Catalog Description: A study of the meaning and fundamental principles of leadership and supervision. Consideration is given to the development of teacher leaders and to the solution of administrative and pedagogical problems that supervisors and teacher leaders encounter in the school.
**Student Learning Outcomes (SLO):** By the completion of the course, you will be able to:

1. Use reading of professional literature from business and industry and readings from assignments in your textbook to broaden your perspective and increase your skill in leading others to improve.

2. Develop an understanding of various ways teachers can be leaders and how you can develop your leadership.

3. Demonstrate professional improvement in the art of reflection as a tool to increase your effectiveness as a teacher leader.

4. Contribute significantly to your campus and/or school community by initiating leadership in initiatives that will benefit teachers, classrooms, parents, administrators, and/or the community, providing meaningful applications of course content.

5. Document, through self-evaluation, how the academic and professional experiences during the course have impacted teaching effectiveness and student achievement.

**COURSE REQUIREMENTS**

1. **Know the Course Requirements From the First Class Day.** It is important to be familiar with course requirements on Day One. The two most important documents to help you are (a) the course syllabus and (b) the “Welcome to My Course” which you can see when you click on “Course Home” at the top of the menu bar on the left side of the course. After reading “Welcome to My Course,” you will be directed to do several things, including reading the syllabus, clicking on various links, and then submitting the “Student Information Sheet.” By submitting the Student Information Sheet you acknowledge that you have read the syllabus are familiar with the course requirements and have asked questions about items for which you need more clarification.

2. **Introduce Yourself Slide Show & Student Information Sheet (10% of the total course grade).** During the first week of class, you will submit an information sheet that provides important information about you and your leadership experiences. You will also produce a short slide show, with pictures, to share interesting things about yourself with your classmates. The audience for your slide show is the class members enrolled in EDCI 535 and the purpose is to provide an autobiography of your personal and professional life experiences. (SLO 3)

3. **Read the textbook and take quizzes over the content (30% of the total course grade).** The text for the course is “The 360 Degree Leader: Developing Your Influence from Anywhere in the Organization (John Maxwell). You will read one or two sections in each unit of study and then take a open book quiz over the content. You can complete the assigned reading any time but all quizzes are scheduled during the final few days of each unit. (SLO 1)

4. **Small Group Threaded Discussion (About 30% of total course grade).** Small group discussion is a way for you to (1) interact with others about your learning, (2) express personal and professional opinions, and (3) debate issues with your group members. You will be assigned to groups of 5-8 students and use Threaded Discussion during each of the five units to share and interact. Threaded Discussion is an asynchronous venue in eCollege whereby you communicate with your group members but you do not need to be in your group at the same time. During a period of about one week you and your group members will submit your initial response about a topic or question. The
following week you come back to Threaded Discussion, read everything your group members have posted and respond to them in a meaningful way. (SLO 2-5)

Your participation in threaded discussion will be evaluated based on the following criteria:

Initial Entry: While there is not a minimum required length, thoughtfulness and insight are expected. The quantity and quality of your initial entry is worth up to 3 points.

Responses to Group Members: While there is not a minimum required length, thoughtfulness and insight are expected. The quantity & quality of your responses to your team members can earn up to 3 points as well. In order to get full credit, you must thoughtfully respond to at least 3 members of your discussion group members.

5. Lessons on Leadership (About 30% of the total course credit). In each unit, you will complete a lesson on leadership. These will be based on additional readings, videos, websites, etc. or your own research that will allow you to learn about aspects of teacher leadership and develop your leadership abilities. Each lesson includes a reflection/worksheet in which you will reflect on your learning (WHAT), how that learning influenced your thinking and beliefs (SO WHAT), and what you plan to do as a result (NOW WHAT) and submitted to the eCollege Dropbox. You can up to 6 points on each assignment. (SLO # 2 – 5)

How Should Students Proceed Through each Unit of Study?

As you proceed through each unit in the class, please keep in mind the following important principles:

1. Assignments. All assignments for each unit are explained in the links on the left navigation bar. Everything you need to know about each assignment can be found within the assignment.

2. Needed Documents Are Provided. When documents are required, they are usually embedded within the assignment. Look for the blue links. When an assignment requires you to have a document, that document will be provided to you simply by clicking on the blue link there in the lesson.

3. Asynchronous discussions. This course may include Asynchronous discussions (not live). If it does, they will be conducted using the Threaded Discussion feature of eCollege. In Threaded discussions, you are usually placed into a small group of from 4-8 students and assigned a group designation, e.g., Group 1 A, Group 1 B, etc. When you click on a Threaded Discussion link, you will be given instructions on how to use this feature. In a typical case you will be asked to respond to a topic or question. You will enter your initial response to that question and everyone else in the group will do the same. A few days later you will be asked to return to the discussion, read over what your group have written about, and then begin to respond to their initial entries and they will respond to yours as well. When someone responds to you and it needs or deserves a reaction or response, you continue that dialog.

4. The DropBox. Unless specified, you will submit your assignments electronically using the eCollege dropbox tool.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Appeal of the Final Grade (13.99.99.R0.05 Student’s Appeal of Instructor’s Evaluation, Effective September 1, 1996. Revised December 15, 1999, Revised February 8, 2007)

1. The final grades awarded by faculty members are their expert judgment concerning student performance. Students challenging a final grade must show that the instructor’s judgment was unfair based on:
a) Some basis other than performance, or
b) standards different from those applied to other students in the same course section, or
c) a substantial, unreasonable, and unannounced departure from previously articulated standards or the syllabus.

2. Students who believe their grade to be unfair must first discuss the matter with the instructor.
3. If no satisfactory resolution is reached with the instructor, or if the instructor is unavailable, the student shall appeal to the department head. A grade appeal must be initiated in writing with the department head (or dean if the department head is the instructor) within six months of the last day of the semester in which the grade was awarded. The department head will examine the student’s appeal to determine whether the student has established an apparent case of unfair academic evaluation as described in section 1. If the student has not established a case that appears to have merit, the department head will so inform the student and the instructor without delay.
4. If the case has merit, the department head will secure, from all parties, written statements and other such information as he or she deems helpful and will issue his or her findings and remedies, if any. In so doing, the department head will be guided by the principle the burden of proof lies with the student.

For additional information regarding the appeal of a final grade above that of the department head, please consult the latest version of the graduate catalog or contact the Head of the Department, Curriculum and Instruction, at 903-886-5537.

Academic Integrity/Honest Statement

This course demands a high level of scholarly behavior and academic honesty on the part of students. Examples of academic dishonesty include but are not limited to: (1) turning in work as original that was used in whole or part for another course and/or instructor without obtaining permission from this instructor in advance; (2) turning in another person's work, in part or in whole, as your own; (3) copying from professional works without citing them; and (4) any form of cheating on exams. Violations of academic integrity/honesty while carrying out academic assignments may, at the discretion of the instructor, receive a zero on the particular work in question, receive an "F" in the course, or brought before a higher level of governance for possible dismissal from the university.
