COURSE REQUIREMENTS

Instructional Methods/Activities/Assessments

This course will provide a variety of activities and assessments to assist you in achieving the outcomes/objectives for the course. Each week, you will work toward achieving these outcomes through discussions/comments, readings, and assignments. Below is an explanation of each course requirement including due date, assignment instructions, and other requirements.

Please note that a core competency of this course is critical thinking. Critical thinking requires students to think through situations, facts, and issues in an open-minded and objective way in an effort to analyze and evaluate information in an informed manner. Qualities of a critical thinker (and of arguments that embody critical thinking) include:

- Certainty is not always necessary for a critical thinker; possibility and probability should always be a consideration—in other words, just because the book tells you it is true, doesn’t mean that there may not be another solution or possibility to consider. The way that facts relate to one another—and not just fact alone—should be used to determine truth.

- Critical thinkers are not only independent thinkers; they are also fair-minded in that they are willing to consider all points of view, and they are careful to take every aspect of an argument into consideration—your way of thinking may not necessarily be the only way or the right way of thinking. Consider other perspectives
Consider evidence (facts), source (from what source did your evidence come from), and motivations (what might be the underlying motivation behind these facts)—in other words, gather information from credible sources and evaluation these sources/factual information in the context of what you have been asked to discuss/evaluate.

As defined by the National Council for Excellence in Critical Thinking, critical thinking is:

“The intellectually disciplined process of actively and skillfully conceptualizing, applying, analyzing, synthesizing, and/or evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication, as a guide to belief and action. In its exemplary form, it is based on universal intellectual values that transcend subject matter divisions: clarity, accuracy, precision, consistency, relevance, sound evidence, good reasons, depth, breadth, and fairness.”

(Scriven, M. & Paul, R., presented at the 8th Annual International Conference on Critical Thinking and Education Reform, Summer 1987.)

When preparing discussions/comments/assignments/papers/presentations, use the following to help you critically think through task. You will be graded (in part) on how well you are able to perform this skill.

- **Determine the problem/issue you are trying to address or solve. Make sure you remain open-minded and objective and be aware of your own biases on the subject and put them aside;**

- **Develop a hypothesis and/or possible solution to the problem/issue. Brainstorm other possible solutions. Think about the pros and cons of the problem/issue;**

- **Gather information on the problem/issue that may support or contradict your position;**

- **Analyze your facts. Don’t assume anything. Evaluate the facts objectively;**

- **Determine a reasonable conclusion based on all of the facts; and**

- **Make sure your facts (and the reporting of the facts) are accurate. You may assume a causal relationship but there might be other possible conclusions to be drawn based on other factors. Be sure to evaluate what those might be.**
I. WEEKLY DISCUSSION (for each week, it starts on Monday & your work on it due by Saturday)

1. **Discussion Posts:** *(5 discussion posts @ 100 points each = 500 course points)*

   The Discussions are directly related to the assigned readings. Upon completion of the assigned readings, you are expected to engage in an ongoing discussion/debate with your classmates. Your contributions to the discussion forums will be graded for quality and a detailed analysis linking the material to a critical appraisal of theory, policy, and practice. In all cases, students must cite in-text and provide a full bibliography/works cited at the end of their post for all citations mentioned in the post.

   These posts should be of a reasonable length. The specific discussion assignment is located in each unit Week by clicking on the Discussion link. Posts are due by 11:59PM CST on Saturday in each week of the course.

   This assignment has been designed to meet Student Learning Objective:
   **Students will be active and engaged participants in discussions by analyzing information presented within the readings.**

   It is expected that students will thoughtfully reflect on the discussion that ensues, and reply back to comments posted by other students. Here are some ground rules for our discussion boards:

   a) There are no minimums or maximums on how much or how little you post on the discussion boards. The goal is to achieve quantity & quality. I am striving for us to have a **genuine conversation** on the boards this semester. You will not achieve full points by just logging on in the last hour of the last day and posting a couple of random comments on others' posts. Ideally, you’ll post something, check back in a few hours and check-in again over the course of several days to interact, reply, respond and comment on what others have said on a single thread.

   b) This discussion will take place within a set timeframe. **Discussion boards cannot be made up. If you miss out, there is no way to makeup these points.**

   c) Students should feel free to honestly post and defend their opinions, but should be tolerant of other students who express views that are contrary to their own. Discussion boards are places where **dialogue** occurs. They are not a debate that is to be “won” or places where “conversion” takes place. Feel free to explore differences in view points, but do not allow these conflicts to escalate into personal attacks. **Please do not** play devil’s advocate or
pretend to take a stance that is not genuine or authentically held.

