Course Description: This course introduces students to the challenges of
owning, operating, and marketing a successful small business and the need for
entrepreneurial focus in large firms. Prerequisites: Junior Standing, MGT 305,
MKT 306

Course Objectives:

The student will gain an understanding of:

1. the practical challenges of starting/acquiring, operating, financing, and
marketing a successful small business including the elements of a business plan.
Emphasis is given to understanding, creating and presenting a business plan.
The student will be exposed to all elements of a business including company
structures, market analysis and plans, management, operations, and financial
planning/reporting.

2. creating and presenting a business plan including the skills required in
practical business writing, analysis, and presentation before critical reviewers.

3. the skills required for working as teams to develop a business plan which
represents a realistic business situation that could be implemented if a student,
student team, or other entrepreneur chose to do so. This includes basic team
disciplines for managing and completing projects over extended time periods.

Please Note: Students are required to have the textbook on the first day of class.

Course Requirements

1. At the course home page, acknowledge that you have read and understand the syllabus and course schedule on “Virtual Office”. A current copy of the syllabus and course schedule has been uploaded to the course home page. These along with other course materials, chapter power points, and charts that we use will be uploaded to this site at “Doc Sharing”. Any questions or observations from members of the class can be made in “Virtual Office” or directly to me via email. I will check Virtual Office regularly for comments and questions.

Note: Announcements and schedule changes will be posted on the course on "eCollege".

2. Business Plan Project. (40% of total Grade) Student teams will develop a business plan for the creation, acquisition or expansion of a business along with a Power Point presentation of that plan. The particular business idea to be developed must be approved by the instructor. Throughout the course of the semester, each team will work through the process of writing the different sections of a business plan and integrating them into one document. At the end of the semester the teams will create a power point presentation of the high points of your plan. All business plans must represent a realistic business situation that could be implemented if a student, student team, or other entrepreneur chose to do so.

For purposes of this project, there are 3 “types” of plans:

1. A plan for the creation of a new business or acquiring a franchise.
2. A plan for the (full or partial) acquisition of an existing business.
3. A plan for the expansion or change of an existing business.

One-half of the business plan grade (50%) will be based on a completed written plan as produced by the team; one-fourth (25%) will be based upon your group’s power point presentation, and one-fourth (25%) will be based on your own team members’ evaluation of YOUR efforts on the project.

Note: A student may earn 3 extra points on the individual semester average by attending the Small Business and Entrepreneurship Conference held annually at
TAMU-Commerce. The 2015 SBECON15 will be held in the Sam Rayburn Center on Tuesday, 2/24/2015. Students will need to sign in and attend the entire conference to receive credit.

The rubrics for evaluating the Business Plan Document and the Team Presentation are presented in Appendix A of the syllabus.

A brief note on the contents of a business plan and the requirements for business plan draft contents are included in Appendix B of the syllabus.

3. **Minor Examinations**: (20% of Total Grade) These are the chapter exams. Format is fill-in-the-blank and multiple choice questions. There will be a timed minor exam following each chapter reading assignment. The Minor Exam (ME) grade will be the average of the student’s minor exam grades.

4. **Mid-term Examination**: (15% of Total Grade) Multiple choice and essay in format.

5. **Final Examination**: (15% of Total Grade) Multiple choice and essay in format.

6. **Case Study Report**: (10% of Total Grade) There will be 1-3 case studies assigned during the semester. The case study will provide a general background and description of a particular business situation along with a list of questions. Each student will be required to submit a written report describing analyses and conclusions reached in addressing the case study questions. In most case studies there is no “right” or “wrong” answer. The important thing is to be able to identify the key issues, form reasoned conclusions as to those issues, and be able to express those conclusions clearly. The process for accomplishing a case analysis and our requirements for student submittals are discussed in the document “Case Study Analysis” located in Doc Sharing. Please read and observe the directions in the document.

**Course Grade Summary**: Business Plan Project 40%

- Minor Exams 20%
- Mid-Term Exam 15%
- Final Exam 15%
- Case Study Analysis 10%

**Student Teams**: Student teams will be formed in the first week of class. There will be 3-5 members per team. Students may form their own teams, within constraints, but these may be altered as needed by the instructor. The primary constraint is that each team should include representation from more than one major when possible. Virtual meeting rooms will be provided for each team on eCollege to assist making team meetings more convenient. **As soon as a team is formed, please submit the member names to the instructor via email.**
significant “personnel” problems occur within a team, the instructor will act as mediator. This will only occur after the team has made every effort to resolve the issues within the team. In the event team problems cannot be worked out, changes may be made. This situation could have dire results for the team’s performance in the course. Individual contribution to team performance will be evaluated as part of the overall grade in the course.

Late Submittal Policy: Students may submit an assignment late for ½ credit up to one week after the stated due date for the assignment. Beyond one week, assignments will not be accepted unless prior approval has been obtained from the instructor.

Statement of Academic Integrity: Academic honesty is the foundation of the university community. Cheating, plagiarism, or other acts of academic dishonesty compromise the integrity of the academic process and community and are subject to disciplinary action. For this class, academic dishonesty will not be tolerated.

Plagiarism: Plagiarism represents disregard for academic standards and is strictly against University policy. Plagiarized work will result in an “F” for the course and further administrative sanctions permitted under University policy. Guidelines for properly quoting someone else’s writings and the proper citing of sources can be found in the APA Publication Manual. If you do not understand the term “plagiarism”, or if you have difficulty summarizing or documenting sources, contact your professor for assistance.

The purpose of the rough drafts is to provide some measure of progress being made and to ensure that each team is on course for successful completion. The drafts may be thought of as a status report. If additional information is needed to complete a draft of a section, merely describe the actions that are being taken to gather the information and/or finalize any decisions. **Note: Drafts will receive a grade. In addition, failure to turn in a draft will result in 5 points being taken off the grade given to the final written report (Along with a zero in this component of the classroom participation grade).**

**Minimum Contents of Drafts:**

**Draft A:**
- Company Overview
- Product Description / Services Plan
- Market description, Plan for any further analysis
- Forecast of capital type and amounts required

**Draft B:**
- Marketing plan, Update on Market analysis
