

**Psychology and Sociology of Diverse Populations**  
**Psychology 310.01W**  
**Texas A&M University-Commerce Summer I, 2015 Semester**  
**Rebecca Stephens, Instructor**

**Class Meeting Schedule**

Mondays-Fridays, online

Monday, June 8-Thursday, July 9, 2015

**Required: You will need to sign on and check your campus email each day, seven days a week, and read any emailed that I send to you on the day that I send them to you.**

**Required: You will need to sign on to our Psy310 eCollege website each day, Monday-Friday, and spend a little time working on your course work. You'll be reading online lectures, posting assignments, reading some of your classmates' posts, and taking your quizzes on our eCollege website.**

**Instructor:**

**Rebecca Stephens**

Office: My office is located in Henderson 229 at Texas A&M University-Commerce. I am not on-campus this semester however, so all meetings will be via email or on the phone. If you wish to have a phone meeting, then please email me with your request, the reason for your request, and a phone number where you can be reached, and the date and time when you would like for me to call you. I will then call you based on that information, or, if I am unavailable at that time, then I will email you in follow-up so that an alternate date/time can be arranged. I am generally available to be in touch with you on Mondays-Fridays, between the hours of 8am-4pm, and on Wednesday evenings between the hours of 6pm-8pm. Additional times may also be available.

Commerce Office Phone: 903-886-5591

Psychology Office Phone: 903-886-5594, fax: 903-886-5510 (ALWAYS call psychology office to confirm BEFORE faxing). Ms. Dana Sutherland and Ms. Aletha Poe are the departmental secretaries in the Psychology Department Office, and students are encouraged to call and visit with them about any questions or concerns. Ms. Sutherland or Ms. Poe are able to be in touch with the instructor if you have any emergencies or need to reach the instructor, but are not able to email or get online.

**Email: send email to [Rebecca.Stephens@tamuc.edu](mailto:Rebecca.Stephens@tamuc.edu)**

**Please limit emails to course related content, and please do not put my email address on your mass email forwarding list.**

**Formatting emails: Always type "Psy310.01W, Summer I, 2015, from \_\_\_\_\_", and then add your name, in the subject line/title of your emails! Otherwise, they are deleted. I only open emails that have identifying information in the subject line. Also, please be sure to always put your name in the body of your emails,**

even if you are replying to one that has been written, etc. **All communication should be professional and well-written. Your emails project and communicate your image---be sure that you do that appropriately.**

### **Office hours:**

Again, office hours will be on via emails and on the phone, if necessary. Also, please keep in mind that students may communicate with the instructor via email **each and every day, at all times of the day.**

### **Required Texts and Readings:**

***Multicultural Education in a Pluralistic Society (9th ed.)***

**eText:**

ISBN-10 0-13-612223-X, ISBN-13 978-0-13-612223-4

**Print:**

ISBN-10 0-13-703509-8, ISBN-13 978-0-13-703509-0

**Author(s):** Donna M. Gollnick; Philip C. Chinn

**Publisher:** Allyn & Bacon

**Copyright year:** © 2013 **Pages:** 456

Additional materials will be distributed in class or made available on the course website.

### **Course Overview:**

This course will examine the variables which affect the perceptions, beliefs, and behaviors of the microcultures which comprise our population. This course will include, but will not be limited to, culture as a function of socioeconomic status, religion, gender, language, age, exceptionality, geographical origins and ethnicity.

### **Attendance/Participation:**

We cover a tremendous amount of information each week, therefore, participation at a high level is very critical to your performance in this course. ALL students are expected to be 100% active in participating throughout the course. You will ***not*** have the option of "going AWOL" for a few days. It's as simple (and demanding) as this: Check this website daily. Interact with your classmates and instructor frequently. Get your assignments done early and on time. If you are "absent"/not participating for an ***excused*** reason (see student handbook or instructor for detailed explanation of excused absences), you will be able to make up your work (daily participation assignment, projects, or exams). ***You will have to produce documentation for your excused absence***, and make arrangements immediately upon missing class. You will have 3 days to make up any missed work if it's an excused absence and approved by the instructor. Assignments, projects, or exams that are missed due to an unexcused absence may not be made up. **If AT ANY POINT, the instructor perceives that you are not participating in full, then you may be dropped from the course. This can occur at any time during the semester, even if it's towards the end of the semester.** It is each student's responsibility to communicate honestly and frequently with the instructor about any circumstances that prevent the student from participating, and result in a temporary period of inactivity.. Do NOT simply stop participating or drop out of the course. If you are not actively involved every day, it needs to be for reasons that are serious and can not be avoided, and when that occurs, communicate ***immediately*** with your instructor by email([Rebecca.Stephens@tamuc.edu](mailto:Rebecca.Stephens@tamuc.edu) or if you can not access email, then call and speak with Ms. Sutherland in the psychology office (903.886.5594).

### **Withdrawing from/dropping Psy310:**

Students are responsible for following University procedures to drop a class. If you stop participating in the class for *any* reason, you must initiate the process of dropping, or you will receive a failing grade. **You are responsible for finding out from the Registrar's Office the final day to drop a class. DO NOT wait until the last minute to drop the class.** Plan to take care of this several days ahead of time, so that you

will have the time required to get the forms signed, submitted, etc. If, in the very beginning of the Summer I session, you determine that you wish to drop, PLEASE DO SO IMMEDIATELY, since, if you do so in the first or second day of class, that would open up a space for another student to take the course.

### **Class Requirements:**

You are expected to participate regularly, each day, each week. You will take **3 unit quizzes/exams (quizzes are worth 100 points each, for a total of 300 points)**. Additionally, you will write and post 2-4 Assignment Posts each week that will include doing some discovery research, posting to our website, reading classmates' posts, and responding in-depth to one of your classmate's posts. Assignment Posts are worth 30 points each. You will have a total of 8 Assignment grades of 30 points each (240 points). Your Please note that additional assignments may be given by the instructor at any time, and counted as a part of your total grade. **TOTAL: 540 possible points for the semester 55% of your semester grade will come from quiz grades, and 45% of your semester grade will come from your assignment post grades.**

**There is no final exam in this course.** You will have three quizzes during the semester.

The course is divided into numerous Topics. For most of the Topics, you will be given an assignment to complete and post in the discussion section of the website. Additionally, you are required to respond in depth to one of your classmate's posts in that topic section. Your **Assignment Post** is worth 15 points. Your **Response Post** is worth 15 points. This means that, for each of the Topics, you will receive 30 points for your participation (2 posts are required for most Topics). (If you choose to post more than 1 Response Post, I will randomly select one of them and grade that one. Posting more than one Response Post will not increase your grade for that topic, but you are welcomed to do so.) Your final semester grade will be based on 540 points total: 240 for your Assignment and Response posts (~45%); and, 300 for your three exams- 100 pts each (~55%).

90-100% =	A	486-540 points
80-89 =	B	432-485 points
70-79 =	C	378-431 points
60-69 =	D	324-377 points
0-59% =	F	0 -323 points

At the end of the semester, grades will be awarded on the actual percentage earned. **Additional percentage points are not 'given' to increase a grade. "Extra credit" assignments are not available.** A "79" is a "C". An "80" is a "B". (A "79.5" is rounded up to an 80 and is a B. A "79.4" is rounded down to a 79 and is a C.)

### **Exams/Quizzes:**

Exams/quizzes will contain objective questions over material that is presented in the textbook and online lectures. Multiple choice format will be used. You will take your exams online, on our course website, and they will be timed exams. You will have a certain period of time in which you are able to take the exams, and you will have to complete the exam in the designated period. **You will be able to use your textbooks when you take the exam; however, because the exams are timed, you will find that you MUST read and learn the material thoroughly prior to taking the exams.** If you try to take the exam without having read and studied the material, you will run out of time as you try to look up each answer. You will find that you will fail the exams if you try to do that (trust me, and those who have gone before you on this!). The requirement to read and study the material is the same for both web-based courses and face-to-face classes. Even though the quizzes are "open book", they will be challenging, and you will not have much time to answer each question. Don't make the mistake of ignoring this requirement (to complete the readings prior to each quiz), or you will find that you start the semester with a low grade, and that will

impact your overall semester average.

**VERY IMPORTANT: For test security reasons, you will learn your score only. You will not be able to view the items that you missed or any answers. I understand that this is one disadvantage of online tests, but it is a necessary component, and hopefully, you will find many advantages to taking a web-based course in terms of scheduling and flexibility ;)**

**Materials needed to succeed:**

**You must purchase or lease the course textbook. You can NOT complete this course without use of the textbook. It is an outstanding text, and the textbook readings are the main component to this course.**

It is *required* that you purchase a spiral notebook and keep it near your computer as you work. Take notes as you read online lectures. Take notes as you read your classmates' posts. No one can reasonably expect to keep all of the information and names and content in the memory--that would be a very poor study habit, and will keep you from doing well. Instead, use that spiral notebook as a study tool for success. Make notes as often as possible. Then, before and after each online session (an online session refers to each time you sign online), review what you have written in the spiral notebook, reminding yourself of what you have covered, posts to which you wish to respond, information that you have found on various course-related websites, etc. Your spiral notebook will then become a valuable resource for down the line as well...long after you have completed the course. If you pursue a career in teaching, then the spiral notebook is something to which you may refer for years to come.

**More on Taking Notes : It is expected that *ALL* students will maintain a course spiral notebook containing notes that you take relating to all lectures, posts, etc. Maintain thorough notes that reflect the content of each lecture, and date each lecture. In addition to a critically important study aid, your notes provide documentation of your professional participation in this course.**

**ADDITIONAL AND VERY IMPORTANT NOTES RELATING TO THIS WEB-BASED COURSE:**

1) This syllabus and course description is provided as a general guideline to assist in your planning. Various circumstances may result in changes to the syllabus or course schedule, and such changes are at the instructor's discretion. A reasonable attempt will be made to communicate such changes to students in advance; however, it is the student's responsibility to keep up with such changes.

2) Students with Disabilities: The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services

Gee Library, Room 132

Phone (903) 886-5150 or (903) 886-5835

Fax (903) 468-8148

[StudentDisabilityServices@tamuc.edu](mailto:StudentDisabilityServices@tamuc.edu)

3) NEVER fax anything to the instructor without first making arrangements to do so with the instructor. NEVER mail (U.S. Mail or overnight/express services) anything to the instructor without first making arrangements to do so with the instructor. Submitting assignments and projects ON TIME is the responsibility of the student. Taking exams during the designated times is the responsibility of the student.

4) **Please limit email to course related correspondence** (no chain letters or joke lists, please!!!!).

5) If you email instructor and do not receive an email response within 48 hours, most likely, your email was not received. Instructor will respond to all emails within a reasonable period of time. BE SURE THAT, WHEN YOU EMAIL ME, YOU EMAIL ME AT [Rebecca.Stephens@tamuc.edu](mailto:Rebecca.Stephens@tamuc.edu). Do not forget to type the period/dot in between Rebecca and Stephens.

6) **All students enrolled at the university shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment.** (see current [Student's Guidebook](#))

7) DAILY participation in this web-based course is required (with the exception of weekends, when participation is not required). Participation includes activities such as: reading classmates' posts, reading/studying/taking notes on the instructor's online lectures, researching topics that are introduced, taking the assigned quizzes, posting responses to the various required questions and topics, responding to classmates' posts, etc. Obviously, you will not do ALL of those activities every time you sign on; however, you need to be engaged daily in one or more of those activities each day. You will find your own rhythm and timing for the course. Generally, it is recommended that you will access the course website every day, Monday-Friday, and then, on some days, you will focus on reading the online lectures, and on other days, you will focus on responding to assignments, posting your contributions, reading your classmates' posts, and responding to your classmates' posts. It is suggested that, each day, you commit to one or more hours for this course. Even though I tried to establish a steady routine for the semester, there are some occasions when the schedule changes some, so please note the day by day schedule below and be sure that you understand how the various lectures, readings, assignments, and quizzes flow.

**NOTE ON SUMMER TRIPS AND VACATIONS:** I know that summer is a time when individuals and families like to travel, and I understand this. Unfortunately, the fast pace of our summer semesters does not allow for taking a summer class AND traveling, unless you are prepared to spend time working on your class while traveling. IF you plan to attempt this balancing act, just keep in mind that it will need to be seamless. Be sure that your laptop and modem/wireless works great....be sure that you can access the internet wherever you are. In other words, if you are traveling, it shouldn't be something that I or your classmates would even notice. Your participation will need to be maintained at the same high level whether you are home or away from home. Being on a summer vacation or trip will not be an excused absence or reason for missing assignments or turning them in late. If you are planning an important trip or vacation during the Summer I semester, and you think that it could potentially interfere with this course, then do not take this course this semester (or don't take the vacation/trip). That is not meant to sound harsh--it's just the reality of scheduling. If you make the choice to take this course at this time, then you will have to have the full commitment to doing so according to our daily schedule, which is rigorous. I cannot schedule the course around your vacation. You'll have to schedule your vacation around the course ;)

8) **Academic honesty:** I cannot emphasize the following enough or too much. Far too many students are "finding out the hard way" that instructors and the university are *extremely serious* about our policies relating to academic integrity and honesty, and this is true in both web-based and face-to-face classes. Each environment has its own set of security needs, and these are addressed by instructors in various ways. In the most simple of terms, **NEVER** engage in *any* behavior or practice that is dishonest or misleading in any way. You must **ALWAYS** do your own work and only your own work. NEVER have another student do work for you and then present it as your own. NEVER agree to do another student's work, and NEVER do another student's work. NEVER copy information from an internet source or another source, online and otherwise, and present it as your own. NEVER print out any portion of an online exam for yourself, or anyone else. You are never to print out a quiz you're your course website. NEVER take an online quiz/exam with another student or individual present. You must take your exams by yourself, alone. You are NEVER to be in communication with another person during the time when you take a test, by any means (in person, or by any other method, such as cell phone, texting, instant messaging, paging, telephone, in person, or any other method). NEVER have another student take part or all of an online quiz/exam for you. You must always do your own work, no exceptions. NEVER have

another student complete a part or all of an assignment for you. This is academic dishonesty, and you will not only be removed from this course, you will have additional consequences in terms of your enrollment, etc. What most students do not understand, but are beginning to understand, is that web-based instructional technology is advancing at a rapid rate, and the instructional software/delivery systems (such as e-College, what you are using right now) are VERY sophisticated in terms of being able to monitor student involvement, practices, etc. There are many "check systems" that exist within this learning environment, and therefore, you will want to take seriously the guidelines relating to academic honesty. This course is built so that, if you take your commitment to the course seriously, and read and study the required material, as well as participate in the online discussions and the ERIC database research components that are a part of each assignment, you should do very well in acquiring the information that you need not only to do well in this course, but also to prepare you for a career in teaching or elsewhere. There is absolutely no room for unethical and unprofessional conduct in this class, and it will not be tolerated. Keep in mind that your quizzes in this course are open book, and therefore, you will be able to complete the exams on your own, with the help of your textbook (not another person!).

**At the beginning of the Summer I semester, you will be able to access the full syllabus, including the schedule of assigned readings and quizzes. You will need to download and print that complete syllabus at the start of the Summer I semester, so that you are able to follow it closely throughout the semester.**