**Assessment Method:** Discussion posts will be graded using the following Discussion Post Grading Rubric:

**Assignment Instructions:** Student follows the assignment directions ___/20

**Critical Thinking Skills:** Student employs critical thinking skills ___/25

**Analysis, APA format:** Student fully evaluates the issue/situation discussing a topic and uses proper APA citation ___/50

2. **Comment Posts:** (5 comments per week @ 10 points each = 250 course points total for the 5 week term)

Comment posts are responses you make to the discussion posts that you and your classmates post each week.

**Assessment Method:** Comments will be graded using the following Discussion Post Grading Rubric:

Comment posts should be meaningful. Merely agreeing or disagreeing with a classmate will not be looked upon favorably and will result in a loss of points. A meaningful post is one that moves the discussion forward in some substantive way through providing one’s perspective, additional information through research, or reframing the discussion in some new way. You are expected to engage in an ongoing discussion/debate with your classmates. Your comments will be graded for quality, and relevance. Your comments will also be graded based on your ability to engage in critical thinking.

II. ASSIGNMENTS (for each week, your work on one starts on Monday & due by Saturday)

**Week 1:** 10 Slide PowerPoint Presentation (1 presentation @ 100 points = 100 course points)

*Use the provided map that illustrates various terrorist attacks against the United States over the last 30 years. Review the details on each attack, which shows the location of the event and its death toll. Then, use library and internet resources to find information about the terrorists responsible for the attacks on September 11th.*

**Link to Map**

*a. Research to discover how some of the attacks are linked, e.g. how some attacks listed on the map were likely committed by the same organization.*
b. From your research, determine the goals and objectives of the organization(s), as they relate to their activities.

c. From your research, identify why the area/location was targeted and the event took place.

Compile your findings in a P10 slide PowerPoint Presentation, discussing the events and the terrorists involved. The presentation should include a references used slide at the end. This assignment is due by 11:59 PM CST on Saturday of Week #1 of the course. Submit this presentation in the appropriate assignment ‘dropbox’.

Assistance with powerpoint presentations can be located at the following web address: http://owl.english.purdue.edu/owl/resource/686/1

The purpose of a position paper is for you to state your own position or view you state or generate support on an issue. It describes a position on an issue and the rationale for that position. The position paper is based on facts that provide a solid foundation for your argument. In the position paper you should:

• Use evidence to support your position, such as statistical evidence or dates and events.

• Validate your position with authoritative references or primary source quotations.

• Examine the strengths/potentials and weaknesses of your position.

• Evaluate possible solutions and suggest courses of action.

Choose an issue based on critical thinking and reasoning and facts. You may choose an issue on which you have already formed an opinion. However, in writing about this issue you must examine your opinion of the issue
critically. Prior to writing your position paper, define and limit your issue carefully.

Consider feasibility, cost-effectiveness and political/social climate when evaluating possible solutions and courses of action. This paper should be a minimum of 4 pages in length (does not include references), maximum 12-point font, 1-inch margins, include your name, and utilize proper APA citation format. COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures:

Academic Honesty

Students who violate University rules on scholastic dishonesty are subject to disciplinary penalties, including (but not limited to) receiving a failing grade on the assignment, the possibility of failure in the course and dismissal from the University. Since dishonesty harms the individual, all students, and the integrity of the University, policies on scholastic dishonesty will be strictly enforced. In ALL instances, incidents of academic dishonesty will be reported to the Department Head. Please be aware that academic dishonesty includes (but is not limited to) cheating, plagiarism, and collusion.

Cheating is defined as:

- Copying another’s test of assignment
- Communication with another during an exam or assignment (i.e. written, oral or otherwise)
- Giving or seeking aid from another when not permitted by the instructor
- Possessing or using unauthorized materials during the test
- Buying, using, stealing, transporting, or soliciting a test, draft of a test, or answer key
**Plagiarism** is defined as:

- Using someone else's work in your assignment without appropriate acknowledgement
- Making slight variations in the language and then failing to give credit to the source

**Collusion** is defined as:

- Collaborating with another, without authorization, when preparing an assignment

If you have any questions regarding academic dishonesty, ask. Otherwise, I will assume that you have full knowledge of the academic dishonesty policy and agree to the conditions as set forth in this syllabus.

