CONTACT INFORMATION:

NAME : Dr. Hasan Coşkun
Office : Binnion Hall BIN 314
Phone : 903.886.5951
Web : http://faculty.tamu-commerce.edu/hcoskun/
E-mail : hasan.coskun@tamuc.edu
Office Hours : MW 11:00-11:50am & 1:15-2:05pm, F 11:00-11:50am
R 6:30-7:20pm (MPLX), otherwise by appt.

DESCRIPTION AND POLICIES:

1. Class Schedule: MW 2:30p-3:45p, MPLX 131 (41S) & BA 338 (01R)
3. Website: An eCollege website has been created for the course which may be accessed from student myLEO accounts following the eCollege and then the My Courses tabs. All files and documents that the instructor shares with the class will be posted in the Doc Sharing folder in course website.
4. Course Description: Geometry of complex numbers, mapping, analytic functions, Cauchy-Riemann conditions, Complex integration. Taylor and Laurent series, residues.
5. Software: Mathematica software is required for the course. It will be used extensively for manipulating data and carrying out computations in classroom discussions and in homework exercises and projects. Mathematica 9.0 is installed and available in Mathematics computer lab in BIN 328. Personal student licenses may be purchased online at the Wolfram Mathematica website http://www.wolfram.com/products/student.
6. Homework: Homework will be assigned in every class meeting on a regular basis. Assignments will be due the next class day and will be turned in electronically through eCollege website created for the course. Selected assignments and problems will be graded only, but all homework problems should be worked out. You may work in groups unless otherwise instructed, however the paper you turn in must be your own work. Late homework is not accepted. Attendance may be used to calculate the homework grade. Homework and/or attendance score will make 50 points of the final grade.
7. Tests & Projects: There will be one test/project (200 points) and a comprehensive final/project (200 points). Test problems will be similar to homework exercises. No make-up test will be given without an official, written, university accepted excuse. The student must contact the instructor the next working day and present the documented excuse to make up a test.

8. Learning Outcomes: Students who complete this course successfully will
a) learn the terminology of introductory single variable complex analysis;
b) learn the methods used in single variable complex analysis;
c) learn the applications of theoretical results to practical problems.

9. Tentative Course Outline:

   0. Introduction to Mathematica
   1. Analytic Functions
   2. Cauchy's Theorem
   3. Series Representation of Analytic Functions
   4. Calculus of Residues
   5. Conformal Mappings
   6. Further Development of the Theory
   7. Asymptotic Methods
   8. The Laplace Transform and Applications

10. Tentative Exam Schedule:
    Midterm 200 pts  Monday March 04, 2013  in class
    Final 200 pts  Tuesday May 06, 2013  1:15p - 3:15p

11. Grading Scale: All scores will be added and a letter grade will be assigned according to the following table.
    A  406 - 450 pts
    B  361 - 405 pts
    C  316 - 360 pts
    D  271 - 315 pts
    F  0 - 270 pts

12. Other Important Dates:
    March 11-15, 2013  Spring break
    March 29, 2012  Last day to drop a class
    April 26, 2012  Last day to withdraw from Spring 2013
    May 03, 2012  Last class day
13. MISCELLANEOUS: Your enrollment in this course indicates that you agree to observe all the conditions and regulations of this syllabus and the Student Handbook. Your test and homework scores may be filed to be used anonymously for educational research.

Students are required to attend every class meeting and be punctual. Policies pertaining to absences, tardiness and scholastic dishonesty are identical to TAMU-Commerce regulations given in the Student Handbook. All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment (See Student’s Guide Handbook, Policies and Procedures, Conduct). Disruptive behavior (including use of electronic devices in classroom) and scholastic dishonesty in any form will not be tolerated.

Students requesting accommodations for a disability should contact the Office of Student Disability Resources and Services, Texas A&M University-Commerce, Gee Library, Room 132, Phone: (903) 886-5150 or (903) 886-5835, Fax: (903) 468-8148, or Email: StudentDisabilityServices@tamuc.edu.

Any possible changes to be made in this syllabus by the instructor during the semester will be announced in class.
