The field of adolescent psychology focuses on three related questions:

• Development
• Relationships
• Culture
COURSE EXPECTATIONS AND RULES

1. Class participation: class participation is expected of every student. In the event that a student does not participate in required activities or discussions, a loss of participation points will occur. Participation includes turning in assignments and viewing material.

2. Please be prompt in turning in assignments.

3. Assignments that are turned in late will receive a ZERO. There are no exceptions to this due to the fact that you have 7 full days for each week to complete all assignments. All assignments, group discussions, quizzes, or papers are due by midnight on the Sunday ending that week of activities.

4. You are responsible for all assigned reading material. Read the assignments carefully before entering discussions or fulfilling assignment/paper requirements.

5. ALL work will be carefully graded for content as well as appropriate grammar, spelling, and neatness. Do not forget to spell-check all your work. Also, all work should be presented in APA format. Questions on how to use this style can be resolved by clicking on the following link, APA Style, or by purchasing APA’s Publication Manual.

   Note: One of my biggest pet peeves is using first person and contractions in formal writing. If the assignment asks for a personal evaluation, opinion, or critique, you may use first person, however, in a formal paper it is not acceptable. Contractions should never be used under any circumstances.

6. Cheating in any form will result in failure of this class and a report of the incident will be placed in your permanent file. Academic dishonesty will be dealt with as outlined in the Student Handbook. Do your own work.

7. All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment.

8. Testing Procedure- All tests are in MC format. You will have as much time as you need to take the test within one class period.

NOTE: The instructor reserves the right to modify or change the syllabus at any time. The syllabus is a guideline, and thus additional assignments may be given and added to the total course grade.

ACTIVITIES/ASSESSMENTS

Adolescence Paper

Adolescence Project: Each student will select a psychopathology as identified by DSM-IV-TR that can affect an adolescent. A list of suggested topics of mental illnesses will be presented in class. There will be several areas of information that should be included in the paper, which are listed in the rubric. If you chose from the list, you do not need to get permission from the professor. If you wish to cover a topic not on the list, please get permission from the instructor.

Write a paper reviewing the mental illness. Your paper will be submitted to your instructor by report format. Your paper should be at least 5 pages (no less than 1500 words), not including the bibliography and coversheet, and must follow APA formatting.
Your bibliography should include no less than 5 sources. Wikipedia is not an acceptable source and your book only counts as one source. A good source of acceptable resources can be found as online journal articles from the university’s online library (there is a link on the left hand toolbar in the course). Please remember, never use first person in research papers. Feel free to email me rough drafts of your research paper for review should you have questions or concerns. Any rough draft for review must be emailed to me at least 10 days before the due date. Please be aware that I use a program called TURN-IT-IN to check for plagiarism. Be sure all your work is your own. If you quote from an original source, please put their words in parentheses. If you use someone’s thoughts or ideas, be sure to reference the source. For examples of APA see the links below.

INTERACTION WITH INSTRUCTOR STATEMENT

Students can expect to receive response from the instructor within 24-48 hours. I try to be extremely prompt in getting back to questions and emails, however, sometimes response may be closer to 48 hours. I will return grades within one week of completing an assignment. On larger projects, it may take me a little bit longer to grade. If I will not be able to finish within a week, I will let you know in class.
