COURSE REQUIREMENTS

1. **Attend classes.** Report on time and participate in all class activities. **Very Important**
2. Participate in a school practicum, maintain the agreed-upon schedule, complete a minimum of 30 clock hours of documented time observing instruction in the assigned school, and be evaluated on your work experiences by the assigned mentor teacher in the school. Grade will reflect performance in the school.
   **MANDATORY** - Participate in school practicum by observing 30 hours in an assigned district in order to a) observe lesson planning, delivery, and evaluation by the classroom teacher; b) identify various classroom management strategies used by the teacher; c) assist the classroom teacher in daily routines; and d) complete assignments to increase preparation for teaching. You should maintain the agreed on time frame for observing instruction in the assigned school, and will be evaluated on your work experiences by the assigned mentor teacher in the school. **Note:** It is your responsibility to give the original of the completed evaluation form and the field experience log for this course to the instructor. You must also complete the reflection questions online. Failure to do this may result in a failing grade and you will be required to repeat the course. You may give copies to instructors for other courses where field experience documentation is required.

   **Grading** will be determined as follows:
   A final course grade of “D” will be assigned to anyone who does not return the paperwork for documentation of observation hours (EFE log & evaluation form completed by mentor) and/or the field experience journal to be completed online.

3. Four professional reflection writing pieces – one on each module.
4. Bloom’s application pieces for “Learning to Teach” E-Portfolio.
5. Take objective exams as well as other assessments. Read all required assignments as the basis for tests.
6. Participate in a group presentation—a microteach—utilizing various teaching models.
7. Compile a Learning to Teach E-Portfolio.
8. Work on Admission to Teacher Education.
Instructional / Methods / Activities Assessments

This course is made up of a series of assignments and assessments to assist you in achieving the learner outcomes. Much of our work will occur within cooperative groups of six or less. Please consider the following points:

- The majority of our class meeting time each Tuesday and Thursday will be designed for small groups.
- This course [and learning to teach] is not best done as a lecture.
- Your preparation for class is crucial to meaningful participation and to being accountable to members of the class.
- Small Group Rationale:
  1. Small group work gives everyone more opportunity to talk about what they have studied for the day. It is the best way for members to get to know one another.
  2. Small group work reduces the possibility that one or two persons will dominate the discussion.
  3. Small group work sends the message that daily preparation is expected and essential for fruitful study and discussion. Everyone wins when all are prepared; everyone loses when any individual is not prepared.
  4. Small group work keeps everyone involved and lessens the tendency to think preparation is not necessary because others will do the talking.
  5. Small group work guards against the class becoming teacher dominated. You have the responsibility not to put your teacher in that position.
  6. You will strengthen your own understanding through preparation and participation.

The assignments, points allocated for each, and their contribution to your final grade are specified in the following section.
