COURSE INFORMATION

Course Description: This course offers students a theoretical understanding of experiential learning programs and practical examples how experiential learning programs are used in secondary, postsecondary and extension programs in Agricultural Sciences, Natural Resources, and Family and Consumer Sciences as well as Community and Youth Development.

Student Learning Outcomes:

Learning outcomes are what you are able to do as a result of the activities, readings, instruction, etc. that have occurred in this course - these are my expectations of you. Assignments/activities related to these outcomes are described in the assignments and assessments portion of the syllabus.

Upon successful completion of this course the student will be able to:

1. Recognize and apply various models of experiential learning to extracurricular, enrichment and/or other non-formal educational settings.
2. Utilize experiential learning in Ag, FCS, and Extension activities.
3. Integrate experiential learning in character/citizenship development.
4. Identify and compare opportunities for experiential learning through
   a. FFA, FCCLA, and 4-H activities
   b. Field trips/school-related travel
   c. Work-based learning
   d. Outdoor recreation
   e. Adventure education
   f. Community service
   g. Study abroad/international travel
6. Promote experiential learning through recognition and awards.
COURSE REQUIREMENTS

This is an online class. Students are required to review the eCollege weekly agendas that complement the course calendar and be aware of the announcements within our AFE 576/AGED 404 eCollege course home page for updated information pertaining to this course.

In order to minimize confusion and repetition, I like to communicate through personal email as little as possible. Therefore, each of the weekly agendas within our course shell has a link entitled Weekly Q&A where you can post questions and review responses to questions that pertain to course information as we progress through this course. While you are welcome to email me in reference to personal matters, I prefer that you ask non-confidential questions through these Weekly Q&A forums. If you prefer to correspond via telephone, simply email me a telephone number where I can reach you and a time that will be convenient for me to call you. Prior to asking a question, please quickly review previous responses within a particular Weekly Q&A forum as your question may already have been addressed. You are also welcome to respond to a classmate's question if you can accurately address the issue.

You are also welcome to stop by my office during the office hours that I posted at the beginning of this course syllabus.

Assignments and Grades:

Assignments that you complete for this course should not have been used in other courses. **You must complete all assignments to earn an A in this course.**

*Grading Rubric*: A: 100-90 B: 89-80 C: 79-70 D: 69-60 F: 59 and below

*Weekly Discussion Forums*: (8 @ 5 points each)

Eight weekly agendas within this course contain a discussion forum. I would like for you to respond to the question or activity that is specifically designated for each discussion forum activity. Utilize the resource/reading list that complements each discussion forum and create an original discussion post to respond to a particular forum by *Friday* of each discussion forum week.

I would then like for you to interact and provide feedback to at least two of your classmates' original discussion forum posts. Your contribution to the discussion forums will be graded for *quality* not quantity, *timeliness* of your contributions (please do not wait until Sunday to begin participation), and a *detailed analysis* of linking together theory to application via critical thinking evident within your discussions. Each discussion forum will be open until *Midnight Sunday* of each discussion forum week.

### SAE Reflective Blog: 20 points each X3=60 points

You will create a blog in blogger and keep a journal on your experiences with SAEs. Three times during the semester, you will be asked to submit your blog for review. This blog should document the types of SAEs or SAE you were involved with, either as a student or with your students if you’re teaching, what you learned or your students learned, how you documented your SAE or had your students document their SAE, and the overall experience of your students or yourself with the SAE. More information will be provided in the course shell.

**COURSE AND UNIVERSITY PROCEDURES/POLICIES**

**Citizenship:** All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. (See Student 92s Guide Handbook, Policies and Procedures, Conduct).

**Plagiarism:** Plagiarism **WILL NOT** be tolerated and will result in an automatic F in the course.

**Scholarly Expectations:** All works submitted for credit must be original works created by the scholar uniquely for the class. It is considered inappropriate and unethical, particularly at the graduate level, to make duplicate submissions of a single work for credit in multiple classes, unless specifically requested by the instructor. Work submitted at the graduate level is expected to demonstrate higher-order thinking skills and be of significantly higher quality than work produced at the undergraduate level.
ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities.
