I. Course Description

A study of the structure and functions of financial markets and institutions focusing on political, social, regulatory and legal effects, as well as demographic diversity, ethical considerations and changing global financial conditions in finance decision making.

II. Prerequisite

FIN 304 or FIN 501

III. Course Objectives

The goal of the course is to provide the students with an introduction and clear understanding of the financial markets, the institutions that operate in these markets and the instruments used in the markets. Students are exposed to the financial institution network and the mechanics of operation of the whole financial system.

IV. Required Course Materials

V. Recommended Reading

Wall Street Journal, Financial Times, The Economist

VI. Policies and Procedures

The student is responsible for all material covered and all information disseminated when he/she misses a Class Live session.

Email Use
The best way to communicate with me outside of class is by email. You should expect a response to your emails within 24 hours during regular business hours on weekdays. You have to send emails from your myLeo accounts.
Exams

There will be two exams, including one midterm exam and a final exam. The final exam will be comprehensive. Students should use a financial calculator during the exams.

There will be no makeup exams. If you have to miss an exam because of an excusable and verifiable reason, you must contact me before the exam. Failing to do so or failing to provide documentation of the reason for absence from a medical doctor or TAMU-Commerce official will result in a grade of zero on the exam. **If I were to excuse you from an interim exam, the weight of the missed exam will be added to the weight of the comprehensive final exam.** Regardless of the excuse, if you miss two exams you will automatically fail the class.

Individual Presentations – Two Presentations each

During the semester, you need to stay informed on current developments that are relevant to international finance and financial institutions. You will be assigned 10-minute individual presentations to be made about current news items dealing with international financial developments. These can be based on clippings from newspapers, magazines, newsletters, or professional journals. Your presentation should summarize the news item and then relate it to some concept, practice, or problem in international finance and management, including your observations on its implications. You will have to email me a one-page outline of your presentation at least one day before your presentation. I will announce a schedule of the presentations during the second class live session. Please do not exceed 10 minutes in making your group presentation.

Peer Evaluation: You will be asked to assess the performance of the other students. This assessment will be used to determine what percentage of the group score each person will receive.

Homework

End of chapter questions & problems and other questions & problems will be assigned as homework. You do **not** have to submit the solutions. To enhance learning, you should devote some time to these assignments. Some (but not all) of the problems on the exams will be similar to the problems in these homework assignments.

Grading

No assignment for extra credit will be given to any individual student. For grading purposes, the following weights will be assigned:

**Week 1, April 22 ➔** Part I. Introduction and Overview of Financial Markets

Chapter 1 – Introduction
Chapter 2 – Determinants of Interest Rate
Chapter 3 – Interest Rate and Security Valuation
Chapter 4 – The Federal Reserve System, Monetary Policy, and Interest Rates

**Week 2, April 29 ➔** Part II. Securities Markets

Chapter 5 – Money Markets
Chapter 6 – Bond Markets

**Week 3, May 6 ➔** Part II. Securities Markets (con’t)

Chapter 7 – Mortgage Markets
Chapter 8 – Stock Markets

EXAM 1 – Chapters 1-8
You shall start studying early in the course, well before the test/exam, to give yourself a head start in learning the material. When you don’t understand course material, ask questions either in class, during office hours or by email. You will not get good grades if you wait until a week or couple of days before the test/exam to start studying.

ADMINISTRATIVE

Academic Integrity/Ethics:

Integrity will be stressed throughout the course. Refer to Student’s Guide Book located at for the University policy on academic honesty:
www.tamu-commerce.edu/studentlife/guidebook.htm

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conductive to a positive learning environment.

You are expected to maintain high standards of integrity and honesty while pursuing your academic goal(s). The university’s statement on academic honesty is found in the Texas A&M University-Commerce Procedures, A13.12, Academic Honesty. Academic dishonesty is defined in the following manner:

"Academic dishonesty includes, but is not limited to, plagiarism (the appropriation or stealing of the ideas or words of another and passing them off as one’s own), cheating on exams or other course assignments, collusion (the unauthorized collaboration with others in preparing course assignments), and abuse (destruction, defacing, or removal) of resource material.”

Your grade is to reflect your work alone, and likewise, your classmates’ grades are to reflect their work alone, and not yours. Students found to have committed academic dishonesty will automatically receive a failing grade for the course and will be referred to Dean of the College of Business and Technology for possible expulsion from the program. All students enrolled in this course are required to sign and submit an Academic Honesty Policy form during the first week of the course.

Students with Disabilities:

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:
