COURSE INFORMATION

Course Description: The purpose of this class is to train you to conduct psychological research and produce a thesis. This includes all aspects of the research process: development of research materials and/or experimental procedures, how to conduct studies/experiments, data analysis and interpretation, and empirical writing. The class is conducted through informal meetings with Dr. Reysen. The goal of the class is to successfully propose, conduct, and defend your thesis project.

Beyond meeting to discuss research, you may be asked to conduct library research (google scholar is going to be your best friend), conduct research (e.g., run participants), track and maintain studies using the SONA system (participant sign-up system), enter data into the computer, organize and manage databases, and various other tasks.

COURSE REQUIREMENTS

Grading: The student will produce and defend a thesis project. If the student does not complete and defend the thesis during the semester, the instructor will assign a grade of "I" and the student will defend the thesis in a subsequent semester.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Interaction with Instructor:

Please feel welcome to contact me in person during office hours, before or after class, online through University email or schedule an appointment to meet with me. All email should receive a response within 48 hours. If you have not received a response then assume your email did not go through and please try again to make contact. All email should include student's last name, first name, course name and brief description of the reason for contact.

Student Behavior:

My expectations in this area should be very simple to fulfill. (1) Electronic devices should be turned off or put on vibrate when in class. (2) Immaturity will NOT be tolerated! If a student's

behavior is disrupting the class, he/she will be asked to leave. (3) Respect: Given the nature of this course, we may discuss issues that some of you may find embarrassing, uncomfortable, and/or even “inappropriate.” To remain in this class, you must be respectful of others and maintain a mature and professional manner at all times. Failure to do so will result in your expulsion from the course. (4) The Student’s Guidebook addresses the issues of academic cheating and plagiarism. These are a breach of conduct, and students are subject to disciplinary actions. It’s simple. Do NOT cheat (to cheat is to act dishonestly or unfairly in order to gain an advantage) or plagiarize (to plagiarize is to take the work or idea of someone else and pass it off as one’s own)! (5) Do NOT talk during class unless you are participating in class discussion.

Recording:

Course materials prepared by the instructor, together with the content of all lectures and review sessions presented by the instructor are the property of the instructor. Video and audio recording of lectures and review sessions without the consent of the instructor is prohibited. On request, the instructor will usually grant permission for students to audio tape lectures, on the condition that these audio tapes are only used by the individual making the recording. Unless explicit permission is obtained from the instructor, recordings of lectures and review sessions may not be modified and must not be transferred or transmitted to any other person, whether or not that individual is enrolled in the course.

University Closing Due to Inclement Weather:

University closing information will be posted on the web at <http://web.tamuc.edu>. Information will be forwarded to radio station KETR (88.9 FM); Dallas-area television stations KDFW (Channel 4), KXAS (Channel 5), and WFAA (Channel 8); and, Tyler/Longview-area television station KLTV (Channel 7).

TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.

- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.

Desktop Support
