although exams are open book and open note, the time limit is 3 hours. **No make-up exam will be given, unless arrangements are made prior to the exam or a verifiable medical excuse is provided within 3 days.*

***Take note:** Students will be unable to make-up a report/presentation/assignment when the due date has passed. Often after a student earns a poor grade, he/she is interested in doing “extra credit” projects to improve their grade. NO extra credit projects or assignments will be offered in this class. All students have the same opportunity to succeed on the assigned work. Please use these opportunities to work hard and succeed.

I am empathetic to students who have various events prohibiting them from completing class assignments on time. Believe me, I have heard them all! However, your lack of motivation is just that. I believe in being fair to all students and I simply cannot justify a student who misses the opportunity to complete activities earning the same grade as a student who finishes every class assignment on time. Students who just seem to meet every obstacle will be justly rewarded. All late assignments automatically earn a zero.

Grading:

| | |
|---------------------------------------|-----------------------------|
| Assignments (14 x 25 pts/each) | 350 pts (35%) |
| 15 Quizzes (15 x 10 pts/each) | 150 pts (15%) |
