Course Description

This course provides a business capstone for the study of the overall functioning of various types of organizations. This course includes a brief study of strategic planning including mission statement development, analysis of external environments and internal organizational factors, development of strategic alternatives, selection of appropriate alternatives, implementation of strategies, and competitive strategies and dynamics. Special emphases are given to the integration and coordination of the functional areas within the enterprise. The case method and/or a business simulation will be used to provide practical experience in analysis and decision making in the solution of business problems.

Goals / Rationale of the course:

- This is an online course with weekly assignments. It is important that you keep track of all deadlines for exams, cases, and projects.
- Curriculum includes readings, case analysis, PowerPoint presentations and practice quizzes to help students apply the theory to actual business situations. You are expected to keep up with the readings and cases.
- In addition to mastering the course content, you will apply strategic concepts to the team projects, and work cooperatively with your team members.
- Exams will be grouped in two modules: CH 1-5, worth 200 points (August 27 – October 18); and CH 6-11, worth 200 points (October 19 – December 10)

Course Outcomes/Objectives

This course aims to improve student understanding of concepts, principles, problems and applications of strategy. After completing this course:

1. Students will demonstrate an understanding of business strategy and the essential terminology and concepts including the strategic management process, the macro-environment of business, industry competition, various levels of strategy in a business, SWOT analysis, strategy selection, and planning for strategy implementation and control.
2. Students will apply business strategy concepts and the strategic management process to current company and industry situations through case analysis and presentations.
3. Students will develop a personal strategic plan with job search strategies, career analysis and long-term career plans.
4. Students will demonstrate personal communication and project management skills through a team project.
TECHNOLOGY REQUIREMENTS
The following technology is recommended to be successful in this web-enhanced course: Internet connection – high speed recommended (not dial-up) and Word Processor. Additionally, the following hardware and software are necessary to use eCollege:

Our campus is optimized to work in a Microsoft Windows environment. This means our courses work best if you are using a Windows operating system (XP or newer) and a recent version of Microsoft Internet Explorer (6.0, 7.0, or 8.0). Your courses will also work with Macintosh OS X along with a recent version of Safari 2.0 or better. Along with Internet Explorer and Safari, eCollege also supports the Firefox browser (3.0) on both Windows and Mac operating systems.

It is strongly recommended that you perform a “Browser Test” prior to the start of your course. To launch a browser test, login in to eCollege, click on the ‘myCourses’ tab, and then select the “Browser Test” link under Support Services.

COURSE REQUIREMENTS
Activities / Assessments

This syllabus lists the assignments and due dates you will need to stay on track.

Exams: (40% of total course grade)

Closed book exams will cover the required textbook reading and the content of the powerpoints. Complete the exams online by accessing the eCollege exam tool. The exams will be timed and grades made available to students following the submission of the exam. If you lose Internet connectivity during the exam, log back in immediately and continue on with the exam. Save your answers often (every 5-10 minutes). If you experience any issues while taking the exam, you must contact the eCollege Helpdesk immediately so that your issue is documented with a helpdesk ticket number. Considerations regarding exam issues will be made by the instructor on an individual basis based on the documentation.

Each exam consists of 100 multiple-choice questions (worth 2 points each for 200 points/exam), with 80 minutes allowed to complete each exam. I will open the exam at 7 am on the assigned day, and close it at 11:30 pm. That means you must begin by 10:10 pm if you want the entire 80 minutes. Exams are closed book and individual. That means using your book or notes, or working with another student is considered cheating and is grounds for an F in the course. Exam I (CH 1-5) is on Thursday, October 18; Exam II (CH 6-1) is on Monday, December 10.

Individual Career Assignment (15% of total course grade)

The Career Assignment will be an opportunity to apply some strategy principles to your personal career goals. Students in this class typically graduate during the term they are taking the course. Although some students already have jobs, they may be considering a change. And those with jobs that they do not anticipate leaving in the near future often find they are on the “small” end of a merger/acquisition or in some other way decide it is time to make a change during the next couple of years.

To facilitate and encourage students to begin preparing for their next job or career change, some time
will be included in this course. The assignment will be introduced in week 2. You will be required to use the Career Services/Career Development Office located in the new One Stop Student Access and Success Center. The phone number is 903-468-3223. This assignment is due on Thursday, October 4. You will upload the assignment to the Dropbox labeled “Career Assignment”.

