Required Reading – No textbook will be used

**Course Description**

The course is designed to give you the opportunity to solve business problems by expanding your knowledge of various issues inherent to organizational change management. The course will move from theory to critical issues and practical project implementation. Independent research, ongoing discussion, and written presentations will be the methodologies used. Three Class Live Pro sessions are scheduled (7:00 PM Commerce, TX time) for **Friday night the 8th, Monday night the 11th, and Monday night the 18th**. Please attend if at all possible. If you cannot, the sessions will be archived.

**Course Objectives**

By the end of the course you will:

1. have a framework by which critical variables influencing effective change management can be identified and evaluated;
2. be able to solve business and human resource problems through integration of your skills and knowledge of various change management techniques;
3. use theory and practical application to justify your solutions.

**Student Responsibilities**

As in the business environment, professional conduct is expected at all times. You will:

1. read all assignments before the due dates;
2. turn in the written assignment on the due date;
3. meet with the instructor (e-mail) on a weekly basis to discuss progress.

**Grade Evaluation**

Because of the intense nature of such a project oriented course, the final change plan is the only graded deliverable and is worth 100 points.

**Grade Scale**

- 90 – 100 = A
- 80 – 89 = B
- 70 - 79 = C
- 69 or below = F
**Description of Evaluation Criteria**

You will prepare a beginning report summarizing a proposed organizational change project **if you are not using my change scenario**. The proposed change project can be actual (your organization), another real company, or based upon my case scenario. The exact situation will be negotiated with the faculty member. If you do not choose the case scenario, this report should contain a description of the current culture, the impetus for the change, the desired changes. This can be accomplished with an e-mail or a phone call.

**Final Change Report** – A final change plan summarizing the outcome of the total change project will be submitted (100 points). This report should assess the action steps and potential (anticipated) outcomes in relation to the assigned reading. This can be either an individual or group project. Again, we will negotiate this after I see the class make up.

**STUDENTS WITH DISABILITIES**: - The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you believe you have a disability requiring an accommodation, please contact the Office of Student Disability Resources and Services.

**TENETS OF COMMON BEHAVIOR STATEMENT**: All students enrolled at the university shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment (See current Student Handbook).

**STATEMENT ON ACADEMIC INTEGRITY**: - Academic honesty is the foundation of the university community. Cheating, plagiarism, or other acts of academic dishonesty compromise the integrity of the academic process and community and are subject to disciplinary action. For this class, plagiarism will result in automatic failure (final course grade of F).
