Instructional / Methods / Activities Assessments
This course consists of a series of activities, experiences/observations in the field, and assessments to assist you in achieving the outcomes/objectives for the course and instructional units. The student will consistently work on various combinations of assignments, activities, field experiences/observations, discussions, readings, research, etc.

Evaluation Procedures:
1. Attendance. Much of the work in this course is accomplished in collaborative work groups. Punctuality, dependability, and the ability to accomplish group goals are ways to demonstrate the professionalism required for success in a field-based teacher education program.
2. Field Requirements; mentor teacher and liaison input.
3. Teaching rationale/philosophy
4. In-class & field assignments determined through ongoing needs.
5. A “Professional Portfolio”.

Grading
Grades will be determined by a combination of:
• Mentor teachers’ and liaison judgments about the effectiveness of the student’s classroom lesson plans and instruction as implemented.
• Self reflection and liaison judgments about the student’s intellectual involvement and engagement during lessons.
• Self, peers’ and mentor’s and liaison judgments about the impact of technology applications.
• Professional portfolio

Special note:
This is a field-based course. Be sure that you are documenting throughout your portfolio your efforts to teach using best practices in pedagogy and assessment. Input from your mentor teachers and liaison will be considered in determining the final grade for the course. Keep the following descriptors in mind:

**Grade(descriptor):**  
A = exceptional  
B = commendable  
C = developing  
D = minimal  
F = unsatisfactory

Course Policies

Professionalism:
Ground rules for discussions and assignments: Although I am certain most of us are clear about what democratic deliberation and civil discussion entails, I want to spell out in writing how I expect our discussions to precede. We may refer directly to them if the situation arises.

1. Respect
   - We are not always going to agree or see everything the same way; each person has a right to and responsibility for his/her own feelings, thoughts and beliefs.
   - When speaking of an occurrence or relaying one's experience outside the class, refrain from disclosing identities of those involved.
   - Show courtesy.
   - In interpreting others' comments, we should be fair-minded and understanding.

2. Comfort
   - Students and professor should work together to make a safe, respectful and comfortable atmosphere for associating.
   - I will not ask you to take any risks in class (such as sharing your own experiences) that I am not willing to make myself. We are all in this together!
   - No question is stupid! We all learn at different paces and by asking questions.

3. Honesty
   - You should feel comfortable and respected in the academic environment so that you speak honestly about your thoughts, ideas and opinions.
   - All work you submit must be your own. If you use someone's words or work other than your own please use the appropriate citation. (See APA Manual)
   - World Wide Web - Any work you find on the Web must be cited. Provide the URL and the name of the website. Lessons found on the Web must be adapted and modified (using proper citations) for your personal use.

4. Netiquette

5. Threaded discussion participation expectations

6. Feel free to contact the Help Desk for technical help

7. The majority of assignments will be submitted to the drop box, discussion threads & journaling via e-college.

8. Above rules regarding honesty, comfort and respect apply to all online communications via e-college - as well as to in-person communications in class.

If you would like to review an exam set up an appointment with me. If you are having problems with this class, please call me or come and talk to me immediately. I will be better able to help you if you come to me early. Do not come to me at the end of the semester, unhappy with your grade, asking for a way to change it. I cannot randomly change grades because of “guilt trips”.

Late Assignments. Assignments are due on specific dates, as assigned. Assignments will not be accepted after the due date, unless previously authorized by the instructor.

Written Assignments
All assignments must be typed, double space, in legible (preferably times roman) 12 pt font. College level writing is expected. If you feel insecure about your writing abilities you may want to seek assistance from the writing lab in the Department of Literature and Languages. They will not assist with spelling.
Please make sure someone proofs your assignments. Excessive grammar, spelling and vocabulary errors will result in a lower grade. You should demonstrate mastery of organizing, structure and editing.

Withdrawal Policy

Every student has the right to drop the course without penalty until the drop date. Students dropping the course during this period will be given a DP (drop while passing). A grade of DP is GPA neutral, but a grade of DF counts as an F on your transcript.

If you choose to stop attending class, you may be dropped from the course due to excessive absences. If you are not satisfied with your grade in the course and wish you to drop, it is YOUR responsibility to drop the course. Once a grade of DP or DF has been registered, I will not be able to change it.

A student may drop a course by logging into their myLEO account and clicking on the hyperlink labeled 'Drop a class' from among the choices found under the myLEO section of the Web page.

Student Conduct

All students are expected to conduct themselves in a professional manner at all times. (See Code of Student Conduct from Student Guide Handbook). You are adults and will be treated as such. Discriminatory, rude, and inappropriate language will not be tolerated in this class and students will be asked to leave or drop the class (these same rules apply for online discussions). If a student continues to act in the same manner during future classes, the instructor reserves the right to drop the student from the course.

A&M-Commerce will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

Academic Integrity

Academic integrity is the pursuit of scholarly work free from fraud and deception and is an educational objective of this institution.

Texas A&M University-Commerce has explicit rules and regulations governing academic dishonesty and academic misconduct. As the University states, “All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment.” These policies are stated in detail in the Student’s Guide Handbook. Each student is expected to read this document and abide by the contained policies. These university policies will be followed in this class. The minimum penalty for an act of academic dishonesty will be the assignment grade of 0 on the examination or homework assignment. The maximum penalty is expulsion from the University.

Texas A&M University-Commerce further does not tolerate plagiarism and other forms of academic dishonesty. Conduct that violates generally accepted standards of academic honesty is defined as academic dishonesty. "Academic dishonesty" includes, but is not limited to, plagiarism (the appropriation or stealing of the ideas or words of another and passing them off as one's own), cheating on exams or other course assignments, collusion (the unauthorized collaboration with others in preparing course assignments), and abuse (destruction, defacing, or removal) of resource material.
