COURSE REQUIREMENTS

Instructional Methods

Design of the Class:

This is an online class. All of the instruction and assignments will be delivered using the MyLeo Online learning media platform and thus, some obvious technological resources will be required.

This web-based course relies heavily on written responses, interaction, and discussion. It is problem-based and inquiry oriented. Learning in this course will take place as a result of online discussion boards, lectures/power-point presentations, readings and concentrated study, and participation in intensive group learning exercises in online venues.

Assignments include a series of written responses to readings and online discussions. The readings cannot be neglected. It is important that you set aside time to read and digest the readings before you write or participate in discussion boards.

A wide variety of instructional methods will be used to provide students with meaningful learning experiences. Some of these will include focused discussions, written reflections, problem-solving activities, case studies, independent research, and the direct teaching model.

The syllabus/schedule are subject to change.

As a student enrolled at Texas A&M University-Commerce, you have access to an email account via myLeo - all my emails sent from MyLeo Online (and all other university emails) will go to this account, so please be sure to check it regularly, daily. Conversely, you are to email me via the MyLeo Online email system or your myLeo email as our spam filters will catch yahoo, hotmail, etc. and I will not check for your email in spam.

When sending me an email please be sure that you have the included your name and Course Number (EDAD 615) in the subject line.

This class design is based on constructivist learning principles. This means that the instructor creates an environment for learning by providing focus and guidance to the content. Assignments are designed to be learning experiences for students, and it is presumed and expected that students actively participate in the class through the construction of their own learning. As a graduate level course, the instructor expects quality work from each student supported by adequate preparation and involvement.

Class Participation:

Given the constructivist design of the class, this course will be interactive. It is my expectation that all students participate fully for all activities and assignments in order to maximize their learning experiences. Each class may consist of several learning activities including (but not limited to) group discussion, student-led learning activities, reflection activities, individual learning activities, written papers, and reflective, integrative examinations. In order for this class to be interesting and beneficial, each student is expected to be prepared to lead and/or enter into discussions, to ask relevant questions, and to share the results of their study and reflection.

This means that each student should be:

- conscious of the class schedule and the requirements for each class,
- self-disciplined,
- eager to share with your classmates. Participation is an extremely important part of your experience in this class. When you miss participating in a class assignment, not only do you miss information presented, but you miss the interaction of your classmates, which can lead to the loss of key learning experiences.

ASSIGNMENTS AND GRADING:

Completion of assignments

Each student is expected to work individually and/or with a group at the direction of the instructor to complete the assignments of the course. It is expected that all course work will be submitted by the posted deadline. Assignments will not be accepted via email to the professor and work submitted to the wrong dropbox will not be accepted. Please be mindful of your submission deadlines.

Internet Outages.

In the instances when you experience internet outages and you are requesting an extension, documentation of the outage will need to be provided. Please contact your internet provider for

the documentation. If you are in an area that is prone to frequent internet outages, I strongly urge you to seek alternate methods of accessing MyLeo Online. MyLeo Online can be accessed on your smart phones. Additionally, there are numerous places where internet access is Free:

1. McDonalds
2. Starbucks
3. Public Library
4. Dairy Queen
5. Barnes and Nobles
6. TAMUC Campus

Please have a back-up plan for internet outages.

Text Reading Assignments:

The weekly assigned readings from the texts serve to provide you with strong theoretical contexts for your explorations into public education administration. The readings along with the threaded discussions allow for you and your classmates to extend your learning opportunities by seeing the concepts in the books through multiple perspectives.

Threaded Text Discussions—SLOs# 1-6 (15% of your grade):

You will be provided with a weekly discussion prompt. The discussion forums are the place where we share ideas and observations. You are expected to engage in an ongoing discussion/debate with your learning community peers throughout the week. Your contributions to the discussion forums will be graded for *quality not quantity*, timeliness of your contributions, and a detailed analysis of linking together theory (readings) to application (activities). You will be required to post your response first before you can see and respond to your peers' posts. You are required to post a minimum of TWO responses per week. Posts should be throughout the week. BOTH posts should not occur on the same day. Posting all responses on the same day will result in a 50% credit for the week.

