

**CHEM 1311 GENERAL AND QUANTITATIVE CHEMISTRY I****Instructor Information**

Dr. Stephen Starnes

Office: Science 339

Email: Stephen.Starnes@tamuc.edu

Phone: 903-886-5389

Office Hours: MWF: 12:00 - 1:00 pm or by appointment, R: 11:30 am - 12:30 pm, 2:00-3:00 pm

Course Materials

Lecture textbook: *General Chemistry*, 10th Edition, Ebbing, Gammon, Brooks/Cole Cengage Learning, Belmont, CA. ISBN: 978-1285051376. The 8th, 9th or 11th edition of the lecture textbook is also fine for you to use. The 11th edition is the newest addition (and the most expensive edition).

Classroom: Lecture

Section 001: MWF 1:00 -1:50 pm in STC 127

Section 002: TR 12:30-1:45 pm in STC 127

** If you cannot attend your regular lecture one day, you can attend the other section's lecture.

Course Description: 3 Semester Hours: 2 hours and 30 minutes lecture per week. This course is part of the University Studies core courses and will meet criteria for science credits. This is the first part of a two-course sequence of general chemistry. This course is designed primarily for the students majoring in sciences or in pre-professional programs. Topics covered include the scientific method, characteristics and transformations of matter, atomic theory, chemical reactions, the behavior of gases, an introduction to energy, bonding and shapes of molecules, and intermolecular forces Chemists deal with these topics every day, but these concepts are also crucially important to other branches of science.

Lecture Learning Outcomes / Course Objectives

Upon completion of the course, I intend for my students to have realized a number of objectives.

1. Students will be able to analyze, evaluate, or solve problems when given a set of circumstances, data, text or art. Be able to critically analyze a chemical problem and deduce a solution to the problem utilizing step-wise processes.
2. Students will be able to interpret, test and demonstrate principles revealed in empirical data and/or observable facts. General chemistry requires good algebra skills. By the end of this course, you should be able to utilize algebraic skills to solve chemical problems.
3. In written, oral, and/or visual communication, A&M-Commerce students will communicate in a manner appropriate to audience and occasion, with an evident message and organizational structure.
4. Students will be able to work together toward a shared purpose relevant to the course or discipline with a sense of shared responsibility for meeting that purpose.

General Content Knowledge Students Should Obtain

1. Know the nature of the bonding in compounds.
2. Relate the structure found in a given molecule to its physical and properties.
3. All students must know the basics of IUPAC nomenclature of compounds.

4. Know the importance of chemistry and its relationship to other disciplines and our daily lives.
5. Understand the basic structures of atoms, ions, and molecules, and ways to quantitatively describe the properties of atoms and molecules in the various phases of pure matter and in mixtures.
6. Understand the reactivity of atoms, ions, and molecules, and the various qualitative and quantitative methods for describing or depicting chemical reactions.
7. Understand the concept of chemical equilibrium, and the energies that drive chemical reactions: an introduction to the field of thermodynamics.
8. Understand the relationship between the electronic configurations of atoms and molecules and their chemical properties: an introduction to the field of quantum mechanics.
9. Understand the basic properties of gases with respect to temperature, pressure, volume and amount of gas.

Course Requirements: Minimal Skills Needed

Prerequisite: The student must have completed Math 1314 or be concurrently enrolled in math 142. Students who had adequate high school preparation in mathematics or were exempted from Math 1314 will be allowed to enroll with the instructor's consent. Concurrent enrollment of Math 1314 with CHEM 1311 generally is not encouraged. Students who are currently enrolled in math remediation courses such as Math 131 will not be eligible for enrollment in CHEM 1311.

Student Responsibilities or Tips for Success in the Course: Pointers to Succeed

1. The lectures in this course will cover Chapters 1 through 11 of the assigned textbook. This material will be covered at the rate indicated by the *Tentative Class Schedule*. *Be sure to read the textbook before coming to the lectures*. The lectures will focus on important chemistry concepts but will not serve as a substitute for reading the textbook. The textbook is a more detailed presentation with a more extensive set of example problems. Chemistry is a physical science and it is imperative to master calculations to pass the course.
2. *Finish your homework promptly*. Working the problems will help you succeed in the course. The more problems that you work the better prepared you will be for exams.

Recommended HW problems and examples: I recommend working as many chapter end problems in the textbook as you can. The answers to the odd numbered problems can be found in the appendix of your textbook. If you can answer the odd numbered questions correctly, this will be a good indication that you understand the material and that you should be able to find success in the course.

Grading

Your course grade will be based on 1000 points total, broken down as follows:

- four examinations (170 points each, 680 points total, 17% each, 68% total)
- a comprehensive final examination (170 points, 17%)
- four quizzes (150 points total, 37.5 points each, 15% total)

Late work will not be accepted. There will be NO make-up exams except for those missing an exam due to an A&M-Commerce sponsored event (such as an athlete participating in an A&M-Commerce athletic event or a student giving a conference presentation). Prior notification of participation in such an event MUST be given and make-up exam arrangements made in advance of the regularly scheduled exam.

