### ***Materials – Textbooks, Readings, Supplementary Readings***

#### ***Textbook:***

*Stephen B. Klein (2014), Learning: Principles and Applications 7th edition ISBN: 978-1-452-27194-1*

Or

*Stephen B. Klein (2018), Learning: Principles and Applications 8th edition ISBN: 978-1544323664*

**Software Required:** None

### **Course Description**

The aim of this course is to provide a general understanding of the basic principles and theories of learning.

**Student Learning Outcomes** (Should be measurable; observable)

1. Students will be able to identify the various learning theories in psychology.
2. Students will be able to identify classic studies of learning and what they tell us about how the human mind works.
3. Students will be able to make predictions about learning performance based on the principles reviewed in the course (i.e., they will be able to apply the course content to novel situations).

## **COURSE REQUIREMENTS**

### **Minimal Technical Skills Needed**

None.

### **Instructional Methods**

This course is primarily a lecture course but will include in-class discussion and small group activities.

### **Student Responsibilities or Tips for Success in the Course**

Read for class. **Attend lecture!** Anything in the book can appear on an exam, but not everything in the book will be covered in lecture. Likewise, you should attend lecture. We will cover information in lecture that is not included in the text and this information can also appear on the exams. Check you LeoMail EVERY DAY. Important class announcements will be made via email. **Ask questions!**

## **GRADING**

Final grades in this course will be based on the following scale:

A = 90%-100%

B = 80%-89%

C = 70%-79%

D = 60%-69%

F = 59% or Below

*The syllabus/schedule are subject to change.*

## **Assessments**

**Exams.** Four exams plus one cumulative final exam are scheduled. These exams will determine your grade. Exams will cover readings and lectures. You must bring a pencil and green scantron with you to each exam. Students must be on time and stay in the room during the exam. Students who miss an exam for any reason will receive a zero grade. **Make-ups will not be allowed.**

Your final grade will be either the average of your highest 4 out of 5 exams (including the cumulative final) or simply your cumulative final grade (whichever is higher).

## **Research Participation**

A goal of this class is to help you familiarize yourself with research methods. One way to obtain this goal is to have you participate in research studies or read about research.

Participating in research studies contributes to students and faculty at A&M - Commerce, your understanding of how research is conducted, and human knowledge in general. Students may earn an additional 2 points on their final grade by completing up to 4 research credits via the psychology department's participant pool or summarizing research articles relevant to the course (see eCollege for more information). Students may combine research participation and research papers to earn extra credit, but no more than 2 points will be awarded. Each credit hour is worth .5 points.
