Course Description

This course provides a foundation for understanding how institutions of higher education in America function. Students will learn about various institutional-internal and external environments and systems that comprise the American higher education system. Students will be continuously asked to analyze how examined environments and systems influence changes in the higher education system, an institution of his/her interest, as well as one's chosen career.

Student Learning Outcomes Upon completion of this course, the student will be able to:

- Describe the evolution and trends of the higher education system in the U.S. based on knowledge of major history, reforms, and changes.
- Explain strengths, critiques, and demands regarding universities and colleges in the American higher education system.

Discuss roles and needs of core stakeholders of the higher education system in the U.S.: students, faculty, institutional leaders, governing board, policy makers, and the public. Describe major trends associated with curriculum development, graduate education, role of research, and the treatment of academic freedom in the U.S. higher education system. Describe and explain the role and influence of the federal and the state government.

- Describe how higher education systems are influenced by legal and financial environments and systems.
- Explain how institutional stratification and diversity has been driving changes and expansion.
- Review past and present teaching and learning practices and plan for leveraging technologies and best practices.
- Articulate what colleges must offer in view of changing environments, expectations, and critiques.

COURSE REQUIREMENTS

Minimal Technical Skills Needed

Using the learning management system: D 2 L system, using Microsoft Word and PowerPoint, using presentation and graphics programs, etc.

Instructional Methods

The learning process will be conducted via bi-weekly modules with course contents, PPT lectures, course discussions, assignments and assignment feedback, and peer review works. Additionally, one on one faculty-student meeting is available when required.

Student Responsibilities or Tips for Success in the Course

- Log into the course website regularly (preferably every other day).
- Expected amount of weekly study and participation time is 12 to 15 hours per week.
- Be prepared to be an active learner and participant for the class.
- Feel free to contact the instructor when you need help.
- Please submit all assignments on time. Late assignments are not accepted.
- Assignments that you complete for this course should not have been used in other courses.

Writing Requirements

All papers are to follow APA format guidelines. Begin papers with an APA title page. Font is to be 12 point, New Times Roman, double-spaced. Normal margins: one inch left, right, top, and bottom. Written assignments will be graded according to the following criteria:

- Completeness of response to the assignment
- Organization and coherence
- Appropriate grammar, punctuation, spelling
- Use of disciplinary format and citation style: Paper displays correct use of

The syllabus/schedule are subject to change.

student's disciplinary format and citation style (APA, 6th Edition).

This is a fully online course. Assignments will be delivered via the eCollege learning media platform. Knowledge of the substantive material covered in the course is of central importance. Grading will include consideration of content as well as grammar, spelling, organization, and explicit use of readings.

A serious commitment to mastery of the content and contribution to the learning is expected. An online course inherently requires students to be active, reflective, and contributive learners. Assigned readings as noted within the module overviews as well as extensive outside reading in applicable literature. This reading will serve as a basis for online discussion. Late submissions, one week past the due date **WILL NOT** be accepted, and each day late will incur 10% score deduction. I do understand that sometimes there are circumstances outside one's control that may impact timely submission of assignments, such as jury duty, hospitalization, or death of a family member. In these instances, a student is expected to notify the instructor before the assignment deadline.

GRADING

Final grades in this course will be based on the following scale:

Grading Rubric: A: 150 – 141 B: 140 – 131 C: 130 – 121 D: 120-111 F: 110 and below

Assessments

****Assignments that you complete for this course should not have been used in other courses.**

Late assignment is not accepted. However, if you have a reasonable issue on the late submission, your late module assignments will lose one letter grade (10%) per day late. The measurement of days ends at 11:59pm the following day of class. A new day begins at Midnight (12 am) and continues to 11:59 pm. Late assignments may be turned in via email.

Discussion Boards (7 at 10 points each = 70 points total):

Each discussion board contains discussion thread topics pertaining to a specific chapter (or chapters) in the textbook. Each discussion thread topic will require a "post" and at least two reply to fellow classmate's posts.

Initial Post (80%): Student provides thoughtful and thorough response to each topic for discussion. Students will need to complete an initial "post" to each discussion board thread at least four days before the module end date. Review "post" content for correct grammar and spelling.

Replies (20%): Student provides constructive comments to a fellow at least two classmate's post. Reply content must relate to discussion topic. Review "reply" content for correct

grammar and spelling. It is suggested that each reply consist of a minimum of four to five complete sentences.

Sharing Bio (5 points): During the first week, students will share their higher education experiences and/or interests. The instructor and class members will and can use this information for more meaningful interactions.

Course Reflection (5 points): During the last module, students will share his/her personal reflection about course experiences and make suggestions for the instructor and to the future students.

Professional Association Scavenger Hunt (20 points): During the first module, students will examine professional associations for various higher education careers. Knowledge and experiences through professional associations are important part of learning and development for graduate students.

