BSc 1406: Introduction to Biology I (4sh)

1. Instructor: Dr. JP Slovak  
   Office: SCI 231  
   Phone: 886-5368  
   Office hours: MWF 10-12, TR 11-12 -Please make an appointment for other times.  
   Email: John.Slovak@tamuc.edu

3. Course Description: This course is the first half of the Introductory Biology series. It is designed for the following majors: Broadfield Biology, Pre-Med, Pre-Allied Health, and Pre-Vet. Topics covered include biological evolution, biochemistry, cellular and molecular biology, genetics, and microbiology.

4. Course Goals: To give the beginning biology student a conceptual and practical understanding necessary for mastery of the life science curriculum. In addition, the student will learn thinking skills necessary for understanding and interpreting scientific information. This class is difficult. Do not make it more so by failing to study an appropriate amount of time. Fifteen to twenty hours a week is a good estimate of the time you need to be successful. Don't Cram. It does not work.

5. Student Learning Objectives
   • CT #8 Students will be able to analyze, evaluate, or solve problems when given a set of circumstances or data.
   • EQS #4 Students will be able to interpret, test and demonstrate principles revealed in empirical data.

6. Quizzes: Quizzes and activities will be available weekly on the Mastering biology website. These need to be completed weekly. One the due date has passed you will not be allowed to make them up. These will be available on the mastering biology website: http://www.masteringbio.com/site The instructions to access the site come with the textbook.

7. Tests: Tests will consist of objective questions. Tests will not be made up unless the absence is excused according to university policy. If the test is not made-up the student will receive no (0) points. The makeup must be completed within one week of the original test date unless there are extenuating circumstances (i.e. extended hospital stay).

7. Evaluation  
   3 Exams 150 pts (each test is worth 50 points)
Comprehensive Final 100 pts
Quizzes and activities 50 pts
Lab 100 pts

400pts total

A = 360 pts or higher
B = 320-359 pts
C = 280-319 pts
D = 240-279 pts
F = below 240 pts

8. Attendance and Absences: You are expected to attend ALL scheduled lectures and labs and take the exams as scheduled. You will be held responsible for all information covered in lecture. Sign-in sheets will be circulated; please sign your name clearly. Do not sign anyone’s name but your own... signing in for someone else is a form of academic dishonesty and will not be tolerated. Excessive unexcused absences will result in loss of points from your grade. For each five unexcused absences a reduction of ten (10) points will be subtracted from your final grade.

9. Topics and reading assignments(chapters)

- Introduction(1)
- Chemistry and water(2,3)
- Carbon and Macromolecules(4,5)
- The Cell(6)
- Cell membranes and metabolism(7,8)
- Cellular respiration(9)
- Photosynthesis(10)
- Mitosis and Meiosis(12,13)
- Mendelian Genetics(14)
- Gene to Protein(17)
- Bacteria(24)

*All reading assignments should be completed within the week in which the corresponding lecture takes place. All topics in the readings will not necessarily be covered in lecture, but you may find question from the reading on tests. Please read.

Students with Disabilities:
The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services
Texas A&M University-Commerce
Halladay Student Services Building
Room 303 A/D
Phone (903) 886-5150 or (903) 886-5835
Fax (903) 468-8148
StudentDisabilityServices@tamu-commerce.edu
**Academic Honesty:** All students are expected to maintain high standards of integrity and honesty in all academic work. Conduct that violates the accepted standards of academic honesty (as described in the Student’s Guidebook), which includes cheating and plagiarism, will result in a grade of F in the course. Plagiarism is a criminal activity. You must cite all sources of information. Copying of material, whether parts of sentences, whole sentences, paragraphs, or entire articles, will result in a grade of F for the class and can result in further disciplinary action.

Final Exam Schedule:
http://web.tamucommerce.edu/admissions/registrar/academicCalendars/finalExamSchedule.aspx

“All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment.” (Student’s Guide Handbook, Policies and Procedures, Conduct)
