Instructors: Dr. Brenda Reed  
Office Location: WCB 110 (on the Navarro College campus)  
Office Hours: by appointment only  
Office Phone: 903-875-7515  
Office Fax: 903-875-7523  
University Email Address: brenda.reed@navarrocollege.edu

**COURSE INFORMATION**

**Materials – Textbooks, Readings, Supplementary Readings:**

You will be required to have an access code for My Math Lab. The course ID needed to register in the My Math Lab program is **reed43613**

**Course Description:** This course is designed for students planning on teaching EC – 8.

**Student Learning Outcomes:**

1. understand numbers, ways of representing numbers, relationships among numbers and number systems,
2. understand meanings of operations and how they relate to one another,
3. compute fluently and reasonable estimates
4. understand patterns, relations and functions
5. represent and analyze mathematical situations and structures using algebraic symbols
6. use mathematical models to represent and understand quantitative relationships
7. analyze change in various contexts

The goal of this course is to develop understanding of the mathematics. We are constantly going to be dealing with WHY more than HOW. As a future teacher you must be able to explain mathematics to your students, not just show them how to carry out mathematical procedures. We will focus on underlying structures and development of ideas. In addition, problem solving is a major component of this course. As a future mathematics teacher, you need to become familiar with and skilled in various types of problem solving techniques that are commonly used in mathematical thinking.
**COURSE REQUIREMENTS**

**Grading:**
Will be based on a midterm exam, homework and a final exam. In order to successfully mathematically prepare today’s children for the technological world they face, a school teacher must have a solid understanding of a broad spectrum of mathematics, including mathematics at a level considerably beyond the grade he/she teaches.

- Homework - 40%
- Midterm - 30%
- Final – 30%

**Make-ups:** Make up exams will only be given in the event of an extreme, documented emergency.

**Attendance:**
It is the prerogative of the instructor to drop students from courses in which they have accrued excessive absences (three or more). However, a student wishing to drop the course should do so. Failure to do so may result in a failing grade. Missing a homework due date counts as an absence.

**TECHNOLOGY REQUIREMENTS**

This is an essentially an online course. **Late work is not accepted.**
- Internet access (high-speed preferred)
- Word processing software (Microsoft Word preferred)

As a student enrolled at Texas A&M University-Commerce, you have access to an email account via myLeo - all my emails sent from eCollege (and all other university emails) will go to this account, so please be sure to check it regularly. Conversely, you are to email me via the eCollege email system or your myLeo email as our spam filters will catch yahoo, hotmail, etc.

**ACCESS AND NAVIGATION**

This course will be utilizing eCollege to enhance the learning experience, eCollege is the Learning Management System used by Texas A&M University-Commerce. To get started with the course, go to: https://leo.tamu-commerce.edu/login.aspx.

You will need your CWID and password to log in to the course. If you do not know your CWID or have forgotten your password, contact Technology Services at 903.468.6000.

**COMMUNICATION AND SUPPORT**

**Interaction with Instructor Statement:** Email is the preferred method of communication.

Texas A&M University-Commerce provides students technical support in the use of eCollege. The student help desk may be reached by the following means 24 hours a day, seven days a week. If you
experience issues while taking your exams or at any other point, feel free to contact the support desk.

Phone: 1-866-656-5511 (Toll Free) to speak with eCollege Technical Support Representative.

• Email: helpdesk@online.tamuc.org to initiate a support request with eCollege Technical Support Representative.

• Help: Click on the 'Help’ button on the toolbar for information regarding working with eCollege

---

**COURSE AND UNIVERSITY PROCEDURES/POLICIES**

**Course Specific Procedures:**
You will be given homework that will be due approximately two to three times a week online. In addition, your exams will be administered in a face-to-face environment. The times are listed below. **If you cannot make these times, you will need to drop this course. The exam will not be given on the Commerce campus.**

Midterm:

**On October 12th, you will take the midterm exam from 5:00 pm – 7:00 pm. The exam will be on the Corsicana campus of TAMU-Commerce. The room will be announced at a later date.** You will need to bring a photo ID for the testing. Please be on time so that you have the full time for the test. Tests will be taken up at 7:00 regardless of what time you arrive.

