COURSE MEETINGS

Thursday, 7:20pm to 10:00pm – BIN

CATALOG DESCRIPTION OF THE COURSE:

552. Internship. Three semester hours

Primary interest is on integration of process, conceptual, professional, and personal skills. Provides extensive supervised experience in a setting closely aligned with student's chosen program. Taken as a two-semester sequence of two three credit-hour courses each requiring approximately 20 weekly hours (300 total in each) of field experience. Prerequisites: Application form returned to department several months before actual enrollment in this course (check department for availability and due dates) and a grade of "B" or better in Coun 516 and 551.

GENERAL COURSE DESCRIPTION:

Internship provides extensive supervised on the job experience in a community counseling, school counseling, or student affairs in higher education setting closely aligned with the student's professional career goals.

COURSE OBJECTIVES include, but are not limited to, the following.

The student will demonstrate understanding and appropriate application of:

1. Counselor and consultant characteristics and behaviors that influence helping processes including age, gender, and ethnic differences
 2. Counselor and consultant characteristics and behaviors that influence helping processes including verbal and nonverbal behaviors and personal characteristics, orientations, and skills
 3. Counseling theories that provide the student with a consistent model(s) to conceptualize client presentation and select appropriate counseling interventions.
 4. Models of counseling that are consistent with current professional research and practice in the field so that they can begin to develop a personal model of counseling
 5. Non-counseling direct services that are provided at the student's internship site such as interpreting assessments, leading psychoeducational groups, etc.
 6. Indirect services that are provided at the student's internship site such as record keeping, coordination, program planning, etc.
 7. Professional resources that are available at the student's internship site such as assessment instruments, technology, printed/electronic information, etc.

8. Ethical standards of ACA and related entities, and applications of ethical and legal considerations in professional counseling.

CONTENT AREAS include, but are not limited to, the following:

Skills development will focus on four major areas of competence:

1. **Process Skills:** These include the skills learned in COUN 516 and 551 and refer to counselor behaviors that can be observed either through one-way mirrors videotaping, or audio taping. These skills enhance the process of counseling, and will be evaluated in their execution rather than their choice.
2. **Conceptual Skills:** Most of the counselor's covert behaviors are found here. Kinds of behaviors that represent these skills include:
 - A. understanding what the client is saying
 - B. identifying themes in client messages
 - C. choosing strategies appropriate to client goals
 - D. recognizing even subtle improvement by the clientConceptualization skills reflect deliberate thinking and case analysis. There are two kinds of thinking in this area: conceptualization in the session and between sessions.
3. **Personalization Skills:** These are both easily observable and subtle behaviors. Since counseling is a very personal activity, these skills will indicate how well the student has adjusted to the role of helper. Examples of these might include:
 - A. comfort with the responsibility of being a counselor
 - B. being able to separate own issues from those of the client
 - C. not being defensive with an accusing client
 - D. being able to handle a range of personal emotions
 - E. being able to accept constructive criticism
4. **Professional Skills:** These include behaviors from outside the counseling session. Examples of these might include:
 - A. completing paper work on time
 - B. safeguarding confidentiality
 - C. behaving professionally in the field placement
 - D. dressing appropriately for counseling contacts

In addition students will be expected to demonstrate effective interpersonal communication in their professional relationships as well as a commitment to professional and social responsibility as defined by the Ethical Guidelines of the American Counseling Association.

METHOD OF INSTRUCTION

Lecture, discussion, and supervised application.

COURSE REQUIREMENTS include, but are not limited to:

1. The 300 clock-hour total for supervised experience must include a minimum of 120 hours of direct service work with clientele appropriate to the community, school, or student affairs program emphasis area.
2. On-campus class meetings will be arranged by the instructor of record to meet the instructional needs of the section to which the student is assigned. A schedule of these meeting times will be published by the instructor of record. Individual supervision sessions will occur at the discretion of the instructor of record.
3. Weekly interaction with an average of one hour per week of individual and/or triadic supervision, throughout the internship (usually performed by the on-site supervisor).

