Course Description:

In the past, sexual assault and other sexual/gendered violence was addressed by examining and intervening with individual strategies that concentrated on the behavior and actions of individualized victims. Today, that paradigm has shifted and research and best-practices include other environmental and cultural factors that impact violence. This course will cover key concepts, programming and interventions in sexual assault, domestic violence, dating violence and stalking (sexual violence).

This course will explore the dynamics of sexual violence on college campuses including individual, relationship, community and societal risk and protective factors. We will examine several aspects of gender violence including culture; at-risk environments and populations; and current strategies and techniques utilized to prevent sexual violence.

Course Purpose:

The course will assist students in developing awareness and intervention strategies to utilize throughout the semester to raise awareness and become active and participatory bystanders. This course will also include additional effective strategies in addressing other forms of violence on college campuses, providing victim support and advocacy and collaboration.

ATTENDANCE, EXPECTATIONS & ONLINE PARTICIPATION

Just as students are required to attend face-to-face classes at Texas A&M University-Commerce, students' **logging in and participating in online components is a requirement.** Final evaluation and grades depend on both your presence and participation in the online environment. Students' grades will be significantly impacted by inadequate participation or lack of required time commitment each week.

Students are expected to spend a comparable amount of time in the online learning environment as they would in class (3 hours a week in the classroom). In addition, just as in traditional classrooms, students are expected to spend time reading and studying class materials.

Group interaction is an important component of this course and for this class, albeit electronic communication.

NOTE: PROBLEMS WITH YOUR INTERNET CONNECTION AND/OR COMPUTER ARE NOT CONSIDERED AS REASONS FOR LACK OF PARTICIPATION.

If you believe that you are unable to fulfill the requirements for the course you should talk with your academic advisor about the possibility of early withdrawal. I will maintain weekly "office hours" for online and phone contact to discuss any issues or needs you have.

TIMELY SUBMISSION OF ASSIGNMENTS:

Each assignment is due by **midnight on the DUE DATE**. The scheduling for each week's assignments is **Monday morning through Sunday midnight**. There will be **5 points per day** deducted for major assignments turned in late. After one week, no points will be awarded. **Weekly participation in discussions and journal postings must be completed during the week assigned or no points will be awarded for that week.**

UNIVERSITY HONOR CODE

"All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment" (Student's Guide Book, 1996-97, pp. 64-70). See also: Social Work Department Policies and Procedures, NASW Code of Ethics, and your MSW student handbook.

Plagiarism is the "Act of appropriating the literary composition of another, or parts of passages of his [or her] writings, or the ideas or language of the same, and passing them off as the product of one's own mind." (Black's Law Dictionary, Abridged Fifth Edition, 1983). When a student gives proper credit to the source, it is not plagiarism.

Some examples of cheating include copying answers from another's test or assignment, using notes during an exam, giving or receiving help on assignments, and submitting work already submitted for a previous class for credit in another class. If a student suspects cheating is occurring during an exam, the student must immediately notify the instructor, so that the instructor can evaluate the situation while it is occurring.

Law, University policy, and ethical standards all require that students refrain from plagiarism or cheating in any form. Social workers must be honest, trustworthy, and therefore social work students must avoid any behavior that is dishonest, or impairs the trust of others.

Instances of suspected plagiarism and/or cheating will be thoroughly evaluated. Students found in violation of this policy will be subject to disciplinary action by the Department and University. Violation of the above guidelines will result in a failing grade and possibly dismissal from the program.

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. Websites. Many students also like to use the Internet to conduct research. However, there are dangers in using the Internet for research because there is a lot of misinformation out there on these topics. **To be safe, use only government (*.gov) or university (*.edu) websites.** Wikipedia and other similar sites are NOT valid sources and are NOT to be used to write your paper or to cite. Wikipedia has only limited information on the Master Syllabi-Fall 2012 SWK 497-Violence Prevention

topics for this class, and the validity of that information is often suspect. If in question, please check with instructor.

Library. A great place to do research is your library's website. The library can provide valid search engines for only academic and scholarly articles. Please check with the library for additional resources.