Your only other option is to pay to take the exam at a local junior college testing center. The exam will not be given in Commerce and Commerce does not have a testing center for you to use. The closest testing center to Commerce is Paris Junior College. **If you take the exam at a junior college, you are required to take the exam on the same day the midterm is given in Corsicana AND you must send me the name, email address, and phone number of the director of the testing center you wish to have your test sent to at least one week in advance. Failure to meet this deadline will require that you come to Corsicana to take the exam.**

Final Exam:

**On December 7th, you will take the final exam from 5:00 pm– 7:00 pm. The exam will be on the Corsicana campus of TAMU-Commerce. The room will be announced at a later date.**

Your only other option is to pay to take the exam at a local junior college testing center. The exam will not be given in Commerce and Commerce does not have a testing center for you to use. The closest testing center to Commerce is Paris Junior College. **If you take the exam at a junior college, you are required to take the exam on the same day the midterm is given in Corsicana AND you must send me the name, email address, and phone number of the director of the testing center you wish to have your test sent to at least one week in advance. Failure to meet this deadline will require that you come to Corsicana to take the exam.**

**Academic Honesty Policy**

Texas A&M University-Commerce does not tolerate plagiarism and other forms of academic dishonesty. Conduct that violates generally accepted standards of academic honesty is defined as academic dishonesty. "Academic dishonesty" includes, but is not limited to, plagiarism (the appropriation or stealing of the ideas or words of another and passing them off as one's own),
cheating on exams or other course assignments, collusion (the unauthorized collaboration with others in preparing course assignments), and abuse (destruction, defacing, or removal) of resource material.

Disciplinary action for these offenses may include any combination of the following:

1. Point deduction on an assignment.
2. Failure for an assignment.
3. A grade of zero for an assignment.
4. Failure for the course.
5. Referral to the Academic Integrity Committee or department head for further action.
6. Referral to the Dean of the College of Education and Human Services, Business and Technology, Arts and Sciences, or Graduate School as appropriate.
7. Referral to the University Discipline Committee.
8. Communication of student's behavior to the Teacher Certification Office and/or Dean of the College of Education as constituting a reason to bar student from entering into or continuing in a teacher certification program. Procedures, A 13.04, 13.12, 13.31, and 13.32

ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services  
Texas A&M University-Commerce  
Gee Library 132  
Phone (903) 886-5150 or (903) 886-5835  
Fax (903) 468-8148  
StudentDisabilityServices@tamu-commerce.edu  
Student Disability Resources & Services

Disclaimer:

The instructor reserves the right to make changes to the schedule of the class. Any alterations will be announced by the instructor in class, on ecollege, or via email. Students who do not attend class, log into ecollege, or check their email assume full responsibility for missing changes to the course.

COURSE OUTLINE / CALENDAR

8/24 – 8/31 Complete Orientation Homework on MML (My Math Lab)  
Complete Assignment titled Chapter 1 on MML – this is a PowerPoint and a video covering section 1.1 material  
Complete Homework Chapter one on MML
***If you need extra assistance for this week’s assignment, there are problem solving videos located on Blackboard that you can view. You can also go under Study Plan in MML and view practice problems, notes, etc…

9/1 – 9/7

View all podcasts on ECollege that cover different base systems
Complete Different Base Systems and Chapter 3 Section 1 in MML

9/8 – 9/10

Complete Adding and Subtracting videos, adding manipulatives, and adding and subtracting in different bases in MML.

***There are more example problems on ECollege under the Different Bases. While you do not have to turn these in, make sure you go over them. You will see problems similar to these on the midterm exam.

***If you need extra assistance for this week’s assignments, you can go under Study Plan in MML and view practice problems, notes, etc…

9/11 – 9/21

View all podcasts on ECollege that cover Venn diagrams word problems
Complete the assignments Venn diagram videos and Venn diagrams in MML.
Access the Extra Venn Practice sheet located under the Venn Diagram tab in ECollege.
Practice these types of problems. Then, complete the following problems and send the answers to me via an email.
1. \( A \cup B \cap C \)
2. \( \overline{(A \cup B)} \cup C \)
3. \( A \cup (B \cap \overline{C}) \)
4. \( A \cap \overline{B} \cup C \)
5. \( A \cap B \cup C \)

9/22 – 9/28

Complete Properties Media and Properties of Numbers Homework in MML

9/29 – 10/5

Complete Divisibility Media and Section 4.1 -Divisibility Rules in MML

10/6 – 10/12

Work on midterm exam review (this is a grade!) Also make sure to go over the extra Venn diagram problems and the extra bases problems.