Your initial post and subsequent responses to your peers' posts should be supported by the readings and other instructional materials assigned during the week. Remember, you must use APA formatting when posting (All posts). Please refer to your APA Manual. Citation of your sources is required for ALL posts. Please do not attach documents in the discussion board.

Grading Criteria:

- The discussants will demonstrate an observable understanding of the content being discussed.
- The understanding will be at the critical thinking and synthesis level.
- The discussants will demonstrate an ability to engage the audience in a
- Discussion that is relevant to the content of the topics and related concepts.
- This can be done in a variety of ways including, but not limited to:
 - posing engaging questions;
 - eliciting responses;
 - engaging the learners in an activity or task.

The syllabus/schedule are subject to change.

The discussants will demonstrate the ability to effectively organize the discussion. This includes:

- o keeping the discussion focused on the topic;
- o providing structure (beginning arguments, closing arguments, wrap-up or synthesis);
- o staying within the timeframe allotted for discussion;
- o using effective media (if applicable).

The discussants will demonstrate the ability to respond to questions effectively. The discussants will demonstrate the ability to relate the concepts discussed in the articles to personal and professional experience by using examples from everyday practices.

Weekly Reflection Papers –SLOs #1-6 (18% of your grade)

Reflection assignments are required weekly. You will be asked to reflect on the readings, videos and article assigned for each module. You will identify the Principal Standard and TExES Competency that is most aligned to the content presented for each respective module. You will then justify your selection. For example, if you believe that the content presented this week is most aligned to Principal Standard 2 and TExES Competency Five, share your rationale. Your rationale must include specifics from the instructional materials reviewed for this week. In the reflection, your beliefs, experiences, recommendations or implications for current or future practice should be included.

- For example--What does this practice mean to you as a current or aspiring administrator?
- How does this information assist you in doing a better job or being a better administrator?
- How would this information help your current administration in terms of their practices and implementation of policies and protocols?
- Were there two or three concepts that stood out to you-or scream to you that the framers of the policies were on the right track or completely wrong.

Critical Assessment—SLO #1 (30% of your grade)

Review Case Study:

*Congratulations, you are the new Principal of the school described in the assigned case study (Case study will be provided to you by the Instructor). You are being asked to **create a plan of action** for how you will shape the campus culture of the school presented in the case study. This plan should inclusive of the strategies that you will use to demonstrate how you as the Principal will facilitate the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community.*

**LEADERSHIP PAPER
(20% of Grade)
NO LATE SUBMISSIONS**

This paper will be based on your reflections about new insights gained about School Leadership in Texas. To help you organize your paper and provide some structure to your reflection, your paper should have the following sections:

1. Title page
2. Body
 - a. Introduction-*What does it mean to be a School Leader in Texas*. Your first paragraph **MUST** include a brief summary of the demographics of students in the state of Texas. This data can be obtained from the TEA website—the data must be recent. This data should be written in summary form and not presented in a chart. Remember to provide the correct APA citations. It’s important to remember that Texas is a very DIVERSE state.
 - b. Provide an in depth narrative of how your thoughts on the role of the principal have changed from the “you” as teacher to “you” as the Texas school leader. This

The syllabus/schedule are subject to change.

should be viewed via the lens of the Principal Competencies and Standards—remembering all that you will do as a school leader should be guided by the Principal Competencies and Standards. Your narrative should be supported (via citations) by the instructional materials you have been presented thus far in this course.

- c. Identify at least one "thought leader" (ie, Pedro Noguero, Linda Darling-Hammond, Geoffrey Canada, Michael Fullan, a chapter author from the Vornberg & Hickey text etc) that you have been introduced to thus far in this course that has caused you to "reflect" on leadership; changed your thinking about leadership; changed your thinking about students or schools; made you have an AHA moment- identify the "thought leader" and exactly what the "thought leader" said or DID and your response. Provide a detailed description of the impact the "thought leader" had on you--- be specific in describing how you believe this will impact your practice as a leader moving forward.
3. Conclude your paper with your expectations for this program in preparing you for the Principalship in Texas as well as your expectations for yourself as a novice Principal in Texas. (This section should be no more than a paragraph—no more than 1/3 of a page).
4. Reference page

This paper should have a minimum of 5 pages and a maximum of 7 pages in length (not including the title or reference pages). Papers should be double spaced, size 12 font (New Times Roman or Ariel), and follow the format for papers as specified by the APA Publication Manual. It should also be free of technical errors (spelling, punctuation, proper use of grammar, etc.). While your paper is reflective in perspective—which means you can use “I”—it should otherwise be scholarly in tone and presentation.

Since your paper is reflective in content, you don't have to worry about providing me with the “right answer” or giving me what you think I want you to say. This paper is designed to provide you with the opportunity to solidify your thinking on the main ideas of the course, which in many ways will provide an important foundation for courses yet to come. However, your paper will be graded with several things in mind, including the quality and depth of your response. We have covered a great deal of material in this course, and I am looking for your ability to analyze, synthesize, integrate, and discuss cogently what you have learned. (*NOTE: The appropriate use of quotes and references will greatly enhance the quality of your paper.*)

TEXES (068) Principal Representative Test (17% of your grade)

The TEXES (068) “Representative” or practice test is designed to provide practice for those who desire to take the TEXES (068) Principal Certification Test at program conclusion. However, in this course you will take the “Representative” Test during this, your first semester of study. You might ask why? Students taking this “Representative” or practice test during the first semester of study will benefit from having an awareness of their Texas principalship strengths and areas needing improvement from the very

The syllabus/schedule are subject to change.

beginning of the program. The principal preparation coursework and the Texas principal certification test are built upon the Texas principal domains and competencies; that is, the skills and competencies required to become a successful beginning principal in Texas public schools. Why is this information important to have? The information obtained may increase the likelihood of greater student' success on the post program Texas certification test and the program will benefit from knowledge as to its level of success with its curriculum and instruction.

Students may contact the TAMUC Testing Center with questions regarding TExES (068) Principal "Representative" Test information and scheduling by contacting the Testing Center, Student Access and Success Center / One Stop Shop, 2200 Campbell St., Commerce, Texas 75428, Phone (903) 886-5122. The Director of Academic Testing can be reached at (903) 886-5140 and the Testing Coordinator at (903) 468-6021. Keep in mind that you can schedule and take the test at most Texas public or private institutions of higher education or even some community colleges.

The following procedures should be followed:

1. Contact an institution and inform them that you are a student enrolled at TAMUC within the master's program in educational administration and desire to take the TExES (068) Principal "Resource" Test as part of a course requirement.
2. Ask the institution if they would allow you to take the TExES (068) Principal "Representative" Test and that if you would personally receive the results which include the overall test and competency scores. If the institution that you contacted will not allow you to take the TExES (068) "Representative" Test due to institutional policy, continue contacting institutions until you find one who meets the expectations above.
3. When you receive your overall test and competency scores, you can scan the score report and place it into the proper drop box of your EDAD 615 course. The drop box is associated with Module 1.

Note: Test results will be used to allow and insure that your course instructor has the necessary information to council students as to their principalship competency and skills that they now possess and that the student knows his/her strengths and areas for needed improvement at the very beginning of the program allowing for an anticipated increase in learning and higher scores on the TExES (068) Principal Certifying Test.

Individual test results are always confidential and will never influence student course grades

IF YOU HAVE AN QUESTIONS REGARDING THE TESTING REQUIREMENT OR RUN INTO ANY ISSUES, CONTACT DR. WARREN ORTLOFF, EDAD 615 LEAD PROFESSOR AT (469) 734-9341 or Warren.Ortloff@tamuc.edu

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.