The lowest of the 4 exam scores will be automatically replaced by a higher final exam score if your final exam score is higher than any one of your regular exams. If you have an ***acceptable, documented reason*** for missing an exam (such as a documented illness, auto accident, observance of religious holiday), you will be allowed to replace the missed exam with your score on the final. Otherwise, you will receive a "zero" for that exam, that zero will not be replaced by the final, and will be included in the calculation of your final class grade. The only opportunity for extra credit in this class will be through your attendance at a 1.5 hour supplemental instruction (SI) session each week – attendance at an SI session is **OPTIONAL**. There will be 15 weeks of supplemental instruction offered where students can earn up to a maximum of 50 points extra credit (so a 5.0% bonus in the class). Attendance at a session during the week of an exam will NOT count as extra credit and there are no SI sessions during spring break. Attendance during the 10 non-exam weeks will be worth 5 points each. Attendance during non-exam weeks is worth extra credit to encourage you to study on a consistent basis. Cramming the week of an exam is discouraged so attendance at an SI session during those weeks will earn no extra credit.

The final exam will be comprehensive over all material covered in the class. The last drop date for the course is **March 27, 2020**. Grading will be based on a standard percentage scale: 100-90 = A; 89-80 = B; 79-70 = C; 69-60 = D; 59-below = F. Dishonest scholarship will earn an automatic zero (0) and initiate prosecution to the fullest extent. Incomplete grades may be given only if the student has a current average $\geq 70\%$ and is precluded from completion of the course by a documented illness or family crisis. **If you miss 5 or more class periods and do not have a passing grade in the class, you may be administratively dropped from the class.**

Exam details:

During exams, students are not allowed to have the following items with them: scratch paper (unless provided by the instructor), course materials, textbooks, notes (including formula sheets), or electronic devices, including iPads, iPhones or any other type of smart phone or cellular phone, iPods, MP3 players, earphones, radios, cameras, multi-functional timepieces, computers, smart watches, or ANY device capable of accessing cellular or wireless networks.

When possible, students will sit in alternating seats, face forward at all times, and remove any clothing which might conceal eye movements, reflect images of another's work, or hide course materials for copying.

Only non-programmable calculators are allowed on exams. I recommend purchase of one of the following calculators, which are available for approximately \$10.00-\$15.00: TI-30X IIS (solar) or TI-30X IIB (battery) or TI-30Xa. **NO OTHER CALCULATOR TYPE IS ALLOWED. ALL calculators will be checked before/during the exam. Non-approved calculators will be removed immediately from the student, to be returned at some point after the exam period.**

Learning Assistants and Peer-Led Team Learning: There will be five undergraduate students helping with this class. These students have recently completed this course and have demonstrated excellence in the subject matter. These students are employed as Learning Assistants (LAs) by a grant from the National Science Foundation. The purpose and goal of these student assistants is to help you learn chemistry and successfully pass this course. Each week, starting the second week of class, you will have the **voluntary option** of attending a Supplemental Instruction (SI) session, which will be instructed by an LA. This will be a 90 minute session where the LA will provide an active learning experience in which students can

gain the skills and confidence to be successful learners in General Chemistry and other science courses and review the material covered in Chem 1311 the previous week(s). In the weekly ninety-minute LA-SI sessions, the LA will work with students to solve problems related to the most recent material covered in the Chem 1311 lecture. If you do not attend a weekly SI session you will lose the extra credit points offered for that week with no opportunity to do another assignment to earn those points. If the SI sessions do not meet your schedule, you can attend a tutoring session in the “JAMP” room (Academic Success Center), where you can study with one of the JAMP tutors for 90 minutes a week. If you are a student athlete, you can work with a tutor in the Thrower Center 90 minutes a week – the dates and times of these tutoring sessions MUST be documented by the tutor and reported to Dr. Starnes on a regular basis throughout the semester. There will be NO exceptions. To succeed in Chem 1311, you must adopt a habit of studying on a consistent basis, keeping up with the material as it is covered in class.

TECHNOLOGY REQUIREMENTS

LMS

All course sections offered by Texas A&M University-Commerce have a corresponding course shell in the myLeo Online Learning Management System (LMS). Technical requirements are:

LMS Requirements:

<https://community.brightspace.com/s/article/Brightspace-Platform-Requirements>

LMS Browser Support:

https://documentation.brightspace.com/EN/brightspace/requirements/all/browser_support.htm

YouSeeU Virtual Classroom Requirements:

<https://support.youseeu.com/hc/en-us/articles/115007031107-Basic-System-Requirements>

ACCESS AND NAVIGATION

You will need your campus-wide ID (CWID) and password to log into the course. If you do not know your CWID or have forgotten your password, contact the Center for IT Excellence (CITE) at 903.468.6000 or helpdesk@tamuc.edu.

