Course: This is a survey course designed to provide you with a synthetic overview of the major people and ideas that have shaped psychology. In short, this course will be a whirlwind tour of the key events in the history of psychology from Adam up through about the 1990s.

“The fewer the words the better the prayer” Martin Luther

“The great use of life is to spend it for something that outlasts it” William James

The Basics: Do the reading. If you do I promise you will find this class both educational and easy, if you don’t--well--it may not be pretty. Let me be blunt, if you do not do the readings you almost certainly will fail this course. Also, keep in mind that a syllabus sometimes shifts a little as the course unfolds - at some point we’ll get behind (or maybe ahead). I say that by way of noting the importance of class attendance, as you will be held responsible for any change in plans announced in class. The other basic admonition every syllabus must include is that cheating (broadly defined) is not allowed. Or, as the university likes me to say: “All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. (See Student’s Guide Handbook, Policies and Procedures, Conduct).” If you have any questions about what constitutes cheating please see me. Also, note that “Students requesting accommodations for disabilities must go through the Academic Support Committee. For more information, please contact the Director of Disability Resources & Services.” Last… Be advised that only qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are permitted to do so. Pursuant to Penal Code (PC) 46.035 and A&M-Commerce Rule 34.06.02.R1, even license holders may not carry a concealed handgun in restricted locations.

“When in doubt, tell the truth” Mark Twain

Format: In general this will be a lecture course, though I (seriously) encourage you to interrupt me with your thought-provoking questions at any time. Since this is an upper-division class I would be happy to see it materialize somewhat like a seminar, that is, with people jumping in with comments frequently.

“Never interrupt your enemy while he is making a mistake” Napoleon

Grades: There will be three in-class tests and three short (10 page-ish) papers. The tests will be worth 50 total points and will be composed of roughly half multiple choice questions (mostly from the reading) and essay questions (equaling the other half of the points, and being drawn mostly from the lecture).

Final grades will be based on your 5 best scores from these 6 assignments, plus any extra-
credit you may do. The grade scale is shown below. As for extra-credit, while I am a believer in the idea I am not certain what options we will have this term. Traditionally students participate in research studies to earn extra-credit. If not many such studies are available we can no doubt make alternative arrangements like writing extra papers. Those interested in extra-credit should speak with me before doing something to ensure that it will count.

The Grade Scale will be:

- **A=** 230 and above (~92%)
- **B=** 210 to 229 (~84%)
- **C=** 190 to 209 (~76%)
- **D=** 170 to 189 (~68%)

**Papers:**

**Paper 1 Topics** - pick one of these three

- Read one the Plato's Socratic dialogues. Extend that work after a new sophist who holds a position common to a modern psychologist, and who joins the conversation.
- Read Marcus Aurelius' *Meditations*; write an essay on how it relates to one or more aspects of modern clinical or social psychology.
- Find an academic work from anthropology or archaeology about the Neolithic Age that gives you some insights about the social psychology of Stone Age peoples.

**Paper 2 Topics** - pick one of these three

- Read Darwin's *Expression of the Emotions in Man and Animals*, write an essay on its importance for the history of animal or evolutionary psychology.
- Read James' *Varieties of Religious Experience*, write an essay on the relationship between its psychology and religion relevant for today.
- Read Skinner’s *Walden Two*, write a speculative fiction story on what the world would be like if Skinner were the World Overlord.

**Paper 3 Topics** - pick one of these three

- Read either Freud’s *Civilization and Its Discontents* or his *Psychopathology of Everyday Life*. In your report discuss how Freud actually differs from what you expected.
- Read Frankl’s *Man’s Search for Meaning*. In your report discuss the relevance of existentialism for psychology in 2018.
- Read Gould’s *Mismeasure of Man*. In your report discuss how intelligence testing should be used in the public schools.

“You cannot teach a man anything: You can only help him find it within himself” Galileo

**Late Penalties and Make-ups:** Papers turned in late will be charged 5 points per day as a late penalty. The first missed exam will become your drop grade. If you miss more than one exam, you will need to see me about what to do for a make-up.
