

This feasibility form is for those individuals seeking to use student educational data at Texas A&M University-Commerce for the purposes of academic research. *This is only a feasibility survey to determine if the proposed use of student data is feasible under the guidance of FERPA.* A separate data request form must be completed following a determination from IRB. Do you already have access to the data that you want to use for research purposes?

- Yes
- No

Do you plan to submit a data request form to IRB for approval?

- Yes
- Maybe
- No

Will all the study team members who will collect or handle FERPA protected material have FERPA training? (FERPA training is administered yearly through training and development to all full time faculty and staff members as well as student workers and GA's.)

- Yes
- No

Are any of the study team members students?

- Yes
- No

If yes, please note that students who are not employed at the university are not eligible for FERPA training and MUST NOT collect or handle any FERPA protected material until it is de-identified.

Name: _____ Department: _____
