DETAIL OF ASSIGNMENTS:

All assignments, submit the **original** document (not a photocopy) to your instructor. All assignments are due at **11:59pm** on the due date and must be submitted as a Microsoft Word document in the eCollege drop box. When students are to submit actual tapes, the tapes must be submitted during class and cannot be emailed, posted online, or submitted in any other form unless approved by the instructor in advance.

Late assignments are not accepted and the intern will earn a grade of 0.

Videotapes:

- **Two videotapes** will be brought to class for **group supervision**. *However, additional tapes may be requested by the instructor throughout the course.* A consent form will accompany each recording submitted for evaluation. Each tape should be turned in with a Tape Analysis, which includes: and 2 page introduction (case conceptualization of client), fifteen minutes of transcription (using format provided by the instructor) completed by the student, with a 2-3 page reflection. The tape analysis will be turned in with your tape.
- Students are responsible for the sound quality of their tapes. Unclear tapes will not be accepted. Label each tape with your name, date, and tape number. **Do not place the client's name on the tape.** The tapes you submit for a grade in this class cannot be/have been used in other courses. The audiotapes must be formatted to play on windows media player or comparable program in order to

be viewed on the computer equipment in the classroom **NOT** on the student's personal computer or phone. Please avoid recording counseling sessions on cellular phones.

- a. As in the other clinical courses, learning in this course is developmental, a tape which earns a high score at the beginning of the course would, if turned in later in the course, probably receive a lower rating. Basically this means that standards for a given rating get higher as the semester progresses.
- b. No late tapes will be accepted. If a tape or analysis is not turned in by the due date, the student will receive a 0 for the assignment.
- c. Tapes must be accompanied by a release form signed by client. If the tape is not accompanied by an informed consent the student will receive a 0.
- d. Tapes handed in class must have student identification present. Students must be able to record sessions on any of the following formats: VHS, DVD, or Digital File. Digital Files will be the preferred format.. **Tapes must be submitted manually (no exceptions). Emailing or uploading tapes to websites is not appropriate for this course.**
- e. You need to be prepared to provide each other with constructive feedback. Your Field Supervisor will give you direction on case management; I will be emphasizing your skills, interventions and conceptual understandings of your clients. Please remind yourself and each other to erase all tapes before the semester ends. ***All clients taped for any reason will sign a "Consent for Video/Audio Taping" form prior to making a recording. Persons under the age of 18 must have a parent or legal guardian sign the form. This form must accompany each tape submitted for supervision.***

Accountability Project:

Students will design a way to measure the effectiveness of a part of their work at their site. Expectations for this project will be discussed prior to the due date.

Intervention/Technique Assignment (10%): Each student will present one intervention, technique, or activity to the class. The presentation should include, but is not limited to the following: description of the intervention/technique, target population, adaptability to age/developmental level, theoretical foundation, a description of how the activity/intervention was implemented in a session, and the outcome of the intervention. Interns are expected to present an intervention that they have used in a session with a client (no exceptions) and preferably present a video of the intervention being implemented in the session. **1-2 pg. handouts detailing the intervention/activity will be distributed to the entire class.**

Case Study/Presentation (ten page minimum) (15%): Students will develop a comprehensive written case study utilizing two contrasting theoretical interpretations. One theory may be the student's personal theory provided that this has been established during Practicum or Internship I. A Case Study Guide will be handed out in class. Instructions for the case study will be based on the student's enrollment status, either in Internship I or Internship II. Students will use the major headings from this handout when organizing their materials. Students will present this case study orally to the class, and submit a typed copy of the case study to the instructor. Case Presentation assignments will be made in class. You will have about 10 minutes to present your case then we will ask you questions. Note the time limit! You need to learn to present the circumstances about a client in a concise and clear way.

Professional Readings: These will be taken from the texts on the reading list as well as selected journal articles. Students may be asked to report verbally during an assigned class meeting.

Please note: No late work will be accepted. Any assignment not turned in at the designated classroom due date & time will result in a failing grade for the assignment.

IF YOU HAVE ANY PROBLEMS WITH ASSIGNMENTS &/OR DUE DATES, PLEASE CONTACT THE INSTRUCTOR PRIOR TO THE DUE DATE SO POSSIBLE ACCOMMODATIONS MAY BE MADE IF NECESSARY.

Grading Scale:

An “S” or successful completion represents at minimum an expected level of effectiveness. Students demonstrate a satisfactory skills level, and have a uniformly beneficial effect on the clients at their field placement. Students who achieve this grade are usually more comfortable with feedback, and have a positive view of the opportunities presented in training and supervision.

A “U” or unsuccessful completion represents a lower than expected level of effectiveness. Students with this grade are functioning below the level required for field practicum. There may be severe limitations in certain areas. Students who fail to grasp and consistently to demonstrate basic communication and interpersonal skills will generally earn this grade.

When students demonstrate personal limitations that might impede future performance, or consciously violate ethical standards, and are ineffective and harmful to clients, then these students will not receive the instructor's endorsement to continue with the program. (ACA Ethical Standards)

Professionalism: Due to the experiential, interpersonal, and intrapersonal nature of this course professionalism is critical. Within course discussions, students will need to the ability to accept constructive feedback and get along with their peers and supervisors. It is the instructor’s responsibility to ensure that students training to become professional counselors possess the abilities to handle these professional responsibilities. Please see the instructor if you have any concerns.
