Course Description

The Accounting Information Systems course introduces students to how accounting activities are integrated into manual and computer-based accounting information systems. The course explores in detail the revenue and expenditure cycles, the general ledger, financial reporting, and management reporting systems. Internal control, fraud, and ethics are integrated throughout the curriculum. Students will be required to solve cases utilizing problem solving techniques and critical thinking.
Student Learning Outcomes

1. Students will be able to use QuickBooks to enter transactions and generate reports.
2. Students will be able to explain the function of a basic AIS system.
3. Students will be able to explain how data is collected and processed by an organization.
4. Students will be able to design an accounting information system to provide information needed to make key decision in the business cycle.

Student Responsibilities:

Complete all assignments in a timely manner
Devote the necessary time outside of class
Read assigned material prior to the class

The above list emphasizes the responsibilities that the student must adhere to so that each student will have the opportunity to excel in this class. I will hold you responsible for a thorough understanding of all of the material presented in the text, and material acquired from the tutorials, and other research and reference sources. You may not gain all of the knowledge you need in this class exclusively from your textbooks. I will expect you to use your research and information acquisition skills to obtain any knowledge or information that is not specifically presented. A good reference is an online Financial Accounting textbook that can be accessed using the following URL www.principlesofaccounting.com.

Assessments and Grading

The final course grade will be based on the following items:

<table>
<thead>
<tr>
<th></th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>Three Exams</td>
<td>300</td>
</tr>
<tr>
<td>Projects</td>
<td>200</td>
</tr>
<tr>
<td>Total</td>
<td>500</td>
</tr>
</tbody>
</table>

Grades for the course will be determined by converting each student’s points out of a possible 500 into a percentage and then applying the following ranges:

A = 90%-100%
B = 80%-89%
C = 70%-79%
D = 60%-69%
F = 59% or Below
TECHNOLOGY REQUIREMENTS

Browser support

D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:

- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.
