Office Hours: MWF – 10:00 – 12:00, Tue&Thur 9:00 - 11:00 or by appointment. Please call first before driving in, office hours are subject to change.

Course evaluation: All grading will be >90% = A; 80-89% = B; 70-79% = C and so on with <60% = F
Please also note that if this is required for your major, you will not graduate with a D -- so plan accordingly when deciding the effort to dedicate to the class.

Tests: Midterm and Final exam (100 points each) = 200 points for course
MyEconLab Quizzes and Homework (10 points/week) = 150 points for course
Writing assignment = 100 points for course
Other points/opportunities will be announced/available in class. Failure to attend will forfeit these opportunities.

It is critically important that you follow the instructions for submission of work. I will not search for your work, if it is submitted incorrectly, it will not be graded.

Late work is accepted only with approved absences. Any scheduled absence requires that you make testing arrangements prior to the exam. Without approval, late work will have a 20% reduction in the grade.

Global Course Designation: The Principles of Macroeconomics – Econ 2301 – course is designated as a Global Course within the Quality Enhancement Plan. The Stated Learning Objective (SLO) of this course is that students will be able to demonstrate knowledge of the interconnectedness of global dynamics (issues, processes, trends and systems.) This aspect of the course is assessed using the assignment on the final pages of this syllabus.

MyEconLab (MEL) Weekly Pre-quiz, Homework, and Quiz: Each week will begin with a pre-quiz. The pre-quiz is a prerequisite for the homework, so failure to take the pre-quiz will also result in a zero on the homework assignment. The pre-quiz will generally be due on Monday. Upon completing the pre-quiz, you can begin the homework, which will be due on Thursday. A quiz is available, beginning on Thursday* of the week and due by Saturday* at noon. The average of these three assignments will be the weekly MEL grade out of ten points. For example, an average on the pre-quiz, homework, and the quiz of 92% would result in 9.2 points for the week. These points will quickly add up, do not neglect this portion of the class. (*The day of the week may change on occasion)
You are expected to read the chapter PRIOR to taking the pre-quiz – if you receive a 90% or higher on the pre-quiz, you are excused from the homework and post-quiz. Tentative schedule and due dates. Dates are subject to change if necessary. (⇒ denotes an assignment that has a prerequisite and can’t be done until/unless the preceding assignment is done.)

Assessment of University Core Learning Objectives and Course Objectives – Due April 23rd

Social Responsibility -- to include intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities

- 1.) Students will demonstrate awareness of societal and/or civic issues.

Assignment – (incorporated as part of material on fiscal policy)

1) Pick an article that has appeared in an online news source within the past month. Your selection of an appropriate article will constitute a portion of your grade.

- The article should discuss a fiscal policy that has a societal and/or civic impact. The article should have global implications.
  - The policy can be passed or proposed, federal or state, domestic or foreign.
- The article should be from a credible source, and should be cited in a recognized format (APA, MLA, Turabian, etc). Make sure to include the url as part of the citation.
- You will be discussing the article you selected. However, you are not limited to the article as a source of information. You can and should use Google (or another search engine) to find background information about the topic. In some cases it may be useful to read articles from sources that write from a different perspective.
- Your discussion of the article should demonstrate critical thinking.

2) Write a response to the article that will be submitted to the dropbox of the course. You will write your response in Word (or other word processing software), do NOT write your response in the comment section of the assignment dropbox. Your response will discuss the societal and/or civic issues that either arise because of, or are addressed by, the economic issue you selected and the global implications.

  1) The first part should explain the issue discussed in the article. The reader should have enough background information to follow the arguments you make in subsequent paragraphs, but this should be a synopsis of only the most important information, not a re-write of the article. Pay attention to providing basic details that answer who, what, when, where and why, especially as it relates to the fiscal policy discussed. Make sure to use economic vocabulary as you describe the fiscal policy.

  2) The second part will discuss the societal and/or civic issues impacted by the fiscal policy. What are the immediate implications on society? What are the short term and long term implications? Who will gain from the policy? Who will lose surplus from the policy? Are there efficiency or equity issues involved? How do cultural issues affect the implementation of the policy? If we use the macroeconomic assumption of benevolent dictator, what would you propose/alter as a benevolent dictator?

  3) The third part should discuss the global implications of the event/proposal. It is not required that you find an event that will have world-wide or large magnitude implications, but you should pick an event that will have implications for at least 2 or 3 countries. Discuss the international connections. Will the event/policy in the article affect trade and how? How will country-to-country relationships be affected? How will this affect citizens within affected countries?
