Instructor: Dr. Cheri Davis  
Office Location: Science #148  
Office Hours Monday and Wednesday 3:15-4:15 & Friday 10-11, or anytime my office is open and I am available.  
Office Phone: 903 468 8650  Office Fax: 903 468 8651  
University Email Address: Cheri.Davis@tamuc.edu  
Class Hours: Tuesday & Thursday 9:30-10:45 am, STC 135

COURSE INFORMATION

Materials: Textbooks, Readings, Supplementary Readings

The required text is a “lab packet” specific for this course and is available from the campus bookstore. A calculator is recommended for each student; a simple inexpensive 5-function calculator will work. In addition to the class packet, students will need computer and printer access.

Course Description

Science is an interesting and diverse topic; it is the instructor’s intent to demonstrate that learning and teaching can be enjoyable as well as educational. Science is what allows mankind to function in a productive manner. We will explore the question, “What is Science?” and help each individual grasp an understanding of his/her own philosophy of teaching.

Students will participate in a cooperative learning environment, through hands-on experiments, and lecture. Pedagogy, methods and techniques, critical thinking, data analysis, proper handling of equipment, and content will be explored in this course.

Student Learning Outcomes

1. Students will gain a better pedagogical understanding.

2. Students will be better prepared to achieve success completing the TExES exam.

3. Students will complete a grade specific TEKS notebook.

4. Students will assist the instructor through cooperative learning to provide interesting and practical science knowledge and skills for taking instruction into the classroom and everyday life.
COURSE REQUIREMENTS

Instructional / Methods / Activities Assessments

The instructional methods for this course will vary with the topic being explored. Students will be attentive through any lecture, providing the instructor/presenter their full attention. Questions will be welcomed and are encouraged during lecture, however students will not engage in "personal discussions" thus disrupting class.

Students will be working in groups to complete labs throughout the semester. It is imperative that students do NOT miss class as their group will not have each member’s contribution. Any missed classes will not be made up. For clarification purposes, there are NO make-up labs. This includes any lab section of a test.

Grading

The following scale will be used for determining final course grades:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
<th>Tentative Exam Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>90% &lt; A &lt; 100%</td>
<td>1) 24 September</td>
</tr>
<tr>
<td>B</td>
<td>80% &lt; B &lt; 89%</td>
<td>2) 22 October</td>
</tr>
<tr>
<td>C</td>
<td>70% &lt; C &lt; 79%</td>
<td>3) 17 December @ 8 am, Final</td>
</tr>
<tr>
<td>D</td>
<td>60% &lt; D &lt; 69%</td>
<td></td>
</tr>
<tr>
<td>F</td>
<td>F &lt; 60%</td>
<td></td>
</tr>
</tbody>
</table>

Test dates are approximate and subject to change. Advance notice will be given to allow ample time for preparation. Test dates will be determined by the amount of material covered and the rate at which the course advances.

Plagiarism or cheating will not be tolerated for any reason and violation will provide the individual(s) involved with a failing grade and a referral to the dean’s office for further disciplinary action.

TECHNOLOGY REQUIREMENTS

Preservice teachers need to incorporate technology into their learning so that they can take this knowledge and understanding into their classrooms as they facilitate learning. Throughout this course, students will be using tools and technology to complete laboratory procedures. Students will need computer and printer access to complete various assignments. Students should expect a large amount of printing through the duration of this course.

COMMUNICATION AND SUPPORT

Interaction with Instructor

Students are welcome to visit during office hours or at any other time I am in my office and available. For a specific time outside of the scheduled office hours please feel welcome to call my office or email to schedule an appointment.
All written communication needs to be through email at this address: Cheri.Davis@tamuc.edu

Students will be expected to regularly check their email provided to/ by the University through eCollege as this address is provided to the professor. In ALL email, students are encouraged to include the following information in the subject line: the course name, your name, and a (very) brief statement/inquiry.

  e.g. Subject: IS 352, Dr. Davis, lesson #3 question

This will allow all inquiries to be answered as soon as possible. If a response is not received within 2-weekdays then assume there was a problem with the email and please follow-up through other contact options.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Policies

Violation of any class policies will be reflected on the student’s final grade for the course.

1. Be professional. You are completing your degree and preparing for the classroom as the facilitator of instruction. Your attitude should reflect your professionalism which should include the remaining class policies.

2. Be here. Absences will result in lowering your overall grade. If you know in advance that you are going to miss class, please inform me in writing - email is preferred.

This class meets twice weekly, missing even one class results in missing a large amount of material. Excessive absences may result in the student being dropped from class with a failing grade.

3. Be on time. Tardiness will be a direct reflection of your professional attitude. This class meets on Tuesday & Thursday 9:30-10:45 am. This is a very short amount of time and must be utilized effectively. It is important that you arrive to class on time. Excessive tardiness will result in a low participation grade for this course and the result will be reflected in student’s final grade.

As a teacher, you will be expected to turn in grades on time as well as meeting other deadlines; again be professional. Absences will not be considered a “good reason” for turning in late assignments. All due dates are given in advance; take them seriously as late work is not accepted.

4. Be courteous. Cell phones will be turned off; failure to comply will result in the student being excused from class. I will give you my undivided attention and I expect the same of each student. No electronic devices (this includes use of a computer/tablet) will be permitted during class unless arrangements are made in advance and approved by the professor.
Course Specific Procedures

1. Students will be required to take all exams and must prove mastery of the material by completing at least two tests with a grade of 70 or better to pass this course. It may be possible for students to complete all coursework with a high enough average to pass the overall class without completing any of the tests with a grade above 70. If fewer than 2 exams are not completed with a score above 70, the student will receive a failing grade for the course. Combined exams total 25% of the final grade.

2. Students will be responsible for their learning and participate in all class activities with a positive attitude. Again, professionalism will be practiced in this course.

3. Students will have all homework completed upon entering class. Again, late work is not accepted so do not be late to class. Students will not attempt to work on any material for another class.

4. Students will complete a grade specific notebook assignment which will be 25% of the final grade. This assignment is strategically formatted to aid the student in planning lessons, locating appropriate supplementary curriculum/experiments, and becoming competent in the use and navigation of the TEKS. Grade levels for the notebook will be assigned. Additional instructions will be provided for the notebook requirements.

5. Students will be printing a large amount of material through the semester for regular assignments as well as preparation for the notebook assignment. Students will need computer and printer access. Students will be responsible for their own printing needs. Emailing material for the professor or the teaching assistant to print for you is not an option.

6. Students will participate and contribute equally in group activities; this includes cleaning work area after class/labs. All collaborative assignments will have an individual grade for each student dependent upon their contribution, collaboration, content, and professionalism. Failure to comply will be reflected in the non-compliant student's grade and will not be a detriment to the remaining group members.

University Specific Procedures

ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services
Texas A&M University-Commerce
Gee Library 132
Phone (903) 886-5150 or (903) 886-5835
Fax (903) 468-8148
StudentDisabilityServices@tamucc.edu
Student Disability Resources & Services
**Nondiscrimination Statement**

A&M-Commerce will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

**Student Conduct**

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. (See *Code of Student Conduct from Student Guide Handbook*).

**COURSE OUTLINE**

**DOMAIN IV – SCIENCE**

- Competency 024 (Safe and Proper Laboratory Processes)
- Competency 025 (Scientific Inquiry)
- Competency 026 (Impact on Daily Life/Environment)
- Competency 028 (Theory and Practice of Science Teaching)
- Competency 029 (Assessments in Science Learning)
- Competency 031 (Physical Science-physical and chemical properties)
- Competency 032 (Physical Science-energy)
- Competency 034 (Life Science)
