VI. Campus Housing

Students will often chose to live on-campus because of the easy accessibility to on-campus services, classes, library, professors, other students, and recreational activities. Living on-campus can be a very fulfilling experience for any student as they truly get to experience “American college life.” In many cases we recommend that international students who are studying at A&M-Commerce strongly consider living on-campus in their first year so they may become more familiar with the area and American culture. To learn more click here.

- Meal plans are available for students who live on-campus. For students who prefer cooking their own meals some halls will have kitchens in each room and some will only
• have a common kitchen area on each floor or the main lobby.
• Some residence hall rooms and bathrooms provide some privacy but they are generally communal in nature.
• You may chose a preference of where you would like to live on-campus but there is no guarantee that you will be assigned to one of those preferences.
• You may give preference for someone as a roommate but there is no guarantee that you will be assigned to a room with the person you have listed as a preference.
• Students who live on-campus are required to sign a one-year lease agreement (fall/spring) and it is very difficult to be released once you have signed the contract and moved in on-campus

Students interested in learning more about on-campus housing may contact Residential Living and Learning by clicking here.

VII. Off-campus Housing

There are a number of different rental options for new international students in Commerce, TX. **AM-Commerce does not endorse nor is affiliated with any of these services or companies. XIII. Enrollment Requirements for International Students

F-1 international students are required to enroll in a full course of study each fall and spring semester. Students are not required to study during the summer unless it is their first semester in their academic program at A&M-Commerce. A full course of study is:

There are limited exceptions to the full course of study requirements for international students. New international students will need to be prepared to enroll in the minimum number of required courses. *A class is normally considered 3 credit hours for students.* *For example... 9 credit hours would be 3 classes.*

**XIV. Funding Your Education**

**On-campus Employment:** All international students are eligible for on-campus employment up to 30 days prior to the start date of their I-20. Students may find open on-campus employment positions by clicking here. Permission from the OIP or SEVP is not required before you may begin your employment. To learn more click here.

Below are the different types of on-campus employment positions:

Social Security Number: International students will not be eligible for a social security number (SSN) until they have found employment. **Students will only be eligible for on campus employment their first academic year (fall, spring) of enrollment.** Off campus employment is restricted due to the F visa rules. While it is beneficial to have an SSN it is not required unless a student intends to apply for off-campus employment later in their academic program or after they graduate.

XV. **Cell Phones in the U.S.**

Most cell phone providers in the U.S. require either a Social Security Number (SSN) or a high security deposit for setting up a contract for your cell phone service. These contracts usually last from one to two years and you are required to stay with the provider or you will have to pay a fee to cancel your contract. Many providers also have a pre-paid options in which you pay on a monthly basis for the service. There is no contract and you may cancel service or switch to another provider at any time. Below are more details about each type of service:

**Contracts**
- Most cell phone companies charge for all calls, outgoing AND incoming, though many have free calling within their network.
- Some plans give you a set number of minutes per month. Overage minutes are charged at a much higher rate. Check your plan to see if weekend and nighttime minutes are free.
- If you don’t have a US Social Security Number, expect to pay a deposit (the deposit should be returned at the end of the contract). Some providers have become more friendly toward international customers recently.
- Text messaging (SMS) typically carries an additional charge if not included in a plan. Ask about adding texting to your plan if not included.
- For most companies, you must have a compatible phone. Ask specifically if you want to use one you currently have.

**PLEASE NOTE:** Once a contract has been signed, you will be obligated to pay the entire contract period. If you decide to break the contract providers will usually charge a high fee to cancel the contract. Contracts generally last from one to two years.
Pre-Paid

- If you intend to make calls to your home country, ensure this is possible with your specific plan.
- May be month-to-month subscriptions or “add minutes as you go.”
- No deposit required.
- Cheaper phones—generally basic features such as SMS and calling.
- Cost ranges from minimal to comparable to contract services.

XVI. Banking in the U.S.

The city of Commerce has a few different banking facilities and some provide more services for our international students and scholars than others. You may review the local Yellow Pages to find the banks in the area and/or consult other international students and scholars.

There are different kinds of banks accounts to choose from. The three most common are:

- **Savings Accounts** - This type of account allows your money to earn interest over time. Some savings accounts charge a fee for frequent
withdrawals and keeping a balance below a designated amount. This type of account is best if you need to deposit money for safekeeping over an extended period of time.

- **Checking Accounts**- This type of account is designed to hold your money but also allows you to access it whenever needed through checks and check cards. Some of these accounts earn interest and some have restrictions on the number of checks you can write. Most have minimum balances and penalties for going below the minimum balance.

- **Certificate of Deposits (CD’s)**- These are savings certificates that earn higher interest rates than savings and checking accounts. They also require you to keep money in the CD for a specific length of time.

**University Option for Refunds and Banking:** A&M-Commerce utilizes a third party company called BankMobile. Refunds for tuition and fees are processed through BankMobile according to your preferred method. Students may also open a full-service checking account through BankMobile called BankMobile Vibe. For more information click [here](#).

**XVII. Tuition and Fee Payment**

Payment for tuition and fees is handled through the university Student Accounts department. For a list of frequent asked questions for tuition, fees, and other questions click [here](#).

The exact amount of tuition and fees a student will pay their first semester will not be known until after they have register for classes. Students may find the schedule for tuition and fees by credit hour (a course is usually 3 credit hours) by clicking [here](#).

Students will need to be sure to submit the Financial Responsibility Agreement through their myLEO before the start of their first semester.

Students who will pay their tuition and fees by wire transfer may contact the OIP for instructions or go to [www.flywire.com/mypayment](http://www.flywire.com/mypayment) to make your payment.
XVIII. Driver’s License and Texas State ID Card

A Texas Driver’s License is not only a document demonstrating permission to drive but it is also a nationally accepted form of identification. The Texas state ID card is only used as an identification card. Driver’s license and state ID’s are issued by the Texas Department of Public Safety (DPS). Any international student and their dependent may apply for a driver’s license or state ID.

For information on how to apply for a Texas state driver’s license click here. For a list of acceptable documents click here. A social security number (SSN) is not required to apply for a driver’s license. The written driver’s test may be taken online and you may contact DPS or the OIP for more information.

XIX. Lion Identification Card (Student ID Card)

The Mane Card Office produces the official identification card for Texas A&M University-Commerce. The card is referred to as a Lion Card and the account associated with the card is called Lion Cash. All students are required to obtain and carry their Lion Card with them at all times. The cost for the first Lion Card is included with your tuition and fee expenses. The Lion Card provides students with the ability to utilize campus food services, and gives card holders Lion Cash spending options. It is also used to gain admission to certain events sponsored by the university or student organizations and to academic resources such as James Gee Library and Campus Recreation Center. The Lion Card program establishes security for the card holder as there is only one valid card per person. Participating off campus merchants accept Lion Cash which can be used to purchase food, gas and other merchandise. Students may apply for their Lion Card once they arrive in campus before they register for classes. Click here for more information.

XX. Campus Safety and Parking Permits

Texas A&M University - Commerce has a safe campus surrounded by a residential community within the town of Commerce located in North East Texas. We understand many parents and students are concerned about safety on college/university campuses. We acknowledge that concern and accept our responsibility to enforce security policies and practices.

UPD offers a number of services to the university community including vehicle assistance, delivering emergency messages, lost and found, weather monitoring, crime prevention programs, and much more.

The Pride Alert Warning System (PAWS) is a campus wide system that is used to communicate many types of serious incidents. PAWS utilizing text messaging and emails to communicate important information including campus closures, severe weather, and campus emergencies. Students may sign up for PAWS through their myLEO.
