## **COURSE REQUIREMENTS**

**Instructional Overview:**

The student will access and follow all course instructions found in the weekly/unit content area of the eCollege course. The instructor will create an environment for learning by providing focus and guidance to the content. Assignments are designed to be learning experiences for students, and it is presumed and expected that students will actively participate in the class through the construction of their own learning. As a graduate level course, the instructor expects quality work from each student supported by adequate preparation and involvement. This course is made up of a series of assignments and assessments to assist you in achieving the course learning objectives/outcomes. Each week you will work on various combinations of assignments, activities, discussions, readings, research, etc. which will be made available to you by each Monday and close on the following Sunday. Evaluation will be based upon successful completion of each of the performance expectations. Each expectation has been assigned points toward the total upon which the final course grade will be assigned.

**Assignments:**

Each weekly/unit lesson will include readings and activity segments. Assignments related to these activities will reflect your understanding of the topic. These assignments will be due each week and submitted through the eCollege drop box or as directed each week.
