

MATH 335 section 001 10 – 11:50 MTWT Bin- 329

Instructor: Dr. Charles Dorsett

Office: Bin-318

Office telephone: 886-5955

Office hours: 8:50 – 9:50 M-TR, and others by appointment. If you need help during the semester, please utilize my office hours.

Textbook: Linear Algebra And Its Applications by David Lay (4<sup>th</sup> Edition).

Prerequisites: Math 331

Topics to be covered: systems of linear equations, matrices, equivalence relations on matrices, determinants, vector spaces, characteristic vectors, and operators.

Goal: The successful student will know and be able to apply and communicate the material presented in this class.

Grading policy: During the course there will be three tests each worth 100 points toward your final grade. Tests are to be taken without the use of calculators and/or other technological devices. In case a test is missed, documented proof of an excusable absence is required, after which you must schedule a timely make-up test. The keys to successes in this class are continual effort on your behalf and a day-by-day commitment to successful completing the assigned work. Test problems will be similar to the assigned homework problems. At the end of the semester, your average score will be calculated and the ten point grading scale will be used to determine your final grade. The test schedule is as follows:

Test 1 Thurs., July 17      Test 2 Thurs., July 31      Test 3 Thurs., Aug. 7  
(comprehensive test).

Getting help: Requests from students with disabilities for reasonable accommodations must go through the Academic Support Committee. For more information, contact the Director of Disability Resources and Services, Halladay Student Services Building, room 303D or call 886-5835.

Attendance and participation in classroom activities are expected. According to the Student's Guide Handbook, Policies and Procedures, Conduct, all students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment.

Let's all work hard and have a happy, productive semester.
