A. PURPOSE
This Standard Operating Procedure (SOP) describes acceptable procedures for using Ultra Boss Fly Control Pour-on insecticide on horses owned by the TAMU-C Farm, in order to facilitate safe treatment procedures.

B. MATERIALS
- Ultra Boss Pour On Insecticide.
- Scale
- PPE

C. PROCEDURES
1) Horses will be treated in the following prescribed manner
   a) Fly Control to be performed on weekdays only, when on-call veterinarians are available for emergencies.
   b) Performed by at least two people, one member of farm staff and one member of veterinary staff.
   c) Fly control to be performed on University-owned animals only. No loaned horses, boarders, rodeo horses, etc. fall under this approval.
   d) Personnel are only qualified to perform pour-on fly control with proper training, and with the Attending Veterinarian’s annual authorization.
   e) Training should be documented per standard IACUC policy, i.e. training roster with procedures training included.
   f) Dosage for horses is 3 mL per 100 lbs body weight of animal up to a maximum of 30 mL for any one animal. Pour along back and down face. Horses must be weighed prior to application to ensure correct dosage. Repeat treatment as needed, but not more than once every two weeks.
   g) Do not saddle horse for 6 hours after application and refrain from washing down area of application
   h) A Texas A&M University-Commerce Approved Veterinarian will be called in the event that a horse develops hives, respiratory distress, or any other sign of allergic reaction to this product.

D. SAFETY
1) When working with pesticides, wear appropriate PPE. Observe proper hygiene, and be aware of allergy, zoonosis, and injury risks. Check with the facility supervisor regarding requirements for personal protective equipment.
2) Harmful if swallowed or absorbed through the skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals
3) If on skin or clothing •Take off contaminated clothing. •Rinse skin immediately with plenty of water for 15-20 minutes. •Call a poison control center or doctor for treatment advice. If swallowed •Call poison control center or doctor immediately for treatment advice. •Do not induce vomiting unless told to do so by the poison control center or doctor. •Do not give any liquid to the person. •Do not give anything by mouth to an unconscious person. If in eyes •Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. •Call a physician or poison control center for treatment advice.

HOT LINE NUMBER: Have the product container or label with you when calling the poison control center or doctor or going for treatment. You may also contact the Rocky Mountain Poison Center at 1-303-595-4869 for emergency medical treatment information. Note to Physician: Contains petroleum distillates - vomiting may cause aspiration pneumonia