4. An average of one and one half hours per week of group supervision provided on a regular schedule throughout the internship, usually performed by a program faculty member.
5. The student will negotiate a *Field Experience Contract* with the on-site supervisor. This contract constitutes an agreement between the student, field supervisor and instructor of record and specifies the student's activities, hours, and supervision arrangements.
6. The student will keep a *Weekly Activity Log* that will document a cumulative record of hours including:
 - A. direct on-site contact hours
 - B. on-site individual supervision
 - C. on-site group supervision with other interns
 - D. on-campus group supervision
 - E. indirect hours on site (excluding supervision)
7. The student will submit audio and/or video tapes, for use in supervision, of the student's interaction with clientele appropriate to the student's field setting. The number and specific requirements for these tapes will be published by the instructor of record.
8. The student is expected to perform activities that a regularly-employed staff member in the setting would be expected to perform. A regularly employed staff member is defined as a person occupying the professional role to which the student is aspiring.
9. The student will complete an evaluation of field site experiences during the last week of the semester. These evaluations will be filed with the department's Coordinator for Field Placement.
10. The student will maintain professional liability insurance throughout internship.

STUDENT PERFORMANCE EVALUATION CRITERIA AND PROCEDURES

Students will submit tapes for review by the instructor. Tapes will be reviewed and evaluated on the student counselor's demonstrated effectiveness in the counseling session.

End of Course grades will be based on the following:

--45% Tapes and written critiques (3 tapes @ 15 points each)

--15% Intervention/technique assignment

--20% Case study/Theory paper

--20% Demonstration of appropriate counseling skills during class sessions; consistent demonstrations of professionalism, including adherence to ethical standards, prompt completion of assignments, initiative, attendance etc; active and appropriate participation in class.

Participation includes constructively offering and receiving feedback from instructor and peers, as well as willingly interacting in any group assignment/discussion.

The following is a general description of the qualities of performance that meet grade criteria for this course.

An "S" or successful completion represents at minimum an expected level of effectiveness. Students demonstrate a satisfactory skills level, and have a uniformly beneficial effect on the

clients at their field placement. Students who achieve this grade are usually more comfortable with feedback, and have a positive view of the opportunities presented in training and supervision.

A “U” or unsuccessful completion represents a lower than expected level of effectiveness. Students with this grade are functioning below the level required for field practicum. There may be severe limitations in certain areas. Students who fail to grasp and consistently demonstrate basic communication and interpersonal skills will generally earn this grade.

When students demonstrate personal limitations that might impede future performance, or consciously violate ethical standards, and are ineffective and harmful to clients, then these students will not receive the instructor's endorsement to continue with the program. (ACA Ethical Standards)

ASSIGNMENTS

On all assignments, submit the **original** document (not a photocopy) to your instructor. All assignments are to be turned in to your instructor the date they are due. When students are to submit actual tapes, the tapes must be submitted during class and cannot be emailed, posted

online, or submitted in any other form unless approved by the instructor in advance. **Late assignments are not accepted and the intern will earn a grade of 0.**

