5. Final examination 20%
A. **Journal Article Annotated Bibliography**

Each student will select a substance abuse or addictive behavior topic of personal and/or professional interest, one that is believed to be worthy of theoretical/conceptual or application consideration. Research and review ten (10) *journal articles* that contain a specific theme, e.g. group work with substance abusing adolescents, outpatient treatment efficacy, solution focused therapy with substance abusers, a family therapy substance abuse approach, substance abuse assessment, women’s issues in addiction, spirituality and addiction counseling, etc. Prepare an annotated bibliography (a brief summary and critical analysis) of the ten articles selected. **Please note:** Students must consult with the instructor for topic approval prior to beginning work on their journal article annotated bibliography. This consultation will be done either prior to or after class starts, or scheduling an appointment with the instructor.

In addition, each student is to attend two meetings of the following: an open AA or NA meeting, Al-Anon, ACOA meeting or another self-help support meeting. You are to develop a 1-2 page summary of your observations and reactions of each visit.

C. **Examinations**

The midterm and final examinations will assess the student’s knowledge of the material presented in the textbooks, reserved readings, guest speakers, videos, lectures and class discussions. The format of the exams will consist of multiple choice, short answer essay and more in-depth essays.

**Class Format**

The class format will consist of a combination of lectures, discussions, and reading of book chapters.

Experiential Teacher’s Paradox

It’s as though the teacher said something like this: “I can tell you that there’s something you need to know and I can tell you that with my help you can probably learn it. But I cannot tell you what it is in a way that you can understand. You must be willing therefore, to undergo certain experiences as I direct you to undergo them, so that you can learn what it is you need to know and what I mean by the words I use. Then and only then can you make an informed choice about whether you wish to learn this new competence. If you are unwilling to step into this new experience without knowing ahead of time what it will be like, then I cannot help you. You must trust me.”