Students should also reference the following link for more detailed information. [http://web.tamu-commerce.edu/academics/colleges/artsSciences/departments/sociologyCriminalJustice/frequentlyAskedQuestions/academicHonesty/default.aspx](http://web.tamu-commerce.edu/academics/colleges/artsSciences/departments/sociologyCriminalJustice/frequentlyAskedQuestions/academicHonesty/default.aspx)

**Attendance Policy:**

While this is an online course, students are expected to ‘attend class’ and actively participate in work every week. Student participation/activity will be monitored by the professor. Students should plan to dedicate approximately 15-20 hours/week of time to this course, of which approximately 1 hour/week should be spent in the discussion board (reading posts and comments and conversing with others).

**APA Citation Format Policy:**

It is very important that you learn how to cite properly. In some ways, citations are more important than the actual text of your paper/assignment. Therefore, you should take this task seriously and devote some time to understanding how to cite properly. If you take the time to understand this process up front, it will save you a significant amount of time in the long run (not to mention significant deductions in points).

In the social and behavioral sciences (including Criminal Justice), we use APA (American Psychological Association) format. As a rule of thumb, one cites whenever they are paraphrasing other people’s words or when they quote other’s words directly. You may learn to cite from a variety of different sources including the APA Tutorial and the sources listed below and in the Getting Started section of your course.
It is the student’s responsibility to understand how to cite properly. If you have questions, feel free to ask.

**Late Work:**

In principle, I do not accept late work and do not believe in allowing students to turn in work after the due date. My position is that everyone knows the rules of engagement at the beginning of the term and that it is the student’s responsibility to ensure that they plan accordingly to submit their assignments in a timely manner. However, I also do understand that sometimes there are circumstances outside one’s control that may impact timely submission of assignments. To that end, I have developed a policy on late work. Please note that this policy applies ONLY to your assignments and not to final exam and discussion or comment submissions.

Late assignments will be accepted after the due date and time up to 1 day (24 hours) late. **Twenty (20) points will be deducted from all late assignments.**

**Drop Course Policy:**

Students should take responsibility for dropping themselves from the course according to University policy should this become necessary.

**University Specific Procedures**

**ADA Statement**

**Students with Disabilities**

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Info on additional sources will be e-mailed to you.

Work on ASSIGNMENT #1 as stated earlier in the syllabus.

DISCUSSION/COMMENT QUESTION:

Why do hate groups and homegrown terrorists groups pose threats for the United States? Consider the implications of the killing of Osama bin Laden and other recent incidents relevant to terrorism showing how terrorist organizations, large and small, have changed to meet new threats using knowledge, a more interconnected world, and operational capabilities.

Consider how the media portrays acts of terror in news reports. How do the mutually beneficial relationships between the media and these acts reflect current trends in society? In what ways and to what extent can we restrict or deal with news coverage depicting the sensationalization of various groups and events? How may media help instead in preventing terrorism?

Week #3

Chapter 6 from Singh book

Articles:

Info on additional sources will be e-mailed to you.

Assignment:
Short Essay (topic chosen by professor), as outlined earlier in this course syllabus.

Week #4
Reading from textbooks:
Chapter 6 from Borgeson & Valeri book
ASSIGNMENT:

Literature Review as outlined earlier in this course syllabus.

DISCUSSION/COMMENT QUESTION:

It’s no secret that many terrorist groups use religion and elements of politics as a conduit to distribute propaganda and incite fear and uneasiness among the world’s populations. Some of the best examples of this were given in the text, citing terrorist bombers, suicide bombers (also referred to as homicide bombers), and the Japanese Kamikaze pilots of WW2. Should governments in different countries counter such abuses of social institutions such as religion and media to stop their activities in that regard? How can that be done?

WEEK #5

Reading from textbooks:

Read information/materials from both textbooks relevant to topics for the final exam.

ASSIGNMENT:

Final exam assignment as mentioned earlier in the syllabus. You were provided a list of essay topics earlier in this syllabus to prepare for this exam.

DISCUSSION/COMMENT QUESTION:

With the media playing such a wide, varied, and (one would hope) unintentional role in keeping terrorism in the forefront of daily life, both for those affected and for the terrorists, fighting for their cause; consider your position on media censorship from the Week 4 discussion. Where do we go from here? Conventional tactics, such as hostage taking, bombings, and grenades are giving way to more sophisticated techniques, such as weapons of mass destruction, i.e., Nuclear, Chemical, or Biological weapons, dirty bombs, or perhaps someone cultivating a disease such as rabies and spreading it through our rural areas, farms, and communities in the heartland of America. Are we going to be able to stop the violence or should we expect to even be able to slow its progression in order to better control it?

What are the ways can we stop/prevent terrorism to protect our future generations on this planet? Can we or can’t we prevent terrorism? How do you personally feel about it?