Article Critique – Master’s Student ONLY (50 points):

Article critique assignments allow students to further develop their analysis and synthesis skills, and scholarly writing talents, by selecting journal articles and relating them to the course content. HIED students must evaluate scholarly literature and use a variety of research techniques to establish a strong working knowledge of their discipline. Completing these critiques requires students to summarize and evaluate scholarly articles, and identify possible applications to the American Psychological Association (APA) 6th edition formatting is required for all writing assignments.

Research Paper – Doctoral Students ONLY (50 points):

The major paper/project for the class is a research paper that will be a synthesis and application of a selected topic among course modules. You will have two options to choose:

- Option 1 - Interview research paper
- Option 2 - Literature review research paper

More details may be found in the D2L course.

American Psychological Association (APA) 6th edition formatting is required for all writing assignments.

Grading	<i>* Scoring scheme is subject to change</i>
Class Discussion	7 x 10 points = 70
Sharing Bio & Course Reflection	5 points & 5 points = 10
Professional Association Scavenger Hunt	20 points
Article Critique	50 points (Masters students only)
Research Paper	50 points (Doctoral students only)
Total	150 points

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.

Microsoft Word is the standard word processing software, Microsoft Excel is the standard spreadsheet software, and Microsoft PowerPoint is the standard presentation software. Copying and pasting, along with attaching/uploading documents for assignment submission, will also be required. If you do not have Microsoft Office, you can check with the bookstore to see if they have any student copies.

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

Interaction with Instructor Statement

Please periodically review (1) updated announcements within the HIED 695 eCollege course homepage for updated information pertaining to this course and (2) your MyLeo email account in case I need to send you a confidential message. Although I will reply to emails from non- university email accounts, I will only send original messages to MyLeo email accounts. Thank you for understanding my request, as I have no control over firewalls from your home or work.

Participation & Communication: I expect each of you to be active and thoughtful participants within the learning environment and your learning community. You are to expect the same of me. This includes completing the extensive readings related to course topics, team and/or individual research plan topics and participation in research plan revision activities (submission of individual draft sections and evaluation of draft sections from other class

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Course Specific Procedures/Policies

**Assignments that you complete for this course should not have been used in other courses.

Late assignment is not accepted. However, if you have a reasonable issue on the late submission, your late module assignments will lose one letter grade (10%) per day

Respect Differing Views

As with all graduate courses, this course deals with ideas. Please be respectful of individuals with ideas and beliefs that differ from your own. People can have complex reasoning for what is seen as, on the surface, a simple idea. Only civil and even-tempered discussions will be permitted in class.

Scholarly Expectations:

All works submitted for credit must be original works created by the scholar uniquely for the class. It is considered inappropriate and unethical, particularly at the graduate level, to make duplicate submissions of a single work for credit in multiple classes, unless specifically requested by the instructor. Work submitted at the graduate level is expected to demonstrate higher-order thinking skills and be of significantly higher quality than work produced at the undergraduate level. Please note that recycling your previous paper submitted to other courses for this class is considered as a plagiarism.

Dropping the Class

At times, we become overloaded or have unplanned events that demand our attention. If you need to adjust your schedule by dropping this course, please follow university

The syllabus/schedule are subject to change.

procedures to officially drop the class. Please do not just disappear. If you fail to officially drop the class, a grade must be assigned at the end of the course.

Incomplete Grades

Per university policy, you must visit with the instructor, develop, and sign "A Plan for Completing the Grade of X" before you may receive an incomplete for the course. The reason for such requests is limited to "circumstances beyond student's control which prevented student from attending classes during Finals Week or the preceding three weeks." You are notified that the deadline date for all plans is not to exceed one semester. Failure to fulfill plan requirements within the specified time will result in a course grade of F.

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

Academic Integrity

Academic Honesty:

Please see the TAMU-C Graduate Catalog and the Publication Manual of the American Psychological Association (2010) for the discussion of academic honesty. Academic honesty

is especially important when it comes to citing/quoting sources in research papers and assignments. Students are responsible for reading this material and becoming familiar with the conventions for acknowledging sources of information. Consequences for academic dishonesty range from failing a specific assignment to expulsion from the University. "Conduct that violates generally accepted standards of academic honesty is defined as academic dishonesty, which includes, but is not limited to plagiarism (the appropriation or stealing of ideas or words of another and passing them off as one's own), cheating on exams or other course assignments, collusion (the unauthorized collaboration with others in preparing course assignments) and abuse (destruction, defacing, or removal) of resource material."

Students at Texas A&M University-Commerce are expected to maintain high standards of integrity and honesty in all of their scholastic work. For more details and the definition of academic dishonesty see the following procedures:
