2. Demonstrate understanding of all word identification skills useful in decoding unknown words.
3. Demonstrate teaching activities that support the study of word identification skills within the framework of the developmental spelling stages.

4. Identify the stages of spelling development and explain various activities for fostering a child's progress through these stages.
5. Assess a child's orthographic stage.

ENGLISH LANGUAGE ARTS AND READING GENERALIST EC–6 STANDARDS

Standard II. Phonological and Phonemic Awareness: Teachers of young students understand the components of phonological and phonemic awareness and utilize a variety of approaches to help young students develop this awareness and its relationship to written language.

Standard III. Alphabetic Principle: Teachers of young students understand the importance of the alphabetic principle to reading English, know the elements of the alphabetic principle, and provide instruction that helps students understand that printed words consist of graphic representations that relate to the sounds of spoken language in conventional and intentional ways.

Standard V. Word Analysis and Decoding: Teachers understand the importance of word analysis and decoding to reading and provide many opportunities for students to improve word analysis and decoding abilities.

Standard IX. Writing Conventions: Teachers understand conventions of writing in English and provide instruction that helps students develop proficiency in applying writing conventions.

Rdg 360 course content is aligned with the Texas Essential Knowledge and Skills for Language Arts and Reading for grades K – 6. The specific TEKS headings are:

READING/ Beginning Reading Skills/ Print Awareness/ Phonological Awareness/ Phonics/ Vocabulary Development

ORAL AND WRITTEN CONVENTIONS/ Conventions/ Handwriting, Capitalization, and Punctuation/ Spelling

The critical components of THE STANDARDS that can be measured with an examination are known as the TExES COMPETENCIES. While Competencies 001 Oral Language, 004 Literacy Development and Practice, 008 Writing Conventions, and 012 Assessment of Developing Literacy will be studied during this course the competencies that are aligned specifically and primarily with this course and the related Texas Essential Knowledge and Skills are:

Competency 002: (Phonological and Phonemic Awareness). The teacher understands phonological and phonemic awareness and employs a variety of approaches to help students develop phonological and phonemic awareness.

Competency 003: (Alphabetic Principle). The teacher understands the importance of the alphabetic principle for reading English and provides instruction that helps students understand the relationship between spoken language and printed words.

Competency 005: (Word analysis and identification skills). COURSE REQUIREMENTS

Instructional / Methods / Activities Assessments

Course Overview:

This course is designated as a lecture course by the Curriculum and Instruction Department; however there **will be a variety of presentation methods** to include: modeling instruction, group activities with instructor materials, group activities with student made materials, videos, word sorting activities for guided practice and implementation of course content, and as appropriate lecture type instruction. Student's questions and reflections upon their study are encouraged. The course text was selected because of the strong match between text and course content. It is informative and a very useful resource. The handbook to accompany the course content is a necessary tool and very useful to guide a student's learning. Students are expected to read carefully and study both required texts.

Reference: DOMAIN 111 – Implementing effective, responsive instruction and assessment. Competency 007 – The teacher understands and applies principles and strategies for communicating effectively in varied teaching and learning contexts.

Pedagogy and Professional Responsibilities for teaching English language learning and reading will be evidenced throughout the course. Of particular interest are DOMAIN 1 – Designing Instruction and Assessment to Promote Student Learning: Competency 003 A – Understands the significance of the Texas Essential Knowledge and Skills (TEKS) and of prerequisite knowledge and skills in determining instructional goals and objectives.

Requirements and Activities:

Congratulations for your progress in your education!!! This is an exciting opportunity. You are preparing for an important profession and certain expectations for your continuing success are listed here.

1. You are expected to attend all class meetings and pay attention to the instructor or presenter, participate as appropriate in class discussions and be involved in group activities. Attendance is expected and does not earn extra points. **YOU WILL NOT BE ABLE TO PASS READING 360 WITH MORE THAN 2 ABSENCES. ALL ABSENCES MUST BE MADE UP REGARDLESS OF THE REASON FOR THE ABSENCE.** TAMU-Commerce considers 3 absences (for a biweekly class) to be excessive. The only excused absences are for (a) participation in a required university or school activity; (b) verified illness, (c) legal proceedings in fulfilling responsibility as a citizen (see

Student's Guidebook). Excused absences are only allowed provided the student notifies the instructor prior to the absence. Students are encouraged to contact the instructor by e-mail if possible when absent. Failure to contact the instructor could result in an unexcused absence.

I will not bring additional copies of handouts from previous classes, nor will I provide notes from a previous class. Please notify me if you anticipate an absence. Select a buddy, and exchange telephone numbers and email addresses with him or her. In the event of your buddy's absence, please pick up extra handouts and take notes for that person. .

Name of Buddy	Phone Number	Email Address

It is your responsibility as an adult to make contact with a fellow classmate to review the information that you missed if absent.

University Policy provides for make-up work for excused absences. **All absences must be made up or your absence will impact your grade. Unmade up absences will result in 10% points being deducted from your final grade. The instructor will not remind a student to complete the make-up work.**

Make-up work for this class is a two-page type written review of the purpose of the class, major topics and points brought out during class discussion, how class activities related to the topics, and how the topic relates to your teaching. Notes and handouts are to be obtained from a classmate. Make-up work is due at the beginning of the next class period. The homework assignment must be faxed to instructor on day of absence.

All unexcused absences are counted on the final grade. Make-up work will not be allowed for unexcused absences. Ten percentage points will be deducted from the final grade for each unexcused absence. Two or more unexcused absences may result in an F for the class.

To repeat: All unexcused and unmade up absences will deduct 10% points off the final grade. Late arrival or early departure counts as ½ an unexcused absence. Make up work will not be allowed for unexcused absences.

2. *If you are texting, using a cell phone, e-mailing or engaged in other non-class activities, you will be asked to leave the room and it will count as an unexcused absence.*
3. Read the required text and any other assigned material and complete assigned homework. **Study outside of class is necessary and expected. You are in control of your attitude and desire to learn the skills needed to become a teacher. Often it is a great help to students to form study groups.**
4. Sharing Activities: At the end of each of chapters 4, 5, 6, 7, & 8 are activities for teaching skills needed at each of the developmental stages. Construct **one** of these from assigned chapters. These will be demonstrated and evaluated during class. The activities will not be accepted at any time other than the scheduled due date. Take the information and directions from the text and produce it into a useable form. A Lesson plan will accompany the demonstrated activities to demonstrate your ability to format appropriate grade level and content area TEKS and activities into a useable lesson. The activity and the accompanying lesson plan will be worth a total of 50 points. A second activity is to be chosen from each chapter to be explained to the other students in a group. The second activity does

not require making anything. It gives an opportunity to learn about all of the activities in the text by sharing information.

5. Administer Elementary Spelling Inventory I (page 319) to a child any age from 5 years to 11 years old and bring to class. I would prefer if it were not your own child. You will need to turn in a photo copy of pages 320 and 312 along with the page on which the student's has written the spelling words. You will also write and turn in a short paper describing:

- A little background about the student
- Where and when the inventory was administered
- The student's age or grade level
- What orthographic stage the student is currently in
- What the student knows, or uses, or is secure about
- What the student abuses or confuses
- What the student needs help with
- How you as a teacher will help the student progress to the next stage

In class you will use this to learn how to evaluate a child's developmental stage in spelling. (Reference Chapter 2) **This is assigned to aid your understanding of orthographic stages.**

6. The majority of the work in our modern society is done in groups. Many groups in the educational workplace are self directed work groups of peers. The ability to work in groups is critical. It is the responsibility of every member of the team to participate equally in the discussion just as it is in the workplace. It is the responsibility of the team as a whole to make sure that everyone participates equally, not the role of the instructor. Non participation will result in a zero grade for the group discussion. The nature of this course is very consistent with the increased amount of work done by groups online versus in person.

7. Two on-line classes may be assigned instead of face-to-face classes. You will be notified when the classes will occur, when they will be due, and how to access the material. You will also be instructed on which format to use of the on-line classes. The classes will be available in e-College. On-line classes require the same focus, time and commitment as face-to-face classes. College level writing and higher order thinking must be evident in these assignments.

8. Take the unscheduled quizzes and scheduled exams (3) as scheduled and when scheduled.

Methods of Student Evaluation/Assessment of Student Outcomes/Grading Scale

The grade a student earns from this course is based upon three objective exams plus the 40 points that are assigned to the instructional game activities. Because a student must acquire knowledge of essential skills for teaching word analysis the most appropriate and thus fair (everyone has the same opportunity) means to demonstrate that content knowledge is with objective exams. This method was chosen because of the alignment with the state requirements to achieve certification. All exam questions will be developed from the course content presented in class and/or in the required text. Students who attend and are active learners during class and follow the suggestions for self study of the text, handouts, and class notes outside of class greatly enhance their learning and are successful. The teaching activity points are added in with the exam points and will significantly increase the average of the course grade. Knowledge of the course content is expected by the Texas Education Agency of all pre-K through 6th grade teachers.

Points given for the 5 Teaching Activities (8 points each for a total of 40 points possible) and the three Exams (300 points possible) will be totaled together. At the completion of the course grades will be based upon the percentage achieved of the total 340 points possible. The following are tentative grading procedures.

Possible Points	Student's Points	Add the total of points that you have received throughout the semester and divide that number by the total of the points possible at that time and you will have your average.
Act Ch 4	20	
Exam I	100	
Act Ch 5&6	20	A=90-100%. B=80-89.5%. C=70-79.5%.