10/12

Take midterm exam. Remember that you cannot use notes or a calculator

10/15 – 10/19

View all podcasts on the five step problem on ECollege.
Complete the following homework problems and either scan, email, or fax them to me.
My fax number is 903-875-7523
Complete all five steps with the following patterns: (step 1 is draw the next two elements, step 2 is write a word problem, step 3 is create a numerical table, step 4 is create a graph, and step 5 is find the algebraic equation)

Pattern 1.

Pattern 2
10/20 – 10/26  Complete Prime and Composite PP and section 4.2 – prime and composite in MML

10/27 – 11/2 Complete GCD Media and Chapter 4.3 GCD and LCM in MML

11/3 – 11/9 View all podcasts on ECollege that cover chips and number lines with integers
Complete the assignment on MML titled Integers Media, Integers Manipulatives and Chapter 5 Homework

11/10 – 11/16 Complete Adding Fractions Media, Fractions Manipulatives, and Homework Chapter 6 Sections 1 and 2 in MML
***If you need extra assistance for this week’s assignment, you can go under Study Plan in MML and view practice problems, notes, etc…

11/16 – 11/30 Complete Multiplying fractions media and Chapter 6 Homework 3 in MML
***If you need extra assistance for this week’s assignment, you can go under Study Plan in MML and view practice problems, notes, etc…

12/1 – 12/7 Complete the final exam review in MML (this is a grade!) In addition to this review, make sure to review the five step problem since this topic will be on your final exam.

12/8 Take final exam either in Corsicana or at a testing center. Remember that you cannot use notes or a calculator. Make sure you complete the review before you take your exam.

How students enroll in My Math Lab

To use a student access code:

1. Go to the MyLab and Mastering website and click Student in the Register area.

2. Enter the course ID provided by your instructor and click Continue.

3. After verifying your course information, enter your username and password, and click Sign In.

4. If you don’t have a Pearson account, click Create an account.

5. Complete the Create an Account page. Helpful hints display to guide you.

6. Read and accept the license agreement.

7. Optionally, you can select the check box to help us make our products better and learn about new offers.

8. Click Create Account.

9. Click Access Code and enter your six-word access code in the boxes.

10. Click Finish to complete your registration.

11. Click Go to Your Course to access your online course.
To purchase course access online:

1. Go to the MyLab and Mastering website and click Student in the Register area.

2. Enter the Course ID provided by your instructor and click Continue.

3. After verifying your course information, enter your username and password, and click Sign In.

4. If you don’t have a Pearson account, click Create an account.

5. Complete the Create an Account page. Helpful hints display to guide you.

6. Read and accept the license agreement.

7. Optionally, you can select the check box to help us make our products better and learn about new offers.

8. Click Create Account.

9. Select the button for the access level you want.

10. Select whether you want to pay with a credit card or use PayPal and enter payment information.

11. Click Review to review your order details. If you need to change anything, click the Change link.

12. Click Make Payment to submit your order.

13. Click Go to Your Course to access your online course.

To request temporary access

If a student is waiting for financial aid, 17 days of temporary course access without payment may be available.

1. Go to the MyLab and Mastering website and click Student in the Register area.

2. Enter the Course ID provided by your instructor and click Continue.

3. After verifying your course information, enter your username and password, and click Sign In.

4. If you don’t have a Pearson account, click Create an account.

5. Complete the Create an Account page. Helpful hints appear to guide you.

6. Read and accept the license agreement.
7. Optionally, you can select the check box to help us make our products better and learn about new offers.

8. Click **Create Account**.

9. To get temporary access to your course, click the link at the bottom of the page.

10. When a confirmation message appears, click **Yes** to complete your registration.

11. You will receive a confirmation email with payment instructions. Click **Go to Your Course** to access your course.

For more help with registration, go to the [Get Started for Students](#) area of the MyLab and Mastering website. For instructions on registration, watch the Register for your course videos.