**Industry/Company Assignments (30% of total course grade)**

The team project will begin during Week 3 when you select an industry to thoroughly research the current competitive structure and market forces within the industry. At the completion of Part I, the team will further divide into subgroups to research a major player within the industry, tracing their historical strategic position and making recommendations for future decisions. One member will submit the group paper (in its entirety) to the Dropbox. Be sure all names are on the first page, in alphabetical order.

**Assessment Method:** Papers will be graded on the comprehensiveness of the assignment (i.e. covering every element in the assignment), quality of research (using appropriate sources, objective sources), thoroughness of research (quantity of sources), quality of writing, and incorporation of strategy terms and concepts in the paper. Team members will also grade each other on the quantity and quality of their contribution. If a team member is not responsive to team members’ communication, or if they fail to deliver work on time, the team has the right to “fire” that member from the group. See grading rubric at the end of this syllabus.

**Case Analysis (10% of total course grade)**

You will be reading (or viewing), analyzing and submitting two individual written cases during the semester. The purpose is to demonstrate your understanding of the concepts in the readings by applying them to a real-life case situation. There will be several questions to guide the discussion, as well as a template. Case 1 is due on Monday, September 24. **Case 2 is due on Tuesday, November 8**

**Quizzes: (5% of total class grade)**

There will be a Core Concept quiz over key terms that will be covered in the textbook. I will give you a list of terms to study about 2 weeks before the quiz on Tuesday, November 20 or Wednesday, November 21.

There will also be true/false quizzes which do not affect your grade. These quizzes are a study tool to give you quick feedback about what you understand from the readings. Once you have read the chapters, and reviewed the Power Point presentations, the quiz will help you identify areas that need further review.

**COMMUNICATION AND SUPPORT**

**Interaction with Instructor Statement**

Email is the best way to contact me. I generally check my email several times each day and most questions will be answered within 24 hours. My replies will be sent to your myLeo email address.

If you have a question that affects the entire class, the Virtual Office is a better way to clarify the answer. That way I can explain myself once instead of answering the same question multiple times. Always check your home page for Announcements when you login. I expect students will check their email daily and login at least 3 times per week. If you don’t respond to emails or login over a prolonged period (10 days) then I will assume you intend to drop the course.

**Student Support**

Texas A&M University-Commerce provides students technical support in the use of eCollege. The student help desk may be reached by the following means 24 hours a day, seven days a week.

- **Help**: Click on the 'Help' button on the toolbar for information regarding working with eCollege (i.e. How to submit to dropbox, How to post to discussions etc...)
- **Chat Support**: Click on 'Live Support' on the tool bar within your course to chat with an eCollege Representative.
- **Phone**: 1-866-656-5511 (Toll Free) to speak with eCollege Technical Support Representative.
- **Email**: helpdesk@online.tamuc.org to initiate a support request with eCollege Technical Support Representative.
COURSE AND UNIVERSITY POLICIES

Academic Honesty Policy

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment.

There are two problems that seem to come up in online classes. The first is students who attempt to cheat on exams. Exam questions are randomized in order, and a time limit is set. If you try to extend the time by claiming your computer was timed out before you can submit the exam, be aware that I can see how many questions you have answered and how long you were online.

The second problem is plagiarism. Texas A&M University-Commerce does not tolerate plagiarism and other forms of academic dishonesty. Conduct that violates generally accepted standards of academic honesty is defined as academic dishonesty. "Academic dishonesty" includes, but is not limited to, plagiarism (the appropriation or stealing of the ideas or words of another and passing them off as one's own), cheating on exams or other course assignments, collusion (the unauthorized collaboration with others in preparing course assignments), and abuse (destruction, defacing, or removal) of resource material. All projects will be turned in through "Turnitin.com" to screen for plagiarism. THE PENALTY FOR CHEATING AND PLAGIARISM IS AN F IN THE COURSE.

All students must download the College’s Statement on Academic Honesty, sign it, and return it. I will post instructions on this in Week 1.

Drop a Course
A student may drop a course by logging into their myLEO account and clicking on the hyperlink labeled 'Drop a class' from among the choices found under the myLEO section of the Web page. September 12 is the last day to drop a course with 100% refund. November 1 is the last day to drop with a grade of Q. November 30 is the last day to withdraw from all courses for the semester (no refund).

Incomplete
Incompletes are only given when a student has completed all work up to the last 3 weeks of the term, and has an extenuating circumstance. Students only have access to the eCollege course for two weeks following the final day of the term. Therefore, incompletes are rarely given.

Administrative Withdrawal
Students who do not login during the first 12 days of the semester will be administratively dropped from the class. Students who stop participating for over 10 days, and do not answer emails from the instructor may also be administratively dropped.