1. Students will spend a minimum of 275 hours at the field experience site and submit a **Weekly Activities Log (WAL)** documenting these hours to the instructor. Use the form provided and make 15 copies - one for each week.
2. Students will negotiate a **Field Experience Contract** with their on-site supervisors. The Contract should indicate duties and hours per week, as well as supervision and internship experiences. The contract must be signed by the Field Supervisor, the student and the instructor.
3. **Group/Class Meetings:** Please consult attached schedule of meetings. Attendance is required - there are no exceptions. Arriving late and leaving early will be treated as an unexcused absence. Students may also be required to meet with the instructor for individual supervision. Interns need to be very clear that there is no substitute experience for class/supervision. If you have plans which interfere with attendance you need to drop the course.
4. **Intervention/Technique Assignment:** Each student will present one intervention, technique, or activity to the class. The presentation should include, but is not limited to the following: description of the intervention/technique, target population, adaptability to age/developmental level, theoretical foundation, a description of how the activity/intervention was implemented in a session, and the outcome of the intervention. Interns are expected to present an intervention that they have used in a session with a client (no exceptions) and preferably present a video of the intervention being implemented in the session. Handouts detailing the intervention/activity will be distributed to the entire class.
5. **Case Study/Presentation (five page minimum):** Students will develop a comprehensive written case study utilizing two contrasting theoretical interpretations. One theory may be the student's personal theory provided that this has been established during Practicum or Internship I. A Case Study Guide will be handed out in class. Instructions for the case study will be based on the student's enrollment status, either in Internship I or Internship II. Students will use the major headings from this handout when organizing their materials. Students will present this case study orally to the class, and submit a typed copy of the case study to the instructor. Case Presentation assignments will be made in class. You will have about 20 minutes to present your case then we will ask you questions. Note the time limit! You need to learn to present the circumstances about a client in a concise and clear way.
6. **Audio or videotapes** will be brought to class for **group supervision**. Each tape will be critiqued in class where possible.
 - A. A case consultation form must be completed for each tape brought to class for group supervision. A tape without a complete case consultation form will not be reviewed during group supervision due to the interns unpreparedness.
 - B. You need to be prepared to provide each other with constructive feedback. Your Field Supervisor will give you direction on case management; I will be emphasizing your skills, interventions and conceptual understandings of your clients. Please remind yourself and each other to erase all tapes before the semester ends. *All clients taped for any reason will sign a "Consent for Video/Audio Taping" form prior to making a recording. Persons under the age of 18 must have a parent or legal guardian sign the form. This form must accompany each tape submitted for supervision.*
7. Three **audiotapes or videotapes with written analyses (two page minimum)** will be submitted for grades. Students will select three tapes for evaluation by their faculty

supervisor as part of their grade. **These tapes must not be the same as those chosen for group supervision in class.** A completed audiotape analysis form and consent form will accompany each recording submitted for evaluation. Students are responsible for the sound quality of their tapes. Unclear tapes will not be accepted. Label each tape with your name, date, and tape number. **Do not place the client's name on the tape.** The tapes you submit for a grade in this class cannot be/have been used in other courses. Written analyses will be submitted in class. The audiotapes must be formatted to play on windows media player or comparable program in order to be viewed on the computer equipment in the classroom **NOT** on the student's personal computer or phone. Please avoid recording counseling sessions on cellular phones.

- a. As in the other clinical courses, learning in this course is developmental, a tape which earns a high score at the beginning of the course would, if turned in later in the course, probably receive a lower rating. Basically this means that standards for a given rating get higher as the semester progresses.
 - b. No late tapes will be accepted. If a tape or analysis is not turned in by 11:59pm on the due date, the student will receive a 0 for the assignment.
 - c. Tapes must be accompanied by a release form signed by client. If the tape is not accompanied by an informed consent the student will receive a 0.
 - d. Tapes handed in class must have student identification present. Students must be able to record sessions on any of the following formats: VHS, DVD, or Digital File. Digital Files will be the preferred format. Tapes must be submitted manually (no exceptions). Emailing or uploading tapes to websites is not appropriate for this course.
8. **Professional Readings:** These will be taken from the texts on the reading list as well as selected journal articles. Students may be asked to report verbally during assigned class meeting.

ATTENDANCE

The natures of this course demands that all students be present for every class session and actively participate in discussions. Students are responsible for all information disseminated in class (even if the student is absent). Attendance is mandatory. More than 1 absence will result in unsuccessful completion of the course. The student is expected to attend class regularly.

University guidelines regarding attendance policy will be followed. For those weeks with online assignments, missing assignments (discussion board included) or turning in assignments late will be considered as absence for that week. With regards to the discussion board, **each student is expected to contribute to the online learning experience as if they were in class.**

To participate in the discussion, take time to think about what you write and how it relates to the topic and the specific discussion statement. You are expected to make a minimum of three (3) entries per discussion. Please respond to the discussion question in your first entry and feedback to the comment(s) of your classmates in other entries.

Please note: email is the best and often the quickest method of communication. Monday through Friday I will normally respond to emails within 24hours. A response to emails sent on Friday after 5:00pm will be returned on the following Monday.

AUDIO/VISUAL RECORDING OF CLASS CONTENT

Students who wish to tape record lectures or class content must request permission from the instructor prior to doing so. The nature of counseling courses is such that students may sometimes share personal information. Therefore, students must secure permission from the

instructor prior to taping. If permission to tape is granted, students must cease taping when fellow students share personal or confidential information during class.

ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:
