Graduate Assistant: Joseph Wolf
Office: Field House 005
E-mail: JWolf@leomail.tamuc.edu
Class time: Monday & Wednesday, 2:00 – 3:15
Office hours: By email appointment only

Required Text: Text Book, pen or pencil, paper to take notes. You will be informed beforehand if some type of workout clothing is needed.

Tentative Lab Schedule:

This lab will be used to supplement what you are learning in the lecture portion. We will apply that material in a practical sense and discuss the topics that are the hardest to understand. Equipment will be used when we are able to and when it is applicable to the lesson.

There will be a final exam. Assignments, quizzes, and bonus points will be given at my discretion. Any assignments given will be due by your next lab. No late work unless a very good reason is given.

| Week 1 | Course Overview | **Chapter 1: Basic Information (Clinical Kinesiology and Anatomy)**, 3  
Descriptive Terminology, 4  
Segments of the Body, 5  
Types of Motion, 6  
Joint Movements (Osteokinematics), 7 | |
| 2 | 8 | **Chapter 8: Basic Biomechanics**  
Laws of Motion, 94  
Force, 95  
Torque, 97  
Stability, 99  
Simple Machines, 102  
**Basic Biomechanics continued**  
Levers, 102  
Pulleys, 108  
Wheel and Axle, 109 | |
<table>

</table>
| **Chapter 2: Skeletal System** | Functions of the Skeleton, 13  
Types of Skeletons, 13  
Composition of Bone, 13  
Structure of Bone, 14  
Types of Bones, 16  
Common Skeletal Pathologies, 17 |
| **Chapter 5: Muscular System** | Muscle Attachments, 39  
Muscle Names, 40  
Muscle Fiber Arrangement, 41  
Functional Characteristics of Muscle Tissue, 42  
Length-Tension Relationship in Muscle Tissue, 42 |
| **Article 1**    |                                                                                |
| **Chapter 4: Arthrokinematics** | Osteokinematic Motion, 31  
End Feel, 31  
Arthrokinematic Motion, 32  
Accessory Motion Terminology, 32  
Joint Surface Shape, 32  
Types of Arthrokinematic Motion, 33  
Convex-Concave Rule, 34  
Joint Surface Positions (Joint Congruency), 35  
Accessory Motion Forces, 36  
Active and Passive Insufficiency, 43  
Types of Muscle Contraction, 45  
Roles of Muscles, 48  
Angle of Pull, 48  
Kinetic Chains, 49 |
| **Chapter 3: Articular System** | Types of Joints, 21  
Joint Structure, 24  
Planes and Axes, 27  
Degrees of Freedom, 28  
Common Pathological Terms, 28 |
| **Chapters 9: Shoulder Girdle** | Clarification of Terms, 115  
Bones and Landmarks, 116  
Joints and Ligaments, 117  
Joint Motions, 119  
Companion Motions of the Shoulder Joint and Shoulder Girdle, 120  
Scapulohumeral Rhythm, 120 |

**Review: Final Exam**

**Course Grading:**
Attendance will constitute the majority of your grade. Attendance includes: showing up on time, staying through the whole lab, having your book, having any assignments, and voluntarily participating.

**Grading Scale:**

- **100 – 90%**  A
- **89 – 80%**   B
- **79 – 70%**   C
- **69 – 60%**   D
- **59 – 0%**    F

**Attendance Policy:**
You need to attend all labs. All lab write-ups are to be conducted in class and due at the end of class. If the lab write-up is not turned in, you have till the next class session to turn in your work. After that time lab write-ups will not be accepted. If for any reason you are going to be late or are unable to attend lab, please notify me ahead of time or you will be counted absent. Failure to notify me in advance will result in an absence that can’t be made up and a grade of zero.

**Student Conduct:**
This course will cover biomechanics. Students should feel comfortable discussing their individual views and experiences concerning each subject. Students should also respect each other’s differences and respect each other as each issue is discussed. If the instructor deems that individual students are not being respectful toward each other or the instructor, then these students will be asked to leave (and eventually drop the course if the negative conduct continues). Please refer to pages 42 – 45 of the TAMU-C Student Guidebook’s Codes of Conduct for details.

**Students with Disabilities:**
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation
requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

**Office of Student Disability Resources and Services**
Texas A&M University-Commerce
Gee Library, Room 132
Phone (903) 886-5150 or (903) 886-5835
Fax (903) 468-8148

**Plagiarism/academic dishonesty**---Plagiarism is copying another’s work as your own without proper acknowledgment. Be aware that the intent to deceive the reader does not have to be present for plagiarism to occur. Also ignorance of the definition of plagiarism is also not an excuse and will result in the same consequences as for someone who is educated. Plagiarism is also not restricted to copying the writings of others, nor to stealing from established authors; it includes the ideas of your fellow students. If you plagiarize in this class (including cheating on tests) you will receive an automatic “F”. If you are in any doubt as to whether your work constitutes plagiarism or academic dishonesty, please discuss this with me confidentially.
