REGULAR EXAMINATIONS
Regular examinations count 200 points total of the possible points for the course (40% of the final course grade). Two timed examinations (100 points each) will be given during the semester. Exams will cover multiple chapters and will include questions based on understanding concepts and solving problems. There will be no makeup exams given.

FINAL EXAMINATION
The final examination counts 100 points of the possible points for the course (20% of the final course grade). The final exam is cumulative (covering Chapters 1-13), and will be given in class per the university final exam schedule. All students must take the final exam as per the university schedule.

QUIZZES
Quizzes count collectively for 90 points of the possible points for the course (18% of the final course grade). Quizzes will be given periodically during the semester. Quiz dates are available within the syllabus, so prepare...
appropriately. The quizzes will be completed online through My Accounting Lab and must be completed by the due date assigned. There will be no makeup quizzes given. The instructor reserves the right to administer surprise quizzes throughout the semester if deemed necessary.

**HOMEWORK**

Homework assignments count collectively for 90 points of the possible points for the course (18% of the final course grade). Students must complete all homework before taking the quiz and/or exam over the material. No homework will be accepted after the final due date listed. Completion and comprehension of the homework is critical for success in this course. Do not short-change yourself by using the “guess and check” method for submitting homework. Students must be able to work the homework in order to pass the exams. Homework problems are to be completed in My Accounting Lab accessed through eCollege. Students will receive automatic feedback and will be able to correct answers and re-submit homework as needed in order to master the material. Take the opportunity to learn from the feedback. This will increase comprehension of the course and prepare students for the exams.

**DISCUSSION & PARTICIPATION**

Discussion and Participation count collectively for 20 points of the possible points for the course (4% of the final course grade). There are two types of discussions required. Weekly discussions require the student to post a log of time spent reading and preparing homework assignments for the semester. Other periodic discussions will center on a case or issue covered in class or homework. All discussions will be submitted in eCollege.

Participation includes preparing for class, completing assignments on time, engaging in class discussions and team presentations and homework explanations. Students are expected to be prepared for and participate in each class.

**CLASS LIVE SESSIONS**

For wholly-online classes, the instructor will hold Class Live sessions one day a week. Students are encouraged to attend. There is a direct correlation between class attendance and grades. For all classes, both wholly-online and web-enhanced, chapter PowerPoints are also available for viewing through My Accounting Lab Plus (Multimedia Library).

**Q&A FORUM**

The instructor will monitor the Q&A Forum in eCollege for questions from students which are relevant to the course. Students are encouraged to use this method for general assignment questions so that all students can benefit from the dialogue that ensues. Please use descriptive subject lines when posting questions to the forum.

**E-MAIL POLICY**

E-mail is the best way to contact the instructor. E-mails are generally answered within 24 hours during the week. If you do not hear from me within that time, please contact me again. Expect a longer response time for e-mails sent during over the weekend. Students are required to use their university e-mail for correspondence, and are responsible for checking their account daily for correspondence from the professor.