Note: Personal computer and internet connection problems do not excuse the requirement to complete all course work in a timely and satisfactory manner. Each student needs to have a backup method to deal with these inevitable problems. These methods might include the availability of a backup PC at home or work, the temporary use of a computer at a friend's home, the local library, office service companies, Starbucks, a TAMUC campus open computer lab, etc.

Technical Support

If you are having technical difficulty with any part of Brightspace, please contact Brightspace Technical Support at 1-877-325-7778. Other support options can be found here:

<https://community.brightspace.com/support/s/contactsupport>

COMMUNICATION AND SUPPORT

If you have any questions or are having difficulties with the course material, please contact your Instructor.

Exam 1:	Thursday or Friday	February 20th or 21st	Chapters 1, 2, 3
Exam 2:	Thursday or Friday	March 19th or 20th	Chapters 7, 8
Exam 3:	Thursday or Friday	April 9th or 10th	Chapters 9, 10, 11
Exam 4:	Thursday or Friday	April 30 th or May 1st	Chapters 4, 5, 6
Final Exam:	Thursday or Friday	May 7th or 8th	Cumulative (Chapters 1-11)

	Monday	Tuesday	Wednesday	Thursday	Friday

**** Students in the MWF course (001 section) will take their exams on M, W or F, students in the TR course (002 section) will take their exams on Tuesday or Thursday.**

The best way to communicate with the instructor is via e-mail: stephen.starnes@tamuc.edu or stop by the instructor's office (Science 339) for clarification of course material and expectations.

COURSE AND UNIVERSITY PROCEDURES/POLICIES

Syllabus Change Policy

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

University Specific Procedures

Student Conduct

All students enrolled at the University shall follow the tenets of common decency and acceptable behavior conducive to a positive learning environment. The Code of Student Conduct is described in detail in the [Student Guidebook](#).

<http://www.tamuc.edu/Admissions/oneStopShop/undergraduateAdmissions/studentGuidebook.aspx>

Students should also consult the Rules of Netiquette for more information regarding how to interact with students in an online forum: <https://www.britannica.com/topic/netiquette>

TAMUC Attendance

For more information about the attendance policy please visit the [Attendance Procedure 13.99.99.R0.01](#).

<http://www.tamuc.edu/admissions/registrar/generalInformation/attendance.aspx>

<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/13students/academic/13.99.99.R0.01.pdf>

Academic Integrity

Students at Texas A&M University-Commerce are expected to maintain high standards of integrity and honesty in all of their scholastic work. For more details and the definition of academic dishonesty see the following procedures:

[Undergraduate Academic Dishonesty 13.99.99.R0.03](#)

<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/13students/undergraduates/13.99.99.R0.03UndergraduateAcademicDishonesty.pdf>

[Graduate Student Academic Dishonesty 13.99.99.R0.10](#)

<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/13students/graduate/13.99.99.R0.10GraduateStudentAcademicDishonesty.pdf>

Students with Disabilities-- ADA Statement

The Americans with Disabilities Act (ADA) is a federal anti-discrimination statute that provides comprehensive civil rights protection for persons with disabilities. Among other things, this legislation requires that all students with disabilities be guaranteed a learning environment that provides for reasonable accommodation of their disabilities. If you have a disability requiring an accommodation, please contact:

Office of Student Disability Resources and Services

Texas A&M University-Commerce

Gee Library- Room 162

Phone (903) 886-5150 or (903) 886-5835

Fax (903) 468-8148

Email: studentdisabilityservices@tamuc.edu

Website: [Office of Student Disability Resources and Services](http://www.tamuc.edu/campusLife/campusServices/studentDisabilityResourcesAndServices/)

<http://www.tamuc.edu/campusLife/campusServices/studentDisabilityResourcesAndServices/>

Nondiscrimination Notice

Texas A&M University-Commerce will comply in the classroom, and in online courses, with all federal and state laws prohibiting discrimination and related retaliation on the basis of race, color, religion, sex, national origin, disability, age, genetic information or veteran status. Further, an environment free from discrimination on the basis of sexual orientation, gender identity, or gender expression will be maintained.

Campus Concealed Carry Statement

Texas Senate Bill - 11 (Government Code 411.2031, et al.) authorizes the carrying of a concealed handgun in Texas A&M University-Commerce buildings only by persons who have been issued and are in possession of a Texas License to Carry a Handgun. Qualified law enforcement officers or those who are otherwise authorized to carry a concealed handgun in the State of Texas are also permitted to do so. Pursuant to Penal Code (PC) 46.035 and A&M-Commerce Rule 34.06.02.R1, license holders may not carry a concealed handgun in restricted locations.

For a list of locations, please refer to the [Carrying Concealed Handguns On Campus](#) document and/or consult your event organizer.

Web url:

<http://www.tamuc.edu/aboutUs/policiesProceduresStandardsStatements/rulesProcedures/34SafetyOfEmployeesAndStudents/34.06.02.R1.pdf>

Pursuant to PC 46.035, the open carrying of handguns is prohibited on all A&M-Commerce campuses. Report violations to the University Police Department at 903-886-5868 or 9-1-1.
