eCollege Webliography Resources in D2L

Overview

myLeo Online (D2L Brightspace) does not have a Webliography tool like eCollege does. However, if your eCollege course had content in that tool in eCollege, the resource migrates as an HTML document. To provide access to your students you will need to include it as a topic under a module. The steps to do so are below.

1. Select **Module** where you want to locate the resource. In the image below a module called Resources is selected:

Search Topics	Q	Resources ~
토 Overview		Add dates and restrictions
Bookmarks	1	Add a description
Course Schedule		Upload / Create to Existing Activities V Bulk Edit
Table of Contents	42	Drag and drop files here to create and update topics
■ Doc Sharing		Add a sub-module
≡ Resources		

2. Select Upload/Create and then Upload Files

3. On the Add a File dialog box select Course Offering Files

Add a File	×
😨 My Computer	>
Course Offering Files	>
< Shared Files	>
 OneDrive Files 	>
Cancel	h.

4. Migrated resources will most likely be located in a main folder with a long alpha-numeric name, prefixed by **imscc**

Course	e Offering Files		
More			
	File Name 🔺		Siz >
-	imscc32d8ad	:ca726d4833a7e644ebbca830d ඌ	ld

5. There are often numerous subfolders. Scroll down to locate the folder labeled WL

∎U6R	
■ U7R	
U8R	
■U9R	

6. Select the check box next to the file and select Add

W	L	Y T
More		
	File Name 🔺	Size
V	Uebliography.html	1.32 KB

7. The Webliography should now show as a topic within the module:

Resources ~	🖨 Print	Settings
Add dates and restrictions		Published 🗸
Add a description		
Upload / Create 🗸 Existing Activities 🗸 🌮 Bulk Edit		
■ Webliography ~ ● Web Page		\checkmark

8. Click on the topic link to see how it appears to students

You can update the links or text by selecting Edit HTML at the bottom of the window.
