COURSE INFORMATION

Required Textbooks
Using MIS 2014 (7th edition), David M. Kroenke

COURSE DESCRIPTION

This course is designed to introduce students to business information systems and how information systems may be used as a tool for communication and decision-making. This course provides students with an overview of business application software and problem-solving using application software.

STUDENT LEARNING OUTCOMES

After successfully completing this course, students will:
1. Demonstrate basic information systems knowledge.
2. Gain an understanding of software and hardware components.
3. Demonstrate knowledge of how applications software can be leveraged to improve the efficiency and effectiveness of employees and business operations.
4. Learn how to use spreadsheets for problem solving and decision making.
5. Demonstrate the ability to complete project documentation.
GRADING

Assignments (A Maximum of 40 Points)
4 assignments regarding Microsoft Excel will be given during the semester. You can get a maximum of 10 points for each assignment. Please note:
- Assignments are very important to your final grade! Please be sure to complete and submit every assignment by the deadline.
- I will demonstrate the tutorials for some challenging assignments. Please be sure to attend the lectures.

Exams (A Maximum of 40 Points)
Two online exams will be given during the semester. You can get a maximum of 20 points for each exam. Each exam will be open for one week on eCollege. You can choose any time during the one-week period to take the online exam. Once you start the exam, you have two hours to complete the exam. You can’t pause or retake the exam once it is started. The exam dates are:
- Exam 1 will be open from 10 AM on March 18 to 6PM on March 25, 2015.
- Exam 2 will be open from 10 AM on May 6 to 6PM on May 13, 2015.

We will have a review for each exam. Make sure to attend the review lectures and prepare for the exam according to my instructions.

Business Case Analysis Assignment (A Maximum of 10 Points for Written Analyses & A Maximum of 10 Points for Class Presentations)
Being an outstanding IT manager does not only require sufficient technical knowledge, but also needs a great analytical skill. From Week 5, I will start assigning real-world business cases to you. You should work with teammates to analyze the issues that a well-known IT company is facing. Each assignment to each team consists of two parts: (1) The written analysis report; (2) The class presentation.

Requirements of the written analysis report
Although each team will analyze different company’s issues, each team’s written analysis report must have the following elements:
(1) History of the company being analyzed. Each team should find out when the company was founded by whom, what the primary products or services the company produced at the beginning, what milestone events, innovations, and products were in the history of the company to today.
(2) Issue statement. What are the major issues the company is currently facing?
(3) Your analyses and proposed solutions to address the issues stated in item (2).
(4) Excluding figures, data tables, and references, a minimum of 3 page analyses are required. You should use double-space, size 12 Times New Roman fonts in this report. You can cite the industrial and market analysis report to support your arguments.

Requirements of the class presentation
(1) You must clearly show the history of the company, milestone events, innovations, and products, the issues that company is facing, and your analyses and solutions to the issues.
(2) You can use Powerpoint, videos, audios in the presentation.
(3) A total of 15 to 20 minutes is a good length of time for your presentation.

Final Grade
At the end of this semester, if your total point is between 90 and 100, you will get an A; if it’s between 80 and 89, you will get a B, and so on. Please note that the real point will be used to calculate your final grade. **No percentage or curving will be used for your final grade.**

</table>

Bonus points
You can participate in the instructor assigned activities to get a maximum of 3 points for bonus in this semester.

TECHNOLOGY REQUIREMENTS
The following information is provided to assist you in successfully using technology to complete the assignments and class activities:
For exercises and assignments, you need Microsoft Excel (2010 is recommended). If you don’t have Microsoft Excel software, you can use the computers in the library on Commerce campus. All computers in the library are installed with Microsoft Excel 2010.

COMMUNICATION AND SUPPORT
If you ask me questions by emails, I will reply you in 48 hours. However, I usually answer them much faster than this.
All assignment due dates, project deadlines, and exam time are central time in the United States.
