Course Description:

This course is designed to provide an overview of financial statement analysis with a focus on global entrepreneurship. It presents a framework for analyzing business opportunities and risks through the use of financial statement analysis, ratio analysis, and trend analysis and valuation methods. Prerequisite Acc 222 and a minimum of 55-semester hours credit.

Required for: BBA, MBA

Course Materials:

Required Text:

Fraser, Lyn, M., Ormiston, Aileen. 10th Edition. *Understanding Financial Statements*. Pearson (ISBN-13: 978-0-13-265506-4, ISBN-10: 0-13-265506-3).

Financial Calculator: Any type is acceptable. Cell phones and other similar devices are not to be used OR be turned on in class.

Course Embedded Objectives:

Your achievement level for each objective will be measured by your success in completing the homework, quizzes and examinations. The successful student, upon completion of this course, will be expected to have achieved the following as a result of this course:

- Understand financial statements, both from a historical viewpoint and the relationship between the Income Statement, the Balance Sheet and the Statement of Cash Flows.
- Be able to analyze financial statements and identify the strengths and weaknesses of firms using the techniques such as ratio analysis, common size analysis and cash flows.
- Understand and interpret the differences between US GAAP and International Financial Reporting Standards (IFRS) financial statements.
- Exposure to global entrepreneurship financial environment.

Student Responsibilities:

1. Read assigned material on schedule
2. Complete all homework assignments on time
3. Prepare for class, examinations.
4. Participate in all discussions

Course Evaluation:

Grades will be based upon the following items:

Discussion Participation	20%
First Exam	20%
Second Exam	20%
Group Project	40%

Grading scale: 90 - 100% =A, 80 – 89% =B, 70 – 79% =C, 60 – 69% =D and <60% =F. Your grade will be based on the activities above and weighted accordingly.

Assignments:

Reading assignments will be one chapter every two weeks. I will be incorporating materials on IFRS into our weekly discussions of the chapters in order to gain an understanding of how accounting rules differ between US GAAP and IFRS. Homework will be assigned after every unit so that you may reinforce the concepts learned so please attempt the problems. The solutions are located in the back of the book in Appendix B. Although they are not graded they will help you to study for the exams and be able to answer the questions for the discussion on the cases as we cover each Unit. If you have difficulty with a problem, please email me or make an appointment to receive help. Completing the problems will be beneficial to helping you prepare for examinations. The homework assignments are not required to be turned in, unless specified by the Professor at the beginning of the Unit.

Discussions

We will be using **Class Live Pro** at times during the semester however we will mostly be having weekly discussions on the Discussion tab of each unit so everyone

has the ability to respond to the question/topic being covered in that unit. . Participation in the discussion for each chapter (unit) is mandatory and everyone is expected to provide insightful comments and recommendations as well as respond to at least one other student's response. This does NOT mean simply responding "I agree or disagree" but providing an explanation/ reasoning as to your answer. . Please watch for **announcements** in eCollege and in emails for reminders relating to the discussions and any other requirements. All discussion postings need to be posted at the latest 2 days after the due date in order to give everyone a chance to post a response to other students' comments.

Examinations:

Two exams will be given during the semester. The exams will cover specific chapters as we cover the material during the semester. The exams will require working out problems or analyze a case like those assigned as homework as well as multiple questions related to concepts and terminology. There are no make-ups for the two exams.

Group Project:

You will be required to complete a group project and present a written report. The project will be completed throughout the semester as we cover the material. All group members are expected to participate equally in the project work and will be required to turn in team evaluations. **Only one member of each group should submit the section of the project that is due every two weeks with a cover sheet attached indicating the name of the company and the members of the group.** I will return the submitted report to the member that group, and it will be that member's responsibility to distribute the feedback to each member of the group.

To complete this project you will work in groups of 3-4 students (you may choose the members of your group). All students are equally responsible for the work that is turned in. Each group may select the company they wish to analyze, so long as that company has not already been selected by another group and approved by the instructor. Be sure to select a publicly traded U.S. company with at two identifiable comparable firms.

This project will require you to make use of numerous outside resources, including company web pages, annual reports, analyst reports, etc. Be sure to appropriately cite relevant resources. You must cite any information or idea that is not yours that you are using in your project.

Data

The time period for the financial statement analysis should include three years plus interim statements for the most recent year, if available for 3 companies (the main company you choose to analyze, and the other 2 companies you will use as an industry comparison). In addition to the financial statements and other material in

the annual and 10-K reports, you should review relevant materials from outside sources such as newspapers, periodicals, and investment resources.

Outline

The following outline is provided for guidance, but the analysis should be adjusted, as appropriate, to conform to the individual characteristics of the firm. Each section encompasses providing the necessary information and calculations for all 3 companies being analyzed (the main company you have chosen and the other 2 chosen as a comparison). For example, if you are writing the section on the firm and industry, I expect a description for all 3 companies).

Suggested Outline for the Financial Statement Analysis

- I. Introduction
 - A. Objective of paper
 - B. Summary of findings

- II. Firm, Industry, and Environment
 - A. Description of firm and its management
 - B. Discussion of competitive environment (Porter's 5 forces)
 - C. Economic climate and outlook
 - D. Other factors, e.g. governmental regulations, labor relations, litigation

- III. Balance Sheet Analysis
 - A. Common-size analysis
 - B. Horizontal analysis

- IV. Income Statement Analysis
 - A. Common-size Analysis
 - B. Horizontal Analysis

- V. Cash Flow Statement Analysis
 - A. Analyze the 3 sections of the cash flow statements as well as overall.

- VI. Ratio Calculation of Financial Statements
 - A. Liquidity Ratios
 - B. Asset Ratios
 - C. Leverage (debt) ratios
 - D. Profitability ratios
 - F. Market ratios

- VII. Summary, and Conclusions

- VIII. Appendix (All tables and figures)

- IX. Bibliography/References

Written Report

The written report should be between ten – fifteen pages in length however it can be longer, if necessary. It should include all the sections mentioned above in the outline. With the exception of Section I and VII, all the others will have been performed throughout the semester. The final group project will be submitted the last week of class and consist of all the sections combined into one paper along with Sections I and VII which should be prepared once your final calculations are completed. An unlimited number of attachments are allowed and will not be counted in the fifteen pages however, you should include only those attachments that are relevant for the analysis and discussed in the text. The document should use a font size of 12 and one-inch margins. The summary page should give the reader a basic understanding of the firm, its past performance, its expected future performance, and the justification for your overall conclusion of the firm. This page should be able to stand alone as a summary of your analysis.

Plagiarism

Plagiarism represents disregard for academic standards and is strictly against University policy. Plagiarized work will result in an “F” for the course and further administrative sanctions permitted under University policy.
