COURSE INFORMATION

Textbook(s) Required:

Social Psychology: Sociological Perspectives (3rd ed) by David E. Rohall, Melissa A. Milkie, and Jeffrey W. Lucas. Boston: Pearson, 2014, ISBN: 978-0-205-23500-1.

Course Description:

Social psychology examines the influence of society on the individual as well as the influence of the individual on society. As an introductory course, this course will give you a taste of the various areas of study in sociology. We will explore how the environment-person influences can be examined in small and large groups, across areas of life like the family, sex/gender, work, and school.

Student Learning Outcomes

1. Demonstrate an attitude of critical thinking that includes persistence, open-mindedness, and intellectual engagement.
2. To stimulate an interest in the contribution of social psychologists to the understanding of changes in socialization, group processes (both inter and intra group), and interpersonal processes (viz. helping behaviour and interpersonal affiliation and attraction)
3. Apply the basic principles and theories of social psychology to everyday social interaction.
4. Recognise and respect social, cultural, linguistic, spiritual and gender diversity.
5. Collaborate effectively, demonstrating an ability to: work with groups to complete projects within reasonable timeframes; manage conflicts appropriately and ethically.

Netiquette

Netiquette is a combination of the term "Network Etiquette". Because online communication generally lacks visual cues common to face-to-face interactions, you are expected to follow these standards. Please abide by the following netiquette rules when communicating with your Course

- Be sensitive and reflective to what others are saying.
- Use appropriate capitalization. Using all capital letters is the equivalent of yelling.
- Be mindful of "flames"-- These are outbursts of extreme emotion or opinion.
- Think before you hit the post (enter/reply) button. You can't take it back!
- Use appropriate language. Be cautious of offensive language.
- Use clear subject lines.
- Use abbreviations or acronyms only if the entire class knows them or define them for others to know.
- Be forgiving. Anyone can make a mistake.
- Keep the dialog collegial and professional.
- Stay positive in all communication to enhance the learning community.

COURSE REQUIREMENTS

Instructional / Methods / Activities Assessments: This course will involve a combination of assigned readings, discussions, exams, class activities, and peer evaluation.

Student Responsibilities:

Students are expected to participate in class. Both the readings assigned via the textbook as well as other modes of information; videos, discussions and group project activities are important elements of learning in the course. Students are expected to actively engage in the course and demonstrate developing mastery of the materials by participating on a consistent basis, keeping up with deadlines, and being an active learner.

Grading

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

Assessments

Grade explanation by assessment type (percentage or points toward final grade)

25% Chapter Quizzes

20% Final Exam

20% Discussion Board

15% Participation

20% Group Book Report

Chapter Quizzes: (25% of grade) At the beginning of each module students are responsible for taking an online *timed* chapter review quiz.

Final Exam: (20% of grade) At the end of the semester students will take a *timed* comprehensive final exam.

Discussion Board: (20% of grade) Every other module will have a discussion board assignment. Answers to Discussion Questions must be posted not later than Wednesday at 11:59 p.m. In response, everyone will offer at least 2 replies to the posted answers for a total of 2 replies to each Discussion Forum. The replies must be substantive, i.e., saying "good job" or "I agree" is not enough. Since Replies cannot be done until after at least some answers are posted, the Replies are not actually due until three days later, but can be posted before then. All replies must be posted by Sunday at 11:59 p.m. in order to receive credit. Late Replies receive no credit (think of it as missing a traditional class, and therefore not being able to participate).

Participation: (15% of grade) Assume approximately **5-7 hours per week of active work** in the course.

-- Complete the learning modules within a 1 week time-frame. -- Check the course site on E-College and your e-mail at least **4 days per week** to stay current with course work, as well as any changes or developments in the schedule. Remember, I will be able to monitor how many times you log on each week. Your active participation in discussion posts and group book report work will also be taken into consideration.

Group Book Report: (20% of grade) In Module 3 you will register for a group and together your group will choose a book from the book list (see list under content tab). After acquiring the book, you as well as your team, will collaboratively write and complete a finished book report. Follow the rubric (under the content tab) for directions and specifics regarding this assignment.

Note: Personal computer problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, an Internet cafe, or a bookstore, such as Barnes & Noble, etc.

Policy for Reporting Problems with Pearson LearningStudio

Should students encounter Pearson LearningStudio based problems while submitting assignments/discussions/comments/exams, the following procedure **MUST** be followed:

1. Students must report the problem to the help desk. You may reach the helpdesk at helpdesk@online.tamuc.org or 1-866-656-5511

2. Students **MUST** file their problem with the helpdesk and obtain a helpdesk ticket number
3. Once a helpdesk ticket number is in your possession, students should email me to advise me of the problem and to provide me with the helpdesk ticket number
4. At that time, I will call the helpdesk to confirm your problem and follow up with you

PLEASE NOTE: Your personal computer/access problems are not a legitimate excuse for filing a ticket with the Pearson LearningStudio Help Desk. You are strongly encouraged to check for compatibility of your browser **BEFORE** the course begins and to take the Pearson LearningStudio tutorial offered for students who may require some extra assistance in navigating the Pearson LearningStudio platform. **ONLY** Pearson LearningStudio based problems are legitimate.
