Course Description
Examines the development, implementation, and enforcement of policies by institutions of higher education, state higher education agencies, governing boards, and the government. Emphasis is placed on the impacts of policies on institutions and students.

Course Learning Outcomes (CLOs)
1. Understand basic concepts of policy making and analysis;
2. Understand how to use basic concepts in analyzing given policy positions;
3. Understand how to use the APA style guidelines;
4. Develop autonomy in learning; and
5. Develop group work skills.

*The syllabus/schedule are subject to change.*
**Course Procedures**
Students should access the course minimally every 2-3 days in order to check announcements and read the postings of colleagues. Students should check their TAMU-C e-mail daily to ensure timely receipt of messages from the instructor and University.

Submitted assignments should not have been submitted for any previous courses.

Students are expected to submit all assignments no later than their due dates/times. Any assignment submitted past the due date/time (i.e., by the end of the day, TAMU-C time, of the respective due date) will receive a zero without exception unless an extension is approved by the instructor in advance of the due date/time (note: a request for an extension in advance of the due date/time does not mean an extension is approved; explicit approval before the due date/time is required to avoid a zero). Exigencies will be handled on a case-by-case basis.

The syllabus is a guide. Circumstances and events, such as student progress, may make it necessary for the instructor to modify the syllabus during the semester. Any changes made to the syllabus will be announced in advance.

**Assignment Procedures**

1. Students should work approximately 15 hours per week in completing course assignments.

2. Reading rate is approximately 11 minutes per page. Consult the following for study guidance:

   The syllabus/schedule are subject to change.

Discussion forums will be provided to post any comments or questions with respect to the assigned readings. Although these forums are not graded, students are encouraged to participate in these forums with the instructor (i.e., post, read postings, and reply to postings) in order to facilitate learning via discussion and build a sense of community.

3. Point distribution for graded assignments:

   | Assignment 1 | 20 points |
   | Group PPT    | 60 points |
   | Evaluation by Group Members | 20 points |

4. In the Period 2 content section for the course in D2L, an overview of Assignment 1 and its associated tasks will be posted in the document titled Assignment 1. Students should follow the tasks as outlined in the document. **The paper must be e-mailed to the instructor by the due date/time.** The grading rubric for this paper will be 60% content and 40% APA usage (includes grammar).

5. Before or near the beginning of Period 4, the instructor will e-mail as well as post to D2L the names of students assigned to each group. In the Period 4 content section, an overview of Assignment 2 and its associated tasks will be posted in the document titled Assignment 2. Students should begin to discuss which of the presented scenarios they want to pursue as a group and **e-mail to the instructor (one e-mail per group) the decided upon scenario by the due date/time.**

6. Students should follow the tasks as outlined in Assignment 2 file. **The PPT report must be e-mailed to the instructor by the due date/time.** The grading rubric for this PPT will be 60% content and 40% APA usage (includes grammar).

7. The group members for each individual will evaluate the individual’s contribution to the discussion, analyses, and preparation of the PPT. These evaluations will be averaged in determining the 20-point evaluation grade.

Technology Requirements

**Browser Support**
D2L is committed to performing key application testing when new browser versions are released. New and updated functionality is also tested against the latest version of supported browsers. However, due to the frequency of some browser releases, D2L cannot guarantee that each browser version will perform as expected. If you encounter any issues with any of the browser versions listed in the tables below, contact D2L Support, who will determine the best course of action for resolution. Reported issues are prioritized by supported browsers and then maintenance browsers.

Supported browsers are the latest or most recent browser versions that are tested against new versions of D2L products. Customers can report problems and receive support for issues. For an optimal experience, D2L recommends using supported browsers with D2L products.

Maintenance browsers are older browser versions that are not tested extensively against new versions of D2L products. Customers can still report problems and receive support for critical issues; however, D2L does not guarantee all issues will be addressed. A maintenance browser becomes officially unsupported after one year.

Note the following:
- Ensure that your browser has JavaScript and Cookies enabled.
- For desktop systems, you must have Adobe Flash Player 10.1 or greater.
- The Brightspace Support features are now optimized for production environments when using the Google Chrome browser, Apple Safari browser, Microsoft Edge browser, Microsoft Internet Explorer browser, and Mozilla Firefox browsers.
